FATHER AND SON TO JAIL FOR DRUG STORE LIQUOR SALE

Charles and Chelton Remington of 4501 Olive Street Get 30 Days and $400 Fine Each.

EACH TO SERVE TERM IN TURN

Elder to Manage Business Till Younger Is Freed — Another Son Just Finished Like Sentence.

Charles Remington will manage the Remington Drug Co., 4501 Olive street, for the next 30 days while his son, Chelton, is serving a sentence in the Warrenton, Mo., jail for the illegal sale and possession of liquor at the store. Upon the son's return, he will take charge of the business, while the father goes to jail on a similar sentence.

This arrangement was approved for business reasons by Federal Judge Davis today in sentencing the Remingtons to jail and fining each $400 on their pleas of guilty. The son was bound over to the marshal and the father was released on bond until Jan. 3.

Charles Remington is about 65 years old; his son is about 27. They are officers of the Remington Drug Co., a $10,000 corporation.

A second son, Charles F. Remington, who has a drug store at McCausland and Mitchell avenue, was released from the St. Charles jail last week. It is understood his family cared for his business in his absence. He pleaded guilty, Oct. 26, to illegal sale and possession of liquor, and was sentenced to 30 days in jail and fined $400.

The two stores were raided June 10 by Federal agents after a prohibition agent new to St. Louis had reported buying pints of whisky and synthetic gin repeatedly at both places, without prescriptions. Proceeding to revoke the liquor permits of the stores are pending.

HENRY W. SAVAGE, THEATRICAL PRODUCER, DIES IN BOSTON

Illness of Several Weeks Fatal to Builder of Castle Square Theater; Was 68 Years Old.

By the Associated Press.

BOSTON, Nov. 29.—Henry W. Savage, widely-known theatrical producer, died today at the Phillips House of the Massachusetts General Hospital, after an illness of several weeks. He was 68 years old.

He built the Castle Square Theater in Boston in 1894, and began as manager by presenting grand opera in English. His first venture in New York was with grand opera at the American Theater in 1900. Since that time he had devoted himself largely to musical comedy.

Although for many years identified with real estate development in Boston, Mr. Savage attained prominence when, under the name of Henry W. Savage, Inc., he began operations as a theatrical producer. Among the productions which he sponsored were Wagner's "Parsifal" (in English), "The Prince of Pilsen," "The Merry Widow" and "Madame Butterfly."

For the last two years he had been inactive in the theatrical field. He maintained a home at Jensen, Fla., and passed much of his time there.

He had been a patient at the hospital here several times since last spring, entering it for the last time in September.

London Night Club Raided.

By the Associated Press.

LONDON, Nov. 29.—The London police—its representatives appropriately garbed in evening dress—continuing a crusade against night clubs which are suspected of overstepping the bounds of the liquor law. The latest club to be visited is Montmarte Club, a swagger West End resort. The police raided the club in the early hours of this morning and took the names of a number of men and women present. Dancing was in progress when the raid occurred.

60 BOSTON POLICE BESIEGE NEGRO'S HOUSE FOR HOURS

Four Arrests Made; 3 Officers Overcome by Tear-Bomb Gas During Fight.

By the Associated Press.

BOSTON, Nov. 29.—A revolver fight between 10 policemen who besieged a South End house and its four inhabitants for hours ended at daybreak today when riot squads stormed the building and dragged out two Negroes and two women, one of whom was white. Many shots were fired. Tear bombs were used. One Negro was wounded seriously.

The siege threw a thickly settled district inhabited largely by Negroes into an uproar.

The police were unable to explain the cause of the trouble, which started at an all-night drinking party.

Three policemen were taken to a hospital unconscious from the fumes of tear bombs which made adjoining buildings untenable for hours.

$47,915,828 BET AT RACE TRACKS IN CANADA IN 1927

Amount Shows Increase of $1,500,000 Over Previous Year, Government Report Shows.

By the Associated Press.

OTTAWA, Ont., Nov. 29.—A total of $47,915,828 was wagered on race tracks in Canada during the racing season of 1927, the Department of Agriculture announced today. This is an increase of more than $1,500,000 over the amount bet in 1926. The 1927 racing season had 354 days, ten more than in 1926.

For the four districts in which Canadian race tracks are divided, namely, Quebec, Ontario, the prairie provinces and British Columbia, only Quebec showed a decrease of the total amount wagered this year in comparison with 1926.

SMITH WON'T FIGHT RULE

Copeland Says Governor Doesn't Seek Change in Convention.

By the Associated Press.

WASHINGTON, Nov. 29.—Gov. Alfred E. Smith of New York does not want the two-thirds rule in the Democratic National convention changed in his behalf, Senator Copeland (Dem.), New York, declared today in discussing the presidential political outlook.

Copeland said that after there had been balloting for the numerous "favorite sons" in the 1928 convention, Gov. Smith would command a majority of the delegates and on succeeding ballots and would attain the necessary votes to bring about his nomination.

Overhead Fog Darkens London.

By the Associated Press.

LONDON, Nov. 29.—London's skies were again of almost inky blackness today because of rain and an overhead fog. There was no surface obscuration, however, and traffic proceeded with the aid of regular night-time street lighting. The worst trouble was in the wool trade, where good daylight is essential for examination and valuation and for the third time within a week the wool sales had to be postponed because of insufficient daylight.

DODGE CALLED ON WIFE OF REMUS, SAYS CARETAKER

Custodian Tells of Three Visits by U. S. Agent to Home of Defendant, Which Was Stripped.

ALAN CURRY TESTIFIES SLAYER WAS INSANE

Prosecutor Asserts Mrs. Mabel Willebrandt Told Him St. Louis Man Resigned on Demand.

By the Associated Press.

CINCINNATI, Nov. 29.—An eyewitness story of the association of Franklin L. Dodge Jr., former Federal Department of Justice agent, with Mrs. Imogene Holmes Remus, continuation of which George Remus contends drove him mad, was related for the first time in Remus' murder trial here today. Two other witnesses added their opinions that Remus was insane prior to the time he shot and killed his wife in Eden Park here Oct. 6.

Three times Dodge and Mrs. Remus were seen together at the Remus mansion here while the master of the house was serving a penitentiary sentence on a conviction brought about by Dodge, testified William Mueller, for eight years custodian of the property. He was questioned by Charles H. Elston, co-counsel with Remus.

Mueller added this alleged quotation from Mrs. Remus: "Don't be afraid. Mr. Remus will never come back here. We are going to have him deported. Everything is fixed up. He'll go back the way he came.'"

The occasion was, he said, when Mrs. Remus handed him a screw driver and urged that he assist in dismantling the house which was stripped bare before Remus returned from prison.

St. Louis Man on Stand.

The other witnesses today were Alan Curry, former United States District Attorney at St. Louis, and Benton S. Oppenheimer, former judge of the Court of Common Pleas here.

Mrs. Mabel Walker Willebrandt, Assistant United States Attorney-General, supplied the information, said Prosecutor Charles P. Taft, on which questions of impeachment were asked Curry.

The Ohio law permits asking witnesses only about possible past convictions for violations of State or Federal laws for the purpose of lightening the weight of their testimony, unless there are other charges which can be proved. Carl E. Basler, Assistant Prosecutor, asked Curry whether a charge of personal misconduct and another of malfeasance in office had not led to a demand for his resignation.

Curry replied "No" in each instance.

Defense Objects to Questions.

Judge Shook took up the angry objection of the defense that the questions had been asked only to prejudice the jury against Curry's testimony.

Basler asserted his information "came from the highest source, one at which you would be surprised," which satisfied the Court.

It was after adjournment that Taft revealed that while Curry was on the witness stand he had telephoned to Mrs. Willebrandt.

Saw Dodge at Remus Home.

"Did you ever see Franklin L. Dodge at the Remus home?" Elston asked Mueller, the day's opening witness. "Yes, sir, I did," responded Mueller.

Mueller was making his fourth appearance in the witness box.

"When?" Elston asked. "Aug. 1, 1926, a Sunday." Mueller started off. "I came up and Dodge was there in Mr. Remus' automobile. He ran around the car and leaned over like this." Mueller folded his arms on the witness box railing and concealed his face.

"A Mrs. Smith of Columbus and her son were there," said Mueller.

"What did you do?" "I just took a good look."

Saw Mrs. Remus Later.

Mueller admitted that on that occasion he had seen Mrs. Remus two and one-half hours later.

"Any other occasion?" demanded Elston. "Yes, I saw Dodge from the outside of the house and he drew the shade down before my face."

"Who else was there?" "Mrs. Remus."

"When was the next time?" "In the latter part of December, 1926. They had two cars there ready to drive away. Mrs. Remus drew my

GENEVIEVE PADDLEFORD.

ADVENTURESS SENT TO CALIFORNIA PRISON

Genevieve Paddleford, Divorced Wife of Two Millionaires, to Serve 1 to 10 Years.

By the Associated Press.

SAN QUENTIN, Cal., Nov. 29.—Mrs. Genevieve Paddleford, international adventuress, who once presided over one of the most palatial homes in Cairo, Egypt, as the wife of a wealthy shipowner, today settled down to another adventure—one to ten years in the penitentiary here.

Mrs. Paddleford arrived at the prison last night after she was sentenced yesterday at Salinas on a charge of grand larceny, resulting from her purchase on credit of wearing apparel valued at $225 from a Carmel, Cal., store.

She appeared in court on a stretcher, asserting she was suffering from paralysis. After the sentence was imposed she consented to leave the stretcher while she was driven to the prison in an automobile, accompanied by a matron and a Deputy Sheriff.

The prison doctor was instructed to study her ailment to determine whether it was real or feigned.

Several years ago she was married to a wealthy Los Angeles man, Geodge E. Paddleford, but divorced.

Mrs. Paddleford next was heard from in jail at Lucerne, Switzerland, while her daughter, Cynthia, sought funds in France to bring about her release. Mrs. Paddleford then was accused of having incurred debts amounting to 37,000 francs at Lucerne.

Later Mrs. Paddleford married W. H. Howells, a wealthy shipowner in Cairo, Egypt, and was reported to have received $12,000,000 from him besides the right to preside over three palaces on the Nile.

She also was the wife of William C. Toomey of Minneapolis and Ben Teal, producer of "Ben Hur" on the stage.

MISSOURI SUFFERERS UNABLE TO PAY FOR FLOOD CONTROL

In St. Francis Levee District Many Dispose of Land Because of Existing Taxes.

By the Associated Press.

WASHINGTON, Nov. 29.—Residents of recently flooded regions in the vicinity of the St. Francis Levee District, Missouri, are unable to continue paying on flood protection projects, James A. Finch of New Madrid, Mo., told the House Flood Control Committee today. He said that many flood victims there have been forced to dispose of land because of their inability to meet existing taxes.

ONE KILLED, 15 HURT, IN TRAIN COLLISION

Fast Passenger and Freight of Big Four Line Crash on Dayton, O., Crossing.

By the Associated Press.

DAYTON, O., Nov. 29.—One man was killed and 15 persons were injured, some seriously, when a Big Four passenger train, the Ohio Special, New York to Cincinnati, and a Big Four freight train train collided at a street crossing this morning. The diner and four Pullmans were derailed. The diner and one Pullman upset and the engine and two freight cars overturned.

Michael Sullivan, 40 years old, Medford, Mass., died a few minutes after he was received at St. Elizabeth's Hospital. His skull was crushed.

The train, carrying many passengers from New York, where they had attended the Army and Navy football game, was traveling south. The freight was northbound.

Attaches of the two trains gave different opinions concerning the cause. Some said that swaying box cars swung into the side of the passenger cars and others said spreading rails were the cause.

COOLIDGE TO ADDRESS G. O. P. COMMITTEE AT WHITE HOUSE

Meeting to Be Held Monday to Select City for 1928 Convention.

By the Associated Press.

WASHINGTON, Nov. 29.—President Coolidge will receive the members of the Republican National Committee during their meeting here to select a convention city next week and will make an informal address to them in the East Room of the White House.

The announcement of the President's intention to say a few words was not coupled with any indication as to whether they would have a political significance, or throw any new light on Mr. Coolidge's own political future.

Coincident with the announcement it was said that the President had absolutely no choice in the matter of selecting a convention city.

William M. Butler, chairman of the committee, has arrived in Washington as well as a number of the national committeemen. The meeting will be held Monday.

By the Associated Press.

WRANGELL ISLAND, Nov. 29.—The first news of the outside world settlers of this far-away spot had had in more than two years was brought when Capt. Kosheleff, Soviet Russian pilot, came in his airplane.

Wrangell Island has a Governor, a teacher, a doctor, their wives and a handful of settlers, all having been here since 1925, when the Soviet flag was hoisted in the name of the Moscow government. Kosheleff came here from Kamtchatka. He made stops in remote villages to demonstrate the airplane to primitive Mongol tribes.

KRATKY 'WANTED TO PROTECT SOME ONE AT CITY HALL'

Statement Attributed to Mayor's Friend Results in Subpena for Him in Zoning Inquiry.

BENEFITED GARAGE OWNER QUOTED

Matter Brought Before Committee by Alderman Fett — First Hearing Thursday Morning.

The issuance of a summons for Robert J. Kratky, campaign manager and personal friend of Mayor Miller, in the aldermanic investigation of escrow agreements and other circumstances involved in the passage of ordinances for changes in the zoning law, was decided upon today by the investigating committee of the Board of Aldermen. The first hearing will be held Thursday morning at 10 o'clock.

In making up the list of witnesses to be called, Alderman Fett of the Eleventh Ward asked that Kratky be included, and recited to the committee a conversation he reported he had with Herman Hohn, owner of property at Michigan avenue and Winnebago street, from which restrictions were removed to permit the building of a garage.

Alderman Fett said that Hohn called on him after there had been newspaper publication of the fact that the restriction on the one lot had been removed without notice being given to neighboring property owners.

Quotes Conversation With Hohn.

"Hohn said he had not paid any money to anybody in connection with the zoning change," Fett told the committee. "He said he had contracted with George F. Hayden, an architect, to remodel a building there and build a garage, agreeing to pay him $8500. He is now in litigation with Hayden over the contract.

"Hohn told me that after the newspaper publication Bob Kratky called him on the telephone and said that he had given out a statement that he had had the change made on that particular piece of property. He said Kratky told him he had made the statement to protect somebody at the city hall. He mentioned no names."

Fett asked that Kratky, Hayden and Hohn be summoned, and the committee granted his request.

Commenting on the statement attributed to Hohn, Kratky said: "I have never talked to Hohn, on the telephone or in person, and the statement that I telephoned him is false. I welcome the opportunity to appear as a witness and will tell all I know of the amended ordinances."

It also was decided to summon witnesses on the zoning change by which the 3500 block on Victor street was made open to boarding and rooming houses. This was the case in which a cashier's check for $1000 was deposited in escrow with Ben Philipson, an attorney, by Wilbur E. Bent of 3501 Victor street, to be paid to C. E. Grueninger of 3500 Victor street when restrictions were removed.

Two Women Subpenaed.

Mrs. August Voigt of 3620 Victor street told Alderman Ralph Eilers and a Post-Dispatch reporter that Grueninger told her that the change would cost $3000 and that it would be necessary to divide the money among 10 persons. On this phase of the inquiry the committee decided to summon Mrs. Voigt, Bent and his wife, O. H. Parks of 3500 Victor street, Grueninger, Philipson and C. L. McDonald of 1531 North Broadway, owner of property in the block.

Great improvement in the health of persons from 5 to 29 years old has been noted since liquor was outlawed, according to the survey but not in that of men from 40 upwards.

REPRESENTATIVE OF AMERICAN CONCERN HELD BY GERMANY

Chemist, Refused Bail, Said to Be Charged With Commercial Espionage.

By the Associated Press.

BERLIN, Nov. 29.—American official intervention is being sought for Guido Meisel, chemist, of Portsmouth, N. H., who has been in jail in Duesseldorf since June 19, allegedly charged with commercial espionage.

Meisel has been denied a speedy trial and the German authorities are charged by his friends with declining to inform him of the exact nature of the charges under which he is being held, aid to permit his release on bail.

Mrs. Meisel, formerly Marion Barnes of Atlanta, Ga., arrived in Germany two weeks ago to obtain her husband's release. Thus far she has been permitted to visit him only four times, the conversation being carried on in German in the presence of a prison guard.

Meisel came to Germany last spring as a representative of the Portsmouth Dye and Chemical Co.

NEW YORK-TO-STOCKHOLM TELEPHONE SERVICE OPENED

Count Adolf Hamilton Says Conversation Was as Easy as Local Call.

By the Associated Press.

NEW YORK, Nov. 29.—A telephone conversation between New York and Stockholm, Sweden, was conducted today over the longest overland wire in Europe, the line extending from the trans-Atlantic terminal at London, through Amsterdam and Berlin, to Sweden, the American-Swedish News Exchange announced.

Count Adolf Hamilton, delegate to the recent International Radio Conference, was the first speaker to use the line. The conversation, he said, was as easily heard as a local call in New York. The call, following a first test made last August, was expected to be the beginning of regular telephone service to Sweden.

A new telephone cable between Sweden and Germany made the connection with New York possible. Similar service has been established to Antwerp and Brussels, but calls from New York to Paris have been difficult because of poor land wires.

THIRD MAN RISKED LIFE TO AID WOUNDED WOMAN

Not Knowing Radio Message Had Brought Help, Alaskan Tramped Five Days in Storm.

By the Associated Press.

ANCHORAGE, Alaska, Nov. 29.—A former Russian radio operator was disclosed today as the third hero in obtaining aid for Miss Bessie Howe, Government school teacher, who accidentally shot herself with a rifle in a snow bound village about 100 miles from here.

When Miss Howe was wounded at Ninilchic, an Indian village on Cook's inlet, last Tuesday, Walter Kotoff, set out on snow shoes to a nearby ranch to send a message for aid. The radio set had a limited range and after repeating it several times, Kotoff started on foot to obtain help, not knowing his request had reached the stations at Seldovia and Anchorage. He struggled through a storm with the thermometer 20 degrees below zero. Meantime Pilot Russell Merrill and Dr. A. D. Haverstock, Government physician, went by airplane and removed Miss Howe to a hospital here. Kotoff arrived in Seldovia Sunday and learned Miss Howe had been provided for.

FRIGHT CAUSES MAN'S DEATH

Philadelphia Election Clerk Lost Power of Speech in Court.

By the Associated Press.

PHILADELPHIA, Nov. 29. — Morris Mazelus, a 21-year-old election clerk, is dead of a rare malady of the brain, brought on by fright. He suddenly lost the power of speech Sept. 26, when summoned before Judge Audendried to explain an apparent discrepancy in the vote count. He died two days ago without regaining his speech.

Mazelus appeared terrified when taken into court. A police surgeon diagnosed his loss of speech as temporary amnesia due to fright. Mazelus was taken to a hospital, where he lay in a daze for two weeks, refusing nourishment. Until his death his mind functioned only occasionally, and then feebly.

PRESIDENT'S MESSAGE LONG

Coolidge Said to Be Sorry He Couldn't Shorten It.

WASHINGTON, Nov. 29.—President Coolidge is sorry that his annual message to Congress, now complete, couldn't be made shorter. The White House disclosed today that the message would be about as long as that of a year ago, which ran up into the thousands of words.

Coolidge had hoped he could do better this time, but when he found how many problems deserved mention, his traditional preference for brevity had to give way. He does not regard the lapse as a precedent.

NORRIS WILL ASK SENATE TO TRACE OIL BONDS

Investigation of Mystery of Who Got $2,770,000 After Fall Pay-Off Would Be by Walsh.

$3,000,000 IN THE ORIGINAL FUND

Nebraskan Is Convinced Coolidge Will Not Act; Has No Doubt Resolution Will Be Adopted.

By PAUL Y. ANDERSON,
A Staff Correspondent of the Post-Dispatch.

WASHINGTON, Nov. 29.—Whoever got those bonds had better bury them deep on the lone prairie, because the greatest trailer and digger in the business apparently will be taking up the scent within a few weeks.

After Albert B. Fall, then Secretary of the Interior, got his $230,500 bribe in Liberty Bonds for leasing Teapot Dome to Harry Sinclair, the bogus Continental Trading Co., Ltd., through which he received them, still had $2,770,000 worth of bonds on hands. The Department of Justice apparently has done nothing toward learning what became of them, or what other frauds, if any, were committed with them.

Senator Norris of Nebraska said today that he was convinced President Coolidge had no intention of ordering the department to take up the search. Accordingly, soon after Congress convenes Monday, Norris will introduce a resolution empowering the Senate Public Lands Committee to conduct an investigation to find out who got the bonds, and why.

Walsh Would Direct Inquiry.

This means, if the resolution is adopted, that the pursuit of the bonds will fall to the duty of Senator Thomas J. Walsh of Montana, who, as a member of the committee, four years ago conducted the famous investigation which provoked the oil scandal and exposed the corruption in connection with the Teapot Dome and Elk Hills leases. In other words, the oil investigation would be resumed where it left off in 1924.

In the minds of Senator Norris and others privy to the situation, there is no doubt that the resolution will be adopted. In the face of the Supreme Court's decisions in the oil cases, and upon the heels of the jury-tampering disclosures in the Fall-Sinclair trial, it would require extreme hardihood and brass of the finest texture to oppose an inquiry into the only important aspect of the oil cases which remains unsolved. Neither the hardihood nor the brass is likely to be present in sufficient quantity to afford any considerable opposition.

It may be recalled that the original Walsh investigation never was officially ended, but only suspended. It was halted by the refusal of Sinclair to testify further. For that refusal he subsequently was convicted of contempt and sentenced to four months in jail, but the investigation was not resumed. Both Walsh and Norris believe the committee could resume it without further authorization, but Norris intends to put its powers above any possible questioning.

Continental Unknown at Time.

The Continental and its ghostly career were yet unknown when the committee hearings were suspended. They were unearthed several months later by Owen J. Roberts and Atlee Pomerene, the special Government counsel authorized by the Senate to carry on the civil and criminal suits growing out of the leases. Thus Senator Walsh will be getting his first whack at this important side of the oil scandal.

The inquiry bears promise of great interest. Certain men high in the world of business and politics are likely to come out of it with their noses bent and their ears badly chewed. This is almost certain to happen, whether the search for the bonds ultimately succeeds or not. There are certain obvious questions that fairly howl for answers from certain men, and they cannot possibly answer them without first swallowing hard.

It is unnecessary to repeat the familiar story of the Continental. It was guaranteed by Sinclair, Robert W. Stewart, head of the Standard Oil of Indiana; Harry M.

CANADIAN FORD MOTOR CO. STOCK UP $65 A SHARE

Overnight Rise Lifts Price to $700 in Opening Sale on New York Curb Market.

SOLD AS LOW AS $393 THIS YEAR

Marketing of New Car Causes Advance in Only Shares the Fords Offer to the Public.

By the Associated Press.

NEW YORK, Nov. 29.—Common stock of the Ford Motor Car Co. of Canada, the only enterprise of Henry Ford in which the outside public now has an interest, opened on the New York Curb today with the sale of a block of 180 shares at $700 a share, an overnight gain of $65. The stock had sold as low as $393 a share earlier in the year.

Recent accumulation of the stock, which ordinarily changes hands in lots ranging from 10 to 25 shares, has been stimulated by expectations of large earnings through the sale of the new Ford car, which is to be placed on the market this week. Yesterday, 600 shares changed hands between $601 and $635, the top and final price representing a net gain of $45. Earlier in the summer, weekly transactions in the issue ranged from 200 to 1000 shares.

Record of the Company.

The Ford Motor Car Co. of Canada was organized April 17, 1904, under the laws of the Province of Ontario and reincorporated in 1911 under the laws of the Dominion of Canada. The company has exclusive manufacturing and selling rights for Ford cars, trucks and tractors in all of the British Empire, excepting Great Britain and Ireland. The company has a manufacturing plant at Ford, Ont., on the banks of the Detroit River and assembly plants at Toronto, Montreal, Winnipeg and London, Ont.

The company has an authorized capital stock of $10,000,000, of which $7,000,000 is outstanding. Henry and Edsel Ford are reported to own a controlling interest in the company, which paid dividends of six per cent in 1905, 10 per cent in 1908, 100 per cent in 1910, 100 per cent in cash and 500 per cent in stock in 1911, and 600 per cent in stock in 1916. A dividend of 15 per cent was paid last May 28. The annual meeting will be held Dec. 12.

State License $16.50, City $5 on New Ford.

City and State license charges for the new Ford, which is to be exhibited to the public next Friday for the first time, will be increased over the old Ford rates as a result of the enlarging of the cylinder bore.

The new model is rated, for license purposes, at 24.03 horsepower, its bore being 3⅞ inches, so that the State license will cost $16.50, as compared to $10.50 for the Model T. St. Louis licenses will be $5 instead of $3.

Both State and City license rates increase at 24 horsepower. In the class above 24 horsepower and below 36, in which the Ford now finds itself, are virtually all the medium weight and heavy sixes, as well as many eights.

More Details As to Car.

Further details of the new car were given out today by the Ford Motor Co. in the second of a series of advertisements leading up to the nationwide showing beginning Friday. The machine will be shown in St. Louis at the Coliseum, where the exhibition, free to the public, will be continued to the following Friday.

Enlarging on its claim of speed and economy for the car the Ford Motor Co. announces that it will travel from 20 to 30 miles to the gallon of gasoline, will do 55 to 60 miles an hour with ease and has actually run 65 miles an hour in road tests.

Hydraulic shock absorbers, a standard selective gear shift and multiple disc clutch are among the innovations over the old Model T.

A New Power Plant.

The engine itself is an entirely new power plant including such refinements as a pump cooling system, battery-coil-distributor ignition system, and aluminum pistons. The steering gear is irreversible. The rear axle is three-quarters floating and the drive is to steel-spoke wheels. The car is also provided with a theft proof coincidental lock.

The machine is to be put in six body styles of which the advertisement says "the low prices are undoubtedly lower than you thought they would be when you first heard that Ford was making a new car. They are in fact lower than we thought they could possibly be when we started to make this car."

The prices of the models are still withheld, however, for announcement later.

ESCAPED PRISONER CAUGHT BY TELEGRAM

Arrested on Returning to Hotel for Reply to His Wire for Money.

A young man appeared last night at Hotel Jefferson and, with his left hand, wrote a telegram to a friend in Greenberg, N. C., asking for $100. The girl on duty at the telegraph desk noticed he was attempting to conceal a handcuff and chain on his right wrist.

Thinking the youth was a vaudeville performer or a college student being hazed, she permitted him to depart unmolested. Later she learned Walter Bowden, 20 years old, had escaped from Constable Richard Bonweff of Wapello, Ia., at Union Station, yesterday afternoon, taking his handcuff and chain with him.

Police were notified and arrested Bowden this morning when he called for an answer to his telegram—a favorable answer. Bowden's wrist was free. He explained that, after his escape, he wandered into a railroad yard and an obliging Negro cut off the chain with pliers and picked the handcuff lock open. Bowden spent the night at a Market street hotel.

He had been arrested at Greenberg, N. C., by Constable Bonweff and Sheriff Mason Kussart of Ottumwa, Ia. On the way back to Iowa, they had a layover here between trains. When the Sheriff walked away from the station rest room to the information bureau, and the Constable got up to remove his overcoat, the prisoner jerked loose from the Constable, to whom he was chained, and ran out, the Constable firing an ineffectual shot at him.

Charges of stealing and cashing 71 railroad pay checks are pending against Bowden in Iowa. He admits cashing the checks, but says he found them.

KIDNAPER OF KEET CHILD TO GET HEARING ON PLEA FOR PAROLE

Special to the Post-Dispatch.

JEFFERSON CITY, Nov. 29.—The State Penal Board will hold hearings, Dec. 13 and 14, for 21 convicts on their applications for paroles, including five St. Louisans, and Claude Piersol, of Springfield, who figured in the noted Keet kidnaping case in Springfield 11 years ago.

Piersol is serving a 35-year sentence, from Nov. 5, 1917, for participation in the kidnaping of the infant son of a Springfield banker. The case attracted nation-wide attention. The body of the child, which had been suffocated while being held for ransom, was found in a well at an abandoned house near Springfield. Piersol was convicted.

The five St. Louisans to receive hearings are Fred Cannon, served five years and five months of a life sentence for murder; Robert Hill, served one year and five months of an eight-year sentence for robbery; Alfred Finnegan, served one year and eight months of a four-year sentence for assault with intent to rob and theft of an automobile; Dennis Moncrey, served eight years and five months of a life sentence under the habitual criminal act, and Charles Stevens, served five years and eight months of a 15-year sentence for an offense against a girl.

Two of the oldest convicts in the penitentiary in point of time served also will receive hearings. They are Burl Handy of Jackson County, who has served 18 years and six months of a 60-year sentence for murder, and Herman Johnson of Lawrence County, who spent 19 years and one month in the prison on a life sentence for murder.

Ex-Dry Agent Cleared of Murder.

ASHEVILLE, N. C., Nov. 29.—John C. Crisp, former Federal prohibition agent, was acquitted in United States District Court here yesterday of a charge of second degree murder in connection with the fatal shooting of Cecil McClure, Cherokee County youth, during a liquor raid. The jury returned the verdict after having been out an hour and 20 minutes.

NORRIS WILL ASK SENATE TO TRACE MISSING OIL BONDS

Continued From Page One.

Blackmer, head of the Midwest Refining Co., and James E. O'Neill, head of the Prairie Oil and Gas Co. By juggling the sale and purchase of oil, the owners of the company accumulated a synthetic profit of $3,000,000, all of which was invested in Liberty bonds, part of which were used to corrupt Fall. The purpose of the now contemplated inquiry is to learn what became of the remainder.

Standard Oil Head Likely Witness.

Stewart, one of the leaders of the oil industry in this country, undoubtedly would be called. He would be asked to tell whether he was a member of the outfit that bribed Fall. If he denied it, he would be asked why he guaranteed a fake corporation, thus enabling it to make a profit of about $1,000,000 at the expense of his stockholders. Sinclair also would be called. His position, however, is now so desperate that no embarrassment would matter to him, and he would be expected to plead the danger of self-incrimination in order to escape testifying. Blackmer and O'Neill, who have been hiding out in Europe for two years, defying all efforts of the Government to obtain their testimony in the oil cases, probably could succeed in prolonging their vacation. But others are available.

Rumored Funds Went to G. O. P.

It has long been gossiped around that a large block of the missing bonds went to pay off the deficit incurred by the Republican National Committee in electing Harding and Coolidge in 1920. Hence Will Hays, who managed that campaign, and has since become the moral guardian of the moving picture industry, undoubtedly would be called. So would other high ranking Republicans who were entrusted with the job of passing the barrel when it was necessary to make up the deficit. So would the officials of the Sinclair, Standard Oil of Indiana, Midwest and Prairie companies. It is possible that John D. Rockefeller Jr. may be subpenaed. He is a minority stockholder in the Standard Oil of Indiana and in the Prairie, and consequently a minority stockholder in the Midwest, which is a Standard subsidiary.

Nobody supposes that he had any knowledge of the deal by which the Standard and Prairie stockholders were squeezed for $3,000,000. Through the action of their own officials, however, persons who admire Rockefeller for his public benefactions and his professed devotion to honest business methods, have wondered why he has not taken measures to bring those officials to an accounting for their acts. That is one thing Walsh might ask him.

On the face of the record, it appears that the stockholders of these companies were unwittingly made to furnish the money with which Fall was bribed. Therefore it appears that they would be interested, not only in how it was done, but in what became of the remainder of the money.

It has been thought reasonable to assume that because a part of the fund accumulated by the Continental was used to defraud the Government, some of the remainder likely was used for similar purposes. Persistent efforts by the Post-Dispatch to discover what action, if any, the Department of Justice had made to run down the remainder of the bonds, disclosed only that Attorney-General Sargent apparently had never given it a thought.

Coolidge Fails to Act.

When this situation was brought to the attention of Senator Norris through its publication, he publicly called upon President Coolidge to direct the department to begin an immediate inquiry. He felt that the President would be particularly moved by the report that some of the fund had been used to pay off the 1920 campaign debts, because that was the election in which he became Vice President. After two weeks passed and the President continued to manifest the same indifference, Norris arrived at the decision which he made known today, to ask the Senate to complete he unfinished job. He consulted other Senators about it yesterday, and will confer with Senator Walsh later upon the form of the resolution.

The old Teapot seems all set for another rousing winter's boiling.

Sinclair Served in New York With Contempt Citation.

By the Associated Press.

NEW YORK, Nov. 29.—Harry F. Sinclair today was served with a citation for criminal contempt of court in connection with the Fall-Sinclair jury surveillance charges. Service was effected on Sinclair at the offices of the Sinclair Refining Co. and followed an arrangement made by United States Marshal Hecht on Saturday. The Marshal had telephoned. Sinclair that Tuesday would be convenient for him to serve the citation and Sinclair arranged to be in his office. The citation was served by a Deputy Marshal.

Service also was made upon Henry Mason Day, cited with Sinclair in the contempt action. The citations call upon them to show cause on Dec. 5 at Washington why they should not be adjudged in contempt of court.

SIDNEY T. BIXBY, SON OF CAPITALIST, DIES

Was a Sportsman and Served in Ambulance Unit in World War; Was 45.

Sidney T. Bixby of 26 Portland place, son of William K. Bixby, capitalist, with whom he was associated in business, died at 2:30 p. m. today at Missouri Baptist Sanitarium of a complicated liver ailment that became acute one month ago. He was 45 years old and unmarried.

Mr. Bixby was a sportsman and a member of the Racquet, Country and Noonday Clubs. He also was a member of the Dardenne Shooting Club and was a motorboat enthusiast, indulging the latter sport at the summer home of his father at Lake George, N. Y.

In 1917 Mr. Bixby joined the late Marion L. J. Lambert, Harry A. Blackwell and other St. Louisans who purchased ambulances and served with the Norton-Harjes Ambulance Unit, composed of Americans, with the French army in the World War. After nine months of this service he remained in France and became a division commander of the Red Cross with the American army.

He is survived by his parents, four brothers, Harold, William, Ralph and Donald, an dtwo sisters, Mrs. I. A. Stevens of St. Louis and Mrs. A. H. Jordan of Colorado Springs. Funeral arrangements have not been completed.

STRICT MEASURES TO PROTECT DISARMAMENT MEETING TAKEN

Copyright, 1927, by the Press and Pulitzer Publishing Cos. (The New York World and Post-Dispatch.) (Copyright, 1927.)

GENEVA, Nov. 29.—Most unusual police measures have been taken for the meetings of the preparatory disarmament commission and the League Council. According to a circular from Secretary-General Drummond of the League "very strict control of visitors will be kept at the front door." Only persons on official business will be allowed to enter. No motor cars may be parked in the secretariat's courtyard.

The glass room (where the delegates will meet and which was smashed last summer by Sacco-Vanzetti sympathizers) will be definitely closed. The gardens and all entrances there will be closed. Entrance to the glass room will be limited to delegations and journalists holding cards. All other persons including the secretariat staff will be refused entrance. No students or other persons will be allowed to work in the League library.

EARLY VOTE LIGHT ON $12,750,000 COUNTY BONDS

Two-Thirds Majority Needed to Pass Each of the Four Propositions Being Balloted On.

With an organized effort to get out an affirmative vote and none in opposition, St. Louis County voters, in a special election today, are deciding whether $12,750,000 in bonds for public improvements shall be issued.

Sponsors of the bond issue and the group of leaders of the unorganized opposition were agreed that probably 25,000 to 27,000 ballots would be cast during the day. Both sides desire a heavy vote, each with the feeling that this would mean victory. A two-thirds majority is necessary for passage of each of the four bond propositions, and it would be possible to approve some and reject others. The registration is 49,436.

Secretary Hiller of the County Election Board estimated the probable vote at 25,000.

Early Vote Light.

Ideal Indian summer weather after the polls opened at 6 o'clock this morning encouraged the hope for a heavy vote. The 121 precinct polling places will close at 7 o'clock this evening, and it is expected only a few hours will be required to complete the unofficial tabulation of results. As usual in the county, where many suburbanites vote late in the afternoon, the balloting was comparatively light in the forenoon.

The propositions are $10,000,000 for roads, $750,000 for a new courthouse and jail, $1,000,000 for a public county hospital and $1,000,000 for parks.

Registration of voetrs in the incorporated suburban towns is 22,863; in the unincorporated suburban precincts adjacent to the city, 16,384, and in the outlying, rural precincts, 10,189.

Rural Vote Significant.

The farm vote, ordinarily in the minority in the county in late years, takes on a new significance in this election, since a negative vote of only one-third would bring defeat. Opponents of the bonds are counting on a heavy negative vote in the rural precincts, in view of high taxes and the general farm situation, and because farmers frequently are inclined to oppose bonds. Proponents, however, think the prospect of good roads may influence a favorable rural vote. The good weather and the fact that farm work is light at this season was expected to bring out more country voters than usual.

Many volunteers recruited by the County Chamber of Commerce, which sponsored the bond issue and carried on the campaign for it, were in the field today, carrying voters to the polls in automobiles, distributing pink sample ballots which showed how to approve the proposition, and talking in favor of the bonds. This force was augmented by many county and suburban employes, and also by the henchmen of "Boss" Fred Essen's Republican political machine. The machine has been strong in support of the bond issue.

The only county bonds outstanding now are $1,857,200 of the $3,000,000 issue of 1916 for roads. If the voters approve the new $12,750,000 issue, there will still be, under the law, a margin of $4,834,317 of possible additional bonded indebtedness left.

LINDBERGH MEMORIAL FOUNTAIN DECIDED ON

The proposed memorial to Col. Charles A. Lindbergh, for which the Spirit of St. Louis Memorial Committee is campaigning for funds, will be in the form of a fountain, members of the committee decided at a meeting today at Jefferson Memorial.

The original goal of the fund campaign was $100,000. So far $1281 in cash and $250 in pledges have been collected.

FUNDAMENTALIST FUND TREASURER REPORTED MISSING

J. H. Hilton, Who Reported $2,400,000 Donation to $15,000,000 Campaign Disappears.

By the Associated Press.

NEW YORK, Nov. 29.—With J. H. Hilton, treasurer and director, missing today "under suspicious circumstances," officials of the Longwood Missionary Fellowship announced the abandonment of a $15,00,000 campaign for a fundamentalist training school.

Coincident with the announcement, officials expressed their concern over the identity of a mysterious John W. English, whose supposed donation of $2,400,000 towards the school resulted in installing Hilton as an officer of the organization.

The statement of the board of directors read: "The Longwood Missionary Fellowship, incorporated in Florida to build a home for retired and furloughed missionaries at Longwood, Fla., desires to announce that John H. Hilton, director and treasurer, has disappeared under suspicious circumstances and by vote of the board of directors has been removed from his offices and all connection with the organization.

"While it is believed that the treasurer has received no contributions, it is requested that anyone who may have contributed kindly communicate with the secretary."

The project came before the public when Hilton last week announced the start of the campaign and a contribution of $2,400,000 by "John W. English," whom Hilton identified only as the publisher of magazines worth $30,000,000.

Because of this donation Hilton became associated with the undertaking, the Rev. L. W. Barnard, a director, said.

"So far as we know," said Barnard, "no funds have been collected by Hilton. Neither have we lost anything which we made. We are not engaged in any campaign to raise money and for the present at least we have no plans for a money-raising campaign." He added that the project would nevertheless go forward.

Plans for the fundamentalist center at Longwood called for five auditoriums, a 450-room missionary home, a missionary training school, a model school for children, a hotel, apartment house, 200 bungalows and a museum.

PRESIDENT TO LET OTHERS DECIDE TIME FOR TAX CUTS

Desires Quick Action but Will Abide Decision of Congress and Treasury.

By the Associated Press.

WASHINGTON, Nov. 29.—President Coolidge is willing to abide by the decision of Congress and the Treasury as to when tax revision should be effective.

It was said today at the White House that the main question to be considered was how the revision would affect the Treasury, which would always be in need of money as long as there was a national debt. If reduction was deferred the Treasury could make valuable use of all of its resources.

The President was described as being desirous of reducing taxes as quickly as possible, but he has taken notice of the argument against reducing the corporation tax until a year later because of the possibility that corporations included the taxes in their sales prices.

He feels that if corporations have collected money a year in advance in order to meet the taxes their taxes should not be immediately reduced. If the corporations collected these tax funds only during the quarter in which taxes are to be paid, he sees no theoretical objection to making the reduction applicable at the time taxes were paid.

MAN BURNED AT OIL STATION

Attendant Seriously Injured; Fire of Undetermined Origin.

Fire of undetermined origin, which suddenly blazed forth in the office of an oil filling station at 4409 Natural Bridge avenue today, severely burned Paul Gauteaune, an attendant, on the face and upper part of the body. He said he was going into the office and had just opened the door, when the flames shot out on him.

He is at City Hospital in a serious condition.

EX-"DRAGON" HELD IN SOLITARY CONFINEMENT

Warden Declines to Disclose Reason for Added Penalty For D. C. Stephenson.

By the Associated Press.

MICHIGAN CITY, Ind., Nov. 29.—D. C. Stephenson will be kept in solitary confinement indefinitely, Walter H. Daly, warden of the State prison here, said yesterday. The former Ku Klux Klan "dragon" is serving a life sentence for causing the death of Madge Oberholtzer of Indianapolis.

"He is not mistreated," Daly went on, "but is being punished for an offense that I am not at liberty to divulge. When it is deemed that he has been taught his place he will be returned to his job in the chair factory."

Robert H. Moore, local attorney for Stephenson, however, declared the prison officials were "persecuting Stephenson."

The attorney suggested that Moore might have papers of a startling nature, and that the prison officials might be punishing Stephenson with solitary confinement to prevent Stephenson from telling Moore to reveal his information.

Stephenson remained in solitary confinement Thanksgiving day. While other inmates partook of an elaborate feast, Stephenson had only bread and water.

A statement smuggled out of the prison a week ago in which the former klan "dragon" rebuked Senator Arthur R. Robinson is believed the real cause of Stephenson's punishment. Robinson, in a recent statement, admitted he and Stephenson had exchanged Christmas gifts in 1924, and that the former klansman had given Mrs. Robinson a string of imitation pearls.

Dodge Called on Wife of Remus, Says Caretaker

Continued From Page One.

attention and called me back into the house."

An objection by Prosecutor Taft cut into the story of Mueller. The jury was sent out. Taft asserted the witness and all others should be restricted to statements they had communicated to Remus.

"Only those stories told Remus himself possibly could have affected Remus' mind," maintained Taft.

A long argument between Elston and Taft ensued.

"Only communicated facts are competent," said Judge Shook. "Even if the defense does prove a conspiracy, it is no justification for killing. Insanity is the defense offered."

Taft said he did not care how the tales were told. It made no difference if they went around a chain of persons. Only the last one who heard and tattled to Remus was competent to testify in the case, he said.

Judge Defines Status of Facts.

Judge Shook's final ruling was: "Facts, whether proved true or false, if brought to the defendant's knowledge previously to Oct. 6, are competent testimony, but the facts must have been communicated. It is the burden of the State to prove murder, and the burden of the defense is to prove insanity."

"How is the State to protect itself against statements from witnesses later proved not communicated?" asked Taft.

The Court said: "You may object when you wish."

The argument ended, however, only when Elston gave his "professional word" he would introduce as evidence only facts which had been communicated.

The jury was brought back and Mueller resumed testimony.

"What did she say?" Elston asked Mueller, reverting to his statement Mrs. Remus had gained his attention and called him into the house when she and Dodge were there in December, 1926. An objection prevented an answer.

Saw Wife and Dodge Leave.

"Did you see her leave?" asked Elston. "Yes, she left with Dodge."

"What was the condition of the house as to being furnished?" "Everything was gone but a table and the kitchen range," Mueller said. The house was stripped in November and December, 1926.

Relating a conversation with Mrs. Remus, Mueller said Mrs. Remus handed him a screw driver and asked him to remove a clock from the wall, a task he declined.

"Dont be afraid," he quoted Mrs. Remus as having said. "Mr. Remus will never come back here. We are going to have him deported. Everything is fixed up. He'll go back the way he came."

The prosecution was objecting to virtually every question. Walter K. Sibbald, an assistant prosecutor, arose to talk. Sheriff William Anderson and two bailiffs were at him at once with demands to sit down. They were enforcing Judge Shook's ruling that only one lawyer on each side could be up talking at one time. Remus, alongside whom two bailiffs have been seated since an outburst several days ago, laughed aloud.

House Stripped and Locked.

Mueller proceeded to describe a mansion furnished completely when Remus was sent to prison and stripped bare on his return. Doors and windows were spiked and Remus gained entrance through a window, Mueller said. A locksmith worked two days opening 30 or 40 doors.

Taft moved that all of Mueller's testimony excepting that concerning occurrences in Remus' presence be stricken. The decks were cleared for another long argument. The jury was sent out for a 20-minute rest.

Judge Shook took the objection under advisement.

After Remus received information that Dodge had assisted in packing the furniture of his home for removal, he seemed to lose control of himself, testified Benton S. Oppenheimer, former Judge of the Court of Common Pleas. He said he thought Remus had been insane.

Oppenheimer described a visit with Remus to his home here, and the bare condition in which the house was found.

"Remus passed from room to room wringing his hands, uttering cries of amazement that he had been treated in that manner," said the former Judge.

Remus' Clothing on Porch.

All Remus' clothes had been removed from the house and piled on the back porch. In one closet were found 62 or 63 pairs of women's shoes. In Remus' room a bed had been left, but the bed clothing was gone.

Throughout his long testimony, Oppenheimer anwsered with statements of conclusions, which engendered numerous clashes between Elston and the prosecution. The lawyers were calmed only after the Sheriff and two bailiffs were told to preserve decorum.

Oppenheimer was an attorney for Remus in the divorce suit pending when the defendant shot and killed his wife.

One of the influences which helped toward his conclusion that Remus was insane, he said, was Remus' expression of belief that Mrs. Remus soon would return to him despite the divorce suit, and then his shift to an obsession that Dodge and Mrs. Remus were trying to strip him of all his property.

"We would be talking about matters entirely foreign to that and Mr. Remus would give way to an outburst," Oppenheimer said. "Uncanny laughter would resound through my office."

Withdrew as Remus Counsel.

Oppenheimer said that because of Remus' repeated outbursts, which became more frequent and violent, he finally withdrew from representing him.

On cross-examination, the former Judge was asked why he had filed a cross-bill seeking divorce for Remus, knowing that insane persons could not be divorced in Ohio and why he had not moved to have Remus formally declared insane. To the first, he replied that at the time he "believed Remus was entitled to a divorce," with the further explanation that his opinion that Remus was insane had not been formed hastily. He had not felt it would be seemly for him to have moved to have Remus' sanity tested.

The former Judge admitted he heard that Remus, through other counsel, had offered Mrs. Remus $100,000 for an uncontested divorce and that Mrs. Remus had countered with an offer of divorce, provided there was a 50-50 split of the Remus property. He had not regarded her offer as a 50-50 proposition, he said.

The witness said that in his ravings Remus had mentioned several times several attempts upon his life, one of them at St. Louis. He was not permitted to tell about the others.

Curry was the next witness. He added his opinion that Remus had been insane prior to the killing.

After Remus had been indicted in the Jack Daniel distillery case, he was going over the evidence with him, he said, when Remus burst out: "Curry, that man Dodge has taken my wife's affections. Franklin L. Dodge has taken my wife after I trusted her and ruined my life forever."

On another occasion, he said, Remus burst out with blame on Dodge for his penitentiary sentence and could not keep his mind on the Daniel case. He declared Remus' eyes were glassy and his face was drawn. Remus then complained of being watched by detectives and gangsters.

"He left my office without making a coherent statement with reference to the Daniel case," said Curry.

Conspiracy Testimony Enters.

The prosecution elicited from Curry the statement that the Jack Daniel case was tried at Indianapolis and then demanded to know why Curry sent for Remus to go to St. Louis.

"Did you send for Remus because there was an arrangement for Remus to tell on his associates in the Jack Daniel case?" asked the prosecutor. "Marshall, who was working on the case under Mrs. Willebrandt, the Assistant Attorney-General told me they were going to use Remus," was the reply.

Dodge, as a Department of Justice agent assigned to prohibition duty, worked up some of the evidence in the Jack Daniel case.

Curry based his opinion that Remus was insane on one conversation of an hour and a half, he said. He denied that he thought Remus had deceived him by talking about things other than those involved in a possible conspiracy charge.

WIDOW'S STORY OF DR. LILLIENDAHL'S DEATH ATTACKED

Doctors Assert Face of Slain Man Showed He Met Death Suddenly, Without Being Alarmed.

By the Associated Press.

MAYS LANDING, N. J., Nov. 29. Dead men tell no tales, but their rigid faces are veritable diagrams of the manner in which they died, two physicians testified at the Lilliendahl murder trial today. The bullet-punctured face of Dr. A. William Lilliendahl, they said, indicated that he had stumbled on death, that it had come so swiftly and unexpectedly that he passed from life before any emotion could register on his face.

The witnesses were Dr. Edward Burt, the Coroner, and Dr. Lewis Souder, who performed the autopsy. Both said the victim's face was in perfect repose, showing no signs of fear, anger, fright or any strong emotion.

The witnesses said that in cases of sudden death, emotions showing on the face at the time were "carried over" into death. This testimony was adduced by the State to break down the defense of the victim's widow, who with Willis Beach is charged with the murder, that the killing was done by two Negroes.

State Cites Calm Expression.

Mrs. Lilliendahl asserts that the Negroes forced her to drive into a lane, attacked her and then shot her husband. The State contends that if such had been the case some sign of emotion would have been found "frozen" on the victim's face.

Stains from human blood were found on papers in the purse of Mrs. Lilliendahl, on paper money and on her dress and stockings, Dr. Lewis Meyers of Atlantic City, after qualifying as an expert, testified.

The torn stockings worn by Mrs. Lilliendahl as she ran from the scene of her husband's murder were subsequently further slashed for some unknown purpose, a witness testified today.

Mrs. Stella Carr, an employe of the State Police, who removed the widow's stockings on the day of the crime identified them in court, but acknowledged under cross-examination that they were not so badly torn when she first saw them.

The witness said she saw no bruises on the widow.

A State Trooper who was on the stand yesterday and who was the first officer at the scene of the crime, then was recalled and testified he found no bruises on the body of Dr. Lilliendahl.

William Lewis, another trooper, told of interviewing Mrs. Lilliendahl on the day her husband was shot. He said the widow first told of being attacked by two Negroes with coarse features and later said they wore masks. He said she told him that each Negro had a gun but that she heard only one shot. Three bullets were found in the doctor's head. She also told him, the trooper said, that the Negroes dragged her from her car into the road and attacked her.

Six witnesses yesterday testified that the sandy road showed no footprints but those of Mrs. Lilliendahl herself.

Lewis said she showed no signs of extreme distress and there were no bruises that he saw on her.

Recounts Story of Widow.

Frank Harrold, Chief County Detective, told of questioning Mrs. Lilliendahl for several hours after the crime. She told him, he testified, of her ride with her husband, after he drew $25 from his bank, and of the attack she asserts two Negroes made on them. She said she fainted and when she revived the Negroes were gone, her husband was dead and her rings and wrist watch were missing. She said a ring, a watch and $200 had been stolen from her husband. Later, the detective said, she contradicted herself on some points.

He then identified a woman's pocketbook found in the Lilliendahl car at the scene of the crime. The pocketbook contained four $5 bills, two road maps and other articles. On both the maps there was a pencil mark at the spot where Dr. Lilliendahl was killed. These marks, the detective said, were on the maps when the pocketbook was taken from the car.

HUSBAND 'KILLED' IN WAR FOUND; WIFE DIVORCES SECOND

Cousin of Cissie Loftus, Actress, Plans, However, to Remarry No. 2.

Special to the Post-Dispatch.

NEW YORK, Nov. 29.—Stating that her first husband, believed to have been killed in the World War, was found to be alive after she had been married a second time, Mrs. Izetta Ross of Baldwin, L. I., was granted an interlocutory decree of annulment yesterday from her second husband, Bernard Ross.

The action was of a friendly nature to clear up the question of Mrs. Ross' marital status. After the case had been tried, her attorney said, she is planning to take steps to be divorced from her first husband, Horace W. Wilson, a contractor and builder at Memphis, Tenn., so that she may legally remarry Ross. They have a child, Dorothy Marie Ross, 4 years old.

Mrs. Ross, a cousin of Cissie Loftus, stage star, said she was married to Wilson in Kentucky in 1914 and lived there until 1917, when he enlisted in the army. Some months later, she said, she was notified by the War Department Wilson had been killed in action. She came East and for a time was on the stage. She met Ross and they were married June 13, 1921. Mrs. Ross testified she heard nothing of her first husband until a year ago, when she met friends from Kentucky who told her her first husband was living in Memphis.

CITY OFFICERS TO CONSIDER U. R. MILL TAX SETTLEMENT

Estimate Board to Discuss Offer of Public Service Co. of Part Payment.

The Board of Estimate and Apportionment, composed of the Mayor, Comptroller and president of the Board of Aldermen, will consider Friday the question whether the city shall accept one-third of its $2,431,000 mill tax judgment in cash, two-thirds in the preferred stock of the Public Service Co., which takes over the United Railways properties at midnight tomorrow.

The opinion between these two forms of settlement was given to the city by Federal Judge Faris, in his decision on the terms of ending the United Railways receivership. The cash payable to the city would be something more than $810,000, and the stock would be of a face value of $1,620,000. The legal question whether the city could receive and hold the stock in a utility corporation, without violation of charter provisions, has been raised, and has not been officially answered thus far.

Associate City Counselor Dolan today called on Comptroller Nolte and arranged that the matter should be taken up for settlement at the coming meeting of the Board of Estimate, to be held in the Comptroller's office.

HOLDS UP WOMAN IN STORE

An armed robber obtained $143 from the cash register of the Bruno-Yale Pharmacy, 2156 Yale avenue, Maplewood, last night, after purchasing a package of chewing gum from Mrs. Hattie B. Williamson, who was alone in the store, her husband, Dr. Archibald Williamson, the owner, being in the basement at the time.

Mrs. Williamson, pretending to faint, fell to the floor and groaend loudly to attract her husband's attention. The robber escaped in an automobile driven by a companion.

School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said:

"One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."

Not Like Medicine

Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine. Perfected by the famous Chemical Products Division of the Standard Oil Company of New Jersey. Look for the Nujol bottle with the label on the back that you can read right through the bottle.

ILLINOIS WOMAN WINS $25,000 PRIZE

Miss Katherine Brown of Quincy Gets First Award for Novel Among 1391.

Special to the Post-Dispatch.

NEW YORK, Nov. 29. — The largest award ever offered for a purely literary composition, a cash prize of $25,000, will be handed to Miss Katharine Holland Brown of Quincy, Ill., as soon as she can be found. She is at present traveling in the South.

The prize, offered jointly by the Woman's Home Companion and the John Day Co., publishers, is awarded to her for a 90,000-word novel of ante-Civil War days, entitled "The Father," which was adjudged the best of 1391 manuscripts submitted by authors from every state in the Union and several foreign countries.

Another prize of $25,000, which was to have been given for the best novel submitted by a man, goes unawarded because none of the manuscripts submitted by men was considered good enough. About 500 men tried for the prize. The best manuscript submitted by a man was outclassed by at least a dozen of the manuscripts submitted by women, declared one of the judges.

Equal opportunity was insured to both unknown writers and established authors by requiring that all manuscripts be submitted under pseudonyms, and the award was made before the identity of the winner was disclosed to the judges, who are Gertrude B. Lane, editor of the Woman's Home Companion; Richard J. Walsh, president of the John Day Co., and Dorothy Canfield and James Branch Cabell, authors.

Miss Brown, who was born in Alton, Ill., and studied for a time at Washington University is a graduate of the University of Michigan, and has written several books and short stories. She was an honor student in college, winning the Phi Beta Kappa.

Her prize novel, "The Father," deals with the fortunes of a father and daughter who lived in Southern Illinois about 1850. The father is a printer and a violent opponent of slavery. One of the characters in the novel is an obscure local lawyer, a close friend of the family, and much more favorable to the institution of slavery than the rabid old printer. So they quarrel continually, the lawyer, Abraham Lincoln, taking a conservative ground in defense of slavery, while the printer endeavors to win him over to the abolitionist cause.

OLD DOMINION FLAG RETURNED

Captured at Richmond in '65, It Again Floats Over Capital.

By the Associated Press.

RICHMOND, Va., Nov. 29.—The captured banner of the Old Dominion floated again yesterday over the Virginia State Capitol after remaining in Massachusetts as a Civil War trophy of victory for 62 years. Returned by Frederick Atherton Stevens of Arlington, Mass., grandson of the Massachusetts cavalry officer who was the first Union soldier to enter Richmond upon its capture, April 3, 1865, the flag was received by Gov. Harry F. Byrd with simple ceremonies. While the Richmond howitzers fired a salute the flag was unfurled from the Capitol dome.

Many men and women who witnessed the entry of the Federal troops in 1865, including Mrs Charles H. Talbot, who made the flag, were among the spectators. President Coolidge sent a message congratulating Stevens, saying his action was another evidence that the animosities of the Civil War had disappeared.

SURPRISE WITNESS AGAINST SHELTONS

Convict Expected to Tell of Aiding Them in Kincaid Bank Robbery.

Special to the Post-Dispatch.

TAYLORVILLE, Ill., Nov. 29.—When the Shelton brothers—Carl, Earl and Bernie, Southern Illinois gangsters—come to trial here Dec. 19 for the Kincaid bank robbery, they will be confronted with a surprise witness who is reported by State's Attorney Preihs to have confessed having taken part in the robbery.

The identity of this witness is carefully concealed, but it is known that he is a convict in an Illinois penitentiary. This much the State's Attorney has admitted. Beyond this point he would not discuss the case when questioned today, except to remark that he expects the testimony of this convict to corroborate that of Art Newman, Birger gangster, upon whose testimony before the grand jury an indictment was found.

Newman, now serving a life sentence in the Southern Illinois Penitentiary at Menard for the murder of Mayor Joe Adams of West City, Franklin County, was a sworn enemy of the Sheltons with whom the Birger gang was at war. Mayor Adams was assassinated by Birger gangsters for harboring the Shelton brothers in his home.

The testimony of Newman is looked upon by State's Attorney Preihs as of great importance, but not conclusive. He will testify he heard the Shelton brothers planning the robbery and drove them as far as Taylorville to look over the ground and plan their escape in advance. He will testify he waited at Taylorville while they went to Kincaid in a taxicab and laid their plans, and heard them discuss the plans as he drove them from Taylorville to East St. Louis. He will testify further that the Sheltons later told of the robbery and that Bernie Shelton was shot in the leg and forced to drop $5000 they had taken from the bank.

State's Attorney Preihs has worked several weeks to corroborate Newman's statements, and now says he is ready for trial with the surprise witness who will furnish the missing link in his chain of evidence.

Airport Committee to Meet.

The Mayor's Airport Committee will meet at 10 a. m. tomorrow at the Mayor's office, City Hall, to consider the proposal of Maj. Albert Bond Lambert for enlargement of Lambert-St. Louis Field at a cost of $1,200,000, to measure 608 acres. Harold M. Bixby, president of the Chamber of Commerce, is chairman of the committee.

BLUE LAW FIGHT EXTENDED

Ash Grove (Mo.) Movie Manager, Fined, Complains Against Others.

By the Associated Press.

ASH GROVE, Mo., Nov. 29.—A plea of guilty by I. D. Metcalf, motion picture theater proprietor, and the payment of a $5 fine was the first victory of promotion of a campaign against Sunday movies here yesterday.

Metcalf, however, immediately filed complaints against several Ash Grove business men for violating certain blue laws which forbid the sale of other than necessary articles on Sunday.

20 HURT DURING RIOT OF 1000 AT SCHOOL MEETING

Bitterness in Milwaukee Suburb Over Discharge of High School Head Culminates in Melee.

By the Associated Press.

MILWAUKEE, Nov. 29.—Disorders during which more than 20 persons were injured, occurred last night and early today during and following a meeting of Cudahy school district electors. Cudahy is a suburb of Milwaukee.

The meeting had been called to get an expression of opinion on the action of the school board in discharging Edward C. Seifert as superintendent of schools, Nov. 9, an action which was followed by a week's strike of 300 Cudahy High School students.

A woman was knocked unconscious, the chairman of the meeting was taken to jail and 1000 persons were in disorder for several hours.

John Schrank, board member, called the meeting at the request of five taxpayers. C. B. Ames, chairman of the Parents' Committee appointed to work for Superintendent Seifert's reinstatement, was elected chairman.

When members of the school board took places on the platform, the 800 persons in the hall began shouting and moving forward. An attack upon Ames precipitated a general disturbance, 200 persons who had been outside the hall piling into the building.

Police Chief Medrow and two officers carried Ames from the hall and took him to jail for protection. With Ames gone, partial order was restored and Paul Miller of the school board was nominated as chairman.

A resolution approving the dismissal of Seifert was made and seconded and, with the meeting still in an uproar, a vote was called for, after which Miller pronounced the resolution had been carried.

Adjournment was voted immediately and again free-for-all fighting broke loose. Several persons attempted to address the meeting, but were pushed from the stage and several were carried out by police.

Mrs. C. D. Partridge, secretary of the State Federation of Nurses, who attempted to speak, was among those pushed from the stage. In the melee that followed, Mrs. William O'Dell was knocked unconscious. She was carried into a nearby office where she recovered.

Arguments continued as the assemblage filed out of the building and it was an hour or more after the meeting before order prevailed.

Ames later was released from jail.

"My experience is that Lipton's Tea excels all other brands in rich flavor"
Says—Mrs. Lottie Dietrich, St. Louis, Mo.

And she continues—

"I have used several brands of tea, but the rich, mellow flavor of Lipton's made me discard all others. Its soothing, cheering and invigorating qualities and satisfying flavor are unequalled in the market."

YOU, too, will find that Lipton's Tea is the most delicious in FLAVOR. Here, in brief, is why—

The Lipton Tea Estates produce the Finest Tea in the World, and have been awarded First Prize and Gold Medal in Ceylon and India for its quality and merit.

Sir Thomas Lipton's Tea is blended by experts and packed by means of the most up-to-date methods in his own factories.

That's why Lipton's Orange Pekoe Tea is the best obtainable.

Yet for this finer Lipton flavor and quality you pay no more than for ordinary teas. Therefore, always ask for Lipton's.

PLAN TO CARRY OKLAHOMA FIGHT TO HIGHER COURT

Opponents of Special Session of Legislature Say They Will Appeal From District Judge's Ruling.

COURT REFUSES RESTRAINING ORDER

Leaders of Movement to Impeach Governor Say Way Is Cleared for Action on Dec. 6.

By the Associated Press.

OKLAHOMA CITY, Ok., Nov. 29.—Refusal of the District Court here to grant an injunction to prevent a proposed self-convened special session of the lower House of the Oklahoma Legislature to investigate the administration of Gov. Henry S. Johnston has turned opponents of the movement to the State Supreme Court.

Judge Tom G. Chambers, in refusing the injunction, expressed the opinion that the session, admittedly sought as a court of impeachment instead of a legislative assembly, could not be paid for by the State. He explained that the Legislators would lack authority to appropriate expense money and added that he perhaps would entertain an injunction against persons sponsoring such an appropriation.

Representative E. P. Hill, allied with H. Tom Kight and other lower House members in the demand for investigation of several State departments, said more than enough money remained from the budget of the last Legislature to meet expenses of the special session. The State Auditor reported more than $90,000 of this fund remained.

Attorney-General's Opinion.

Representative F. H. Reily, spokesman and attorney for those opposed to the inquiry, said the Legislators lacked authority to override the refusal of the Governor to call the session, and that he would appeal to the Supreme Court, probably today.

Representative Kight declared the District Court decision cleared the way for convocation of the lower House Dec. 6 as originally planned. He said the Attorney-General had prepared an opinion holding the Legislature had an inherent right to meet at any time for "investigation and impeachment purposes." The Attorney-General withheld the opinion out of courtesy to the courts, Kight said.

The State Supreme Court was named as one of the departments the Legislators would investigate.

No Authority to Spend Money.

In denying a temporary injunction to prevent the session, District Judge Chambers said:

"These four men have no authority to expend any money. The petition of the plaintiff states they have no authority. Money expended by the Legislature must be first appropriated. If you bring a action, seeking to restrain the proper authorities from expending any funds, I may entertain it."

Judge Chambers held that all funds expended for a session would first have to be appropriated by the Legislature and since the proposed meeting admittedly would not be a legislative session, but a court of impeachment, it could not appropriate any money.

Gov. Johnston, who like those concerned in the movement for the session, is a Democrat, has been the target of many charges from his antagonists. The charges included one that his confidential secretary, Mrs. O. O. Hammonds, exercised influence over his office, but this allegation was characterized today by the "big four" as "small game" compared with other accusations.

Foe of Mussolini Imprisoned.

By the Associated Press.

VITERBO, Italy, Nov. 29.—In the middle of a public demonstration of gratitude that Mussolini was spared when an attempt was made on his life in 1925, Vincenzo Zigrossi publicly regretted that the effort against the duce had proved unsuccessful. He has just been tried and sentenced to serve a year in prison and pay a fine of 1000 lire (approximately $50).

147 Priests Executed in Year.

NEW YORK, Nov. 29.—In the last year, 147 Catholic priests have been executed in Mexico, W. F. Montavon of the National Catholic Welfare Conference of Washington told members of the Monday Club, an organization of social workers.

Wednesday is Clover Day at NUGENTS

The Greatest One-Day Value-Giving Event of the Entire Month

"Clover Day" in St. Louis comes but once a month and, oh! what lucky buys you will find. Thrifty shoppers who participate in this extraordinary value-giving event, which is next Wednesday, are assured of buying opportunities out of the ordinary. "Clover Day" is a sale in which we offer items carefully selected from our stocks, weeding out all incomplete lines of merchandise, all odds and ends and broken sizes ranges. With this day once a month we keep our stocks well rounded, fresh and complete—and give to the friends and patrons of this store super-special value! No mail or phone orders on Clover Day items.

YOUR ST. LOUIS

How Well Do You Know It?

THE ROCK ISLAND RY. CO.

The Rock Island Railway Company, in making St. Louis one of its Eastern termini, contributes to the prosperity of that city in its transportation arrangements for both passengers and freight.

Passengers have the advantage of daily service to Kansas City, Denver, Colorado Springs, El Paso, Tucson, Phoenix, San Diego, Los Angeles and Santa Barbara on the West, and Cedar Rapids, St. Paul and Minneapolis on the North.

Fast freight and package cars are so arranged that merchants, jobbers and manufacturers may deliver goods to any point West with promptness and economy.

In many cases the so-called "Red Ball" fast freight delivery has been made to points in Kansas on a parity with parcel post.

This gives St. Louis an unlimited trade territory as the Rock Island is co-operating with connecting rail lines in promoting through, fast, dependable transportation service; and that is the basis for any great civic center.

Every day this space will be devoted to some one particular manufacturing plant or industry which is contributing to the rapid growth of St. Louis.

STORM WRECKS FRAME OF BUILDING; 12 HURT

Unriveted Skeleton of Four Stories Collapses in Chicago —Inquiry Begun.

By the Associated Press.

CHICAGO, Nov. 29.—The steel skeleton of a building under construction at 24th street and Prairie avenue collapsed during a severe rain, wind and electrical storm at dusk yesterday, injuring 12 persons seriously, including two women.

An investigation by the Building Commissioner, Christ Paschen, was started. Paschen said he would inquire why the iron framework was carried as high as four stories and held together only by loose bolts. Riveting should have gone forward as the building rose, he said.

Most of the injured were workmen, who had sought shelter from the storm in a construction shanty. The shanty was crushed by a falling girder. The two women were hurt when a girder fell across the automobile in which they were driving by.

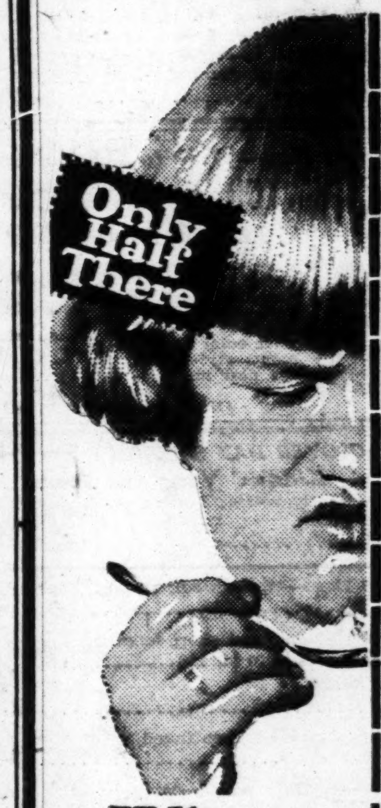
One workman, fleeing, ran into the path of an automobile and was seriously hurt. A falling girder struck the machine, injuring its driver.

SALE OF STOCK WITHOUT STATE PERMIT CHARGED

Warrant Issued for C. M. Hurst, President, and W. N. Oldendorph, Agent for Switch and Signal Firm.

A warrant charging sale of stock without a State permit was issued today against Charles M. Hurst, president of the Hurst Automatic Switch and Signal Co., and Walter N. Oldendorph, a salesman.

The warrant charges the sale of 100 shares of Hurst stock, at $14 a share, on Nov. 12 to Edward G. Lefevre, 4004 Palm street. Lefevre complained to the Better Business Bureau, which turned over the evidence to Assistant Prosecuting Attorney Reidel. The stock-selling permit of the Hurst company was suspended when it was reported to have slight assets, although authorized to issue $10,000,000 of stock.



When

she just won't eat

Countless children victims of cachexia (run-down condition)

When children refuse to eat or develop strange appetite disorders, and consequently become nervous, anaemic and run down, the trouble may often be traced to the lack of vital substance which is abundant in yeast.

As a tonic, regulator, stimulant and corrective for appetite and digestive troubles, give dried yeast to your children.

Yeast Foam Tablets are an absolutely pure food; they don't ferment; they help build healthy tissue and strong normal bodies. And this is the only yeast that is easy to eat and has a delicious taste.

Get a 5c packet or a large 50c bottle at the drug store and see how good this yeast really is!

Eat Yeast Foam Tablets for cachexia (run-down condition). Loss of appetite. Indigestion. Constipation. Boils—Pimples.

IMPORTANT FACTS ABOUT THE NEW FORD CAR

Complete details of the new model will be available this FRIDAY *in this city*

FRIDAY of this week will unquestionably be one of the most important days in the entire life of the automobile industry. On that day, complete details of the new Ford will be available in this city.

You will be surprised when you get the facts about the new Ford car, for you never have dreamed that such a really fine car could be produced at a low price. As Henry Ford himself says—

"The new Ford car embodies the best results of our experience in making 15,000,000 automobiles. We consider it our most important contribution thus far to the progress of the motor industry, to the prosperity of the country, and to the daily welfare of millions of people."

The new Ford car is distinctly a new and modern car, designed to meet new and modern conditions. It is more than a new automobile. It is the advanced expression of a wholly new idea in modern, economical transportation.

An entirely new car in every respect

The minute you see it—ride in it—you will realize that it is not a mere refinement of the former model T Ford, *but a new car from radiator cap to rear axle!* Many features of it are exclusive Ford developments. Some are wholly new in automobile practice. There is nothing quite like it in quality and price.

The new Ford car has exceptional beauty of line and color. It is, in every respect, a new and modern car, designed and created to meet modern conditions.

The new Ford car has unusual beauty of line and color. . . . It has a 40-horsepower engine. . . . It will do 55 and 60 miles an hour with ease and has actually run 65 miles an hour on road tests. . . . It is quiet and smooth-running at all speeds. . . . It is remarkably quick on the get-away. . . . It has specially designed mechanical four-wheel brakes. . . . It has hydraulic shock absorbers. . . . It has a standard, selective gear shift. . . . It is quick and easy to handle in traffic and steady and sure on the open road. . . . It runs 20 to 30 miles on a gallon of gasoline, depending on your speed. . . . And it has the stamina and reliability that you need for mile-after-mile and year-after-year service.

The new Ford car will sell at a surprisingly low price

When you think of such features as these, you think instinctively of a car costing much more than the new Ford. The low price is as unusual as the appearance and performance of the car itself.

The low prices of the six body types are undoubtedly lower than you thought they would be when you first heard that Ford was making a new car. They are, in fact, lower than we thought they could possibly be when we started to make this car.

We determined to bring new comfort, beauty, speed, safety, economy and reliability within reach of everybody who drives a car, and then forced ourselves to find ways to make the low prices possible.

The new Ford car is the result of years of careful planning. Every part of it has been tested and retested in actual practice. There is no guessing as to whether it will be a successful model. It has to be. There is no way it can escape being so, for it is the sum total of all we have learned about motor car building in the lifetime of the Ford business.

The new Ford has unusual speed and power. It will do 55 and 60 miles an hour with ease and has run 65 miles an hour on road tests.

Some of the features of the new Ford car

In this connection we call your particular attention to the new engine; the new pump, splash and gravity oil system; the multiple dry-disc clutch; the new pump and thermo-syphon cooling system; the new battery, coil and distributor ignition; the low center of gravity and minimum unsprung weight which combine with the hydraulic shock absorbers to make the new Ford such an easy-riding car; the irreversible steering gear, with the column and the housing of the steering gear mechanism welded into a single all-steel unit; the seamless, all-steel torque tube; the new one-piece, welded, steel-spoke wheels; the three-quarters-floating rear axle in a forged-steel housing of exceptional strength; the theft-proof coincidental lock; and the aluminum pistons which were selected after many tests because of their light weight and heat-conducting qualities.

"The new Ford car embodies the best results of our experience in making 15,000,000 automobiles. We consider it our most important contribution thus far to the progress of the motor industry, to the prosperity of the country, and to the daily welfare of millions of people."

Henry Ford

Steel forgings are used throughout except, of course, for the engine castings. More steel forgings, in fact, are used in the new Ford than in almost any other car, regardless of price.

WE ARE able to sell this new Ford car at a low price because we have found new ways to give you greater value without a great increase in our own costs. Because we own our own ore mines, coal mines and timber lands and the source of most of our raw materials. Because we make virtually every part used in the new Ford car. Because it is the Ford policy to make a small profit on a large number of cars, rather than a large profit on a small number of cars.

There is nothing like it in quality and price

No other manufacturer can possibly duplicate the new Ford car at the Ford price because no other manufacturer does business the way we do. The public made this business possible. We believe we should share our profits with the public by continually giving greater and greater value for the money.

There are good and substantial reasons, therefore, why the new Ford car is the most unusual value ever offered in a low-price car.

By all means, learn about the new Ford on Friday when it is officially announced in this city. You will know then that there is nothing quite like it anywhere in quality and price.

All delicious cakes . . when made with

Instant Swans Down

Only five minutes from package to oven!

INSTANT SWANS DOWN is the famous Swans Down Cake Flour, with all the other cake ingredients—finest quality shortening, egg whites, baking powder, sugar, flavoring extract—already perfectly measured and mixed with the flour in a "dry batter."

Just add milk (or water)

and beat. And your cake is ready for the oven in 5 minutes, or less. **Then . . .** light. Fluffy. Utterly delicious. Your cake comes out a marvelous cake success.

FOR THE WOMAN WHO PREFERS TO MIX HER OWN INGREDIENTS

SwansDown comes in two forms. Instant Swans Down, already described—and Swans Down Cake Flour. Swans Down Cake Flour is the flour alone, with no other ingredients added. But what a flour it is!

27 times as fine as bread flour

Swans Down is milled from a special soft winter wheat. Of the flour made from 100 pounds of this wheat, only 26 pounds are good enough for Swans Down.

Follow a good recipe and Swans Down will be insurance against cake failure. It makes a cake that is light as a feather. A cake that is tender and delicate—a truly *wonderful* cake.

SHOE RETAILERS PLAN TO EDUCATE MEN ON FOOTWEAR

They Are Careless as to Harmony of Costumes, Says Officer, While Women Display Taste.

EASTER FASHIONS SHOWN AT HOTELS

Prices Will Go Higher, Perhaps Much Higher, Speaker Tells Dealers and Makers' Convention.

Outwardly woman, with her demands for style and quality, is the pivot of the shoe industry, but it's man, oblivious of his feet, who is the problem for shoe manufacturers and retailers gathered in St. Louis this week.

Women virtually monopolize the picture in the glitter of spring styles, showing the trend of smart styles toward light colors, laid before several thousand retailers from many states by the shoe manufacturers of St. Louis and the East. The man problem, however, crops out in the side discussions of the shoe men.

"Short skirts and other things have combined to make woman's footwear about the most important feature of her dress," said A. H. Geuting of Philadelphia, president of the National Shoe Retailers' Association, "but with men it's different. They cling to old habits. A man will buy harmonious haberdashery, but how many will think of buying shoes to match his clothes?

Says Men Are Careless.

"Men are very careless in this matter. They wear tan shoes at night. Tan shoes should be worn only in the day. And they commit other indiscretions in footwear. Women know how to wear shoes. We've got to teach the men."

In men, therefore, the shoe industry is planning to instill a sense of "shoe shame," as they have labeled it. The subject will be brought up tomorrow by Jesse Adler of New York, head of a chain of shoe stores, in the concluding session of the three-day convention of the Southwestern Shoe Retailers' Association and the St. Louis Shoe Manufacturers' and Wholesalers' Association.

A few speeches, a good deal of entertainment and much activity in the shot mart—that is how the fourth annual joint meeting of the two organizations is progressing.

Shoe men say more lines of shoes are being shown in St. Louis this week for the benefit of retailers from most of the states in the Union than ever have appeared in one compact showing in the history of the trade. Nearly every downtown hotel resembles a miniature shoe market.

Higher Shoe Prices Predicted.

Higher prices for shoes, as well as new styles, are being heralded by leaders of the industry.

"Prices will go higher and, I fear, much higher," Henry Cook of Syracuse, N. Y., president of the National Boot & Shoe Manufacturers' Association and head of the A. E. Nettleton Co., told the retailers yesterday at luncheon.

What the well-dressed woman will wear next Easter is being shown twice daily, at 2:15 and 8:15 p. m., to the shoe men at Hotel Statler, convention headquarters, in the Pageant of Footwear Fashions, presented for the first time yesterday afternoon.

The parade of shoe fashions presented the efforts of the St. Louis manufacturers to attain "sophisticated similicity" in style. There was a succession of new colors—rose blush, white jade, honey beiges, shell gray, stroller tan, some of them new, some old shades with new names. Outstanding were the beiges, the slightly yellow, slightly rose and natural beige.

Japanese Fiber in Favor.

An occasional profusion of color was seen in the display of street and sport wear, mingled with honey beige and light colored suede. Also prominent were shoes of toyo cloth, a Japanese fiber used sparingly last season but in abundance for the 1928 styles. The toyo cloth shoes were in all colors. Models of

MOTH

A Cross, Feverish Chi

Constipate

Every mother realizes, after giving her children "California Fig Syrup," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless, "fruity laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When the little system is full of cold, throat sore, has stomach-ache, diarrhea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Fig Syrup" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a bottle of "California Fig Syrup,"

DOHENY TO ASK U.S. FOR $13,009,507 REFUND

Appeal to Be Made to Congress For Money Spent on Pearl Harbor Base.

By the Associated Press.

SAN FRANCISCO, Nov. 29.—Congress will be asked to appropriate $13,009,507 to reimburse E. L. Doheny, oil magnate, and his associates for the construction of oil-storage tanks and other improvements at the Pearl Harbor naval base in Hawaii.

Frank J. Hogan of Washington, attorney for Doheny, made this announcement here while en route to Los Angeles to assist the oil magnate in framing an appeal to Congress.

Hogan defended Doheny in the criminal and civil actions centering about the Elk Hills naval oil reserve lease, which the Government succeeded in having canceled. The courts forced Doheny and his associates to turn back to the Government $13,009,507, representing oil taken from the reserve as reimbursement for expenditures at Pearl Harbor.

"When Mr. Doheny obtained the Elk Hills naval oil leases, he agreed to build storage tanks and other improvements for the navy at the Pearl Harbor base in Hawaii and to take from the oil reserve sufficient oil to reimburse him for the money expended," Hogan said.

"He constructed the tanks and in return received oil valued at $11,000,000. Then, aside from the criminal proceedings it started, the Government brought civil action for cancellation of the lease, at the same time demanding that Doheny and his companies pay for the oil taken from the reserve.

"Now the only recourse left is to appeal to Congress for reimbursement on the ground that the equivalent amount expended by Doheny for the storage tanks and improvements represents a sheer loss to them, though the tanks have been in full possession of the navy ever since they were constructed."

SHOE RETAILERS PLAN TO EDUCATE MEN ON FOOTWEAR

Continued From Preceding Page.

imitation Scotch tweed also were prominent. The favored trimming was a material of pearl luster called astralac.

In contrast to the former lizard and reptile effects, were the new multi-colored and checkered gingham touches. An attractive Russian boot of calf skin was shown. A frequent model was rose blush suede with astralac quarter. In the more conventional modes, black was outstanding, to harmonize with gray dress. Blue also was a favored color for spring, with the new tan shades, marron glace and stroller tan, continuing to be smart.

The suedes in light colors and kid offset by astralac and gingham trimmings predominated in the exhibit of afternoon wear. The display of evening footwear brought forth the usual brilliance of orchid and silver, silver brocade and more bizarre effects in gold, red and silver, with plain silver kid pumps and black satins of previous seasons remaining in favor.

Novelty Buckle a Feature.

Among the more ornate shoes, chiefly of the show variety, was a black pump ornamented with a buckle fashioned like a whippet, an expression of the new popularity of dog races.

Among the conventional ornamentation, sequins and brilliants were abundant.

Style promenades were interspersed with song and dance entertainment. Harry Delf, New York comedian, as master of ceremonies, kept the pageant going smoothly.

Shoe merchants from the Southwest and other sections of the country poured into St. Louis yesterday and today for the pageant and shoe fair. More than 5000 shoe men were expected.

The convention will close tomorrow with an afternoon business session and a midnight entertainment entitled "Shoe Scandals of 1928," the latter at the Missouri Athletic Association.

At the luncheon yesterday, the only scheduled event aside from the style pageant, Morris Wolock, president of Wolock & Bauer, Chicago, recounted how he had built up a $2,000,000 retail shoe business within a few years by concentrating on shoes of high quality.

The Season's Greatest Sample
FUR SALE!
Many Fine One-of-a-Kind Coats

CANDIDLY, the possibilities this notable event presents appeared beyond achievement just two weeks ago. We thought we had gone the limit in assembling extraordinary fur values. But we again underestimated our own tremendous market prestige. Every manufacturing Furrier knows that Kline's enjoy as Furriers the confidence of a vast following. They know that "KLINE'S FOR FURS" is a St. Louis BUY-WORD! They have heard how all St. Louis has been coming to our Fur Salon this season for the outstanding fur investments we have been presenting. And because of this impressive record, several leading New York Furriers have chosen Kline's to sell their sample lines. Every garment is a MASTERPIECE! Every garment at an astonishing saving!

No Corn Remedy As Quick As This

3 Minutes Is All It Takes!

No other corn remedy is like **Shur-Off.**

It positively will not irritate or affect healthy skin. Yet it softens tough, old corns and painful callouses so quickly that in 3 minutes you can take them out—root and all.

No 3-day treatments. No soaking. Just wet the corn with **Shur-Off.** Pain and soreness stop instantly. In two minutes you start taking the corn or callous out. Anyone can do it easily. Get a 50-cent bottle of **Shur-Off** today—use it tonight—and in 3 minutes that sore corn or callous will be out, gone and forgotten.

JOHN W. GRIGGS, FORMER U. S. ATTORNEY-GENERAL, DIES

President of the Marconi Co. of America Succumbs at Age of 78.

By the Associated Press.

PATERSON, N. J., Nov. 29. — John W. Griggs, former Governor of New Jersey and Attorney-General of the United State during the McKinley administration and the president of the Marconi Co. of America, died today, aged 78. He had been ill for several weeks with heart and kidney impairment.

Mr. Griggs was born at Newton, N. J., graduated from Lafayette College in 1868. He was admitted to the New Jersey Bar in 1871.

He served in the New Jersey Assembly and Senate, and from 1896 to 1898 he was Governor, the first Republican Governor of the State in 30 years. He resigned the governorship to become Attorney-General in President McKinley's Cabinet in 1898 and resigned the Cabinet office to enter private practice of the law in 1901. He had been a member of the Permanent Court of Arbitration at the Hague since 1901.

His widow, one son and five daughters survive him.

POLAND ASSERTS LITHUANIA RESISTS EFFORTS AT PEACE

Note to European Capitals Says Warsaw's Aim Is to Establish Normal Neighborly Relations.

LEAGUE TO TAKE UP CONTROVERSY DEC. 5

Russia, Though Not a Member, Will Propose Pacts Of Non-Aggression as Safety Against War.

By the Associated Press.

GENEVA, Nov. 29.—With European statesmen intent on preventing the controversy between Poland and Lithuania reaching a point which would disturb the peace of Europe, delegates of 26 countries will attend the fourth session of the preparatory commission for the world's disarmament conference which opens here tomorrow under the auspices of the League of Nations.

The disarmament question itself has been given a new trend with the recognition that disarmament cannot be accomplished until the nations possess a greater sense of security than is provided by present pacts and agreements.

Maxim Litvinoff, head of the Russian delegation, is reported to intend to propose pacts of non-aggression, not only with nations bordering on Russia, but also with Great Britain and the United States.

The Soviet Government, which recently brought the Polish-Lithuanian dispute to the fore by dispatching a note of warning to Warsaw and a note to Lithuania counseling caution, will participate in the conference as a nonmember of the league. The United States is the only other nonmember participating.

Lithuania's Complaints.

The Russians occupy the center of the stage, as it is possible the disarmament meeting will not be concluded before the League Council meets on Dec. 5. The soviet delegation is credited in certain quarters with desiring to stay here until the council meets, when the Polish-Lithuanian dispute will be discussed.

Lithuania's case against Poland is specifically the alleged mistreatment of Lithuanian clergy and the closing of Lithuanian schools in the Vilna district. To this complaint Premier Waldemaras of Lithuania has added another—that Poland seeks to bring about the overthrow of the Lithuanian Government. In support of these charges Waldemaras transmitted to Sir Eric Drummond, league secretary, a memorandum containing extracts from Warsaw newspapers which he claimed showed such intentions.

In Kovno, the Lithuanian Premier complained bitterly of what he termed "intimidatory and provocative actions" by Poland on the present line of demarcation, which, he said, no Lithuanian today will dignify by the name of frontier.

He declared that the recurrence of rumors that bands are operating on the demarcation line and that the army is demoralized pointed to a set campaign against Lithuania. He continued:

"It is inconceivable that Poland should think of seizing Lithuania by force of arms, seeing that Poland is a member of the League of Nations Council, and that Lithuania is also a member of the League. Our country has little over 2,000,000 population—small as compared to Poland's 17,000,000—but in such an event the whole nation would stand shoulder to shoulder, and I know the peasantry would fly to arms to repel the invader."

Polish Attitude Defined.

The Polish attitude toward Lithuania was defined in a note presented by Polish ministers in all European capitals, including Moscow. The note declared Poland's sole aim was "to establish normal relations of good neighborliness."

Then, asserting that Poland's desires have been frustrated by Lithuania's repeated refusal to terminate the state of war, it continues:

"This unique state of affairs, which implies great dangers for the pacific collaboration of the nations, cannot be allowed to continue. The Polish Government is convinced that its point of view will be shared by all governments and by the enlightened opinion of the world, and that the Government will employ all means to terminate the state of war proclaimed with such insistence by Lithuania."

LEAGUE TO TAKE UP CONTROVERSY DEC. 5

Russia, Though Not a Member, Will Propose Pacts Of Non-Aggression as Safety Against War.

Poland Assures U. S. of Desire for Peace With Lithuania.

By the Associated Press.

WASHINGTON, Nov. 29.—The Polish Government through its Minister Ciechanowski presented to Secretary Kellogg an official note declaring she desired to establish peace with Lithuania.

The note was described as an effort by Poland to define its attitude in view of the proposed consideration of the controversy by the council of the League of Nations. Declaring Poland has met with refusals by Lithuania in its moves toward peace, the note asked that the other Governments aid in terminating the state of war "persistently proclaimed by the Lithuanian Government."

Complete Solution at Present Impossible, Says Waldemaras.

By the Associated Press.

KOVNO, Lithuania, Nov. 29.—Augustine Waldemaras, Lithuanian Premier, is preparing to journey to Geneva to submit Lithuania's case against Poland to the League of Nations. He will reach Geneva Dec. 5, when the Lithuanian-Polish question comes before the council.

"We are faced by a situation so difficult and representing such widely divergent view points," he informed the Associated Press correspondent, that it almost precludes the possibility of a complete solution, but we hope to find some basis from which it will be possible to proceed step by step."

Waldemaras was president of the Lithuanian delegation at Versailles, the first Lithuanian Premier and Lithuanian delegate to the first assembly of the League of Nations.

Misnomer for Fugitives.

"Emigrants" Waldemaras considers a misnomer for fugitives from justice, who, he said, are often put by the Poles in Lithuanian uniforms to make them appear to be army deserters.

"There have been no desertions," he declared, "neither has there been any fighting by socalled bands, although the presence of these malcontents naturally is always a potential danger."

His negotiations with the different parties to form a coalition government, the Premier said, still were proceeding, not so quickly as he wished, but still they were making progress. He scouted all rumors of his impending resignation and refused to believe that Poland intended to precipitate in a conflict before Dec. 5, so as to place the League of Nations before an accomplished fact. The soviet note to Poland had been timely, he thought, and plainly and significantly worded.

The Kovno Government will publish today the text of a lengthy explanatory letter, dated April 3, to the British, French and Italian envoys reaffirming that Vilna is a question of life and death for Lithuania, which still believes the return of its ancient capital possible by pacific means.

Lithuania's rights to Vilna, this letter declared, never had been abrogated, and a Baltic Locarno pact was suggested to settle the dispute. Meanwhile, it was added, Lithuania still was seeking a peaceful solution.

A Polish aide de memoire, dated May 14, meets the Lithuanian letter by raising doubts of Lithuania's good faith, and suggests that the Lithuanian legislature easily could devise a means of easing the situation in the Vilna district.

This suggestion indignantly is rejected by Lithuania in memorial of Oct. 28, which says this would mean a second renunciation of her indubitable rights, and which counter charges Poland with a conspicuous lack of conciliatory spirit.

LONDON OPENS CRUSADE AGAINST IMMORAL PLAYS

Fight Is Carried to the House of Commons and St. James' Palace.

Copyright, 1927, by the Press and Pulitzer Publishing Cos. (The New York World and Post-Dispatch.)

LONDON, Nov. 29.—London's battle against allegedly immoral plays was fought yesterday on two fronts, the House of Commons and St. James's Palace.

The House was debating the question of private production of plays banned by the censor, but the Earl of Cromer, the Lord Chamberlain, put a new show by P. G. Woodehouse on the front pages of the newspapers by summoning to St. James's two pairs of pajamas worn by actresses. The pajamas received official sanction and were borne off in triumph by the press agent of the piece.

Home Secretary Joynson-Hicks told the Commons new laws will not be introduced to deal with dramatic societies able to present shows banned by the censor. The Lord Chamberlain, he explained, has no authority over these private groups, which do not charge admission at the box office. He has power only over the commercial theater.

The plays rejected by the censor but acted or to be acted by private organizations include Strindberg's "Countess Julie," "Maya," a French hit dealing with the life of a courtesan, and the New York successes, "Young Woodley" and "The Captive."

Roman Truck Horses Eat Bread.

By the Associated Press.

ROME, Nov. 29.—Truck horses of Rome are becoming epicures. They prefer well-baked bread to the uncooked fodder which is oftener their ration, and many cart owners collect stale bread from hotels and restaurants for their steeds. The horse, eating his bread at noontide, noses it delicately to get the best pieces first, but lets none of it go to waste.

SOME OBSTACLES TO PARKING AUTOS ON RIVER FRONT

Motorists Frequently Would Be Held Up by Freight Trains on Railroad Tracks at Top of Levee.

LONG, UPHILL WALK TO BUSINESS DISTRICT

This Could Be Overcome by Initiation of Bus Service to Some Central Point Downtown.

Facilities for automobile parking on the levee, suggested as one means of providing space for the machines of downtown workers and shoppers, if the proposed parking ban in the shopping district becomes effective, were examined today by a reporter for the Post-Dispatch.

The levee parking suggestion was made by Street Director Brooks in comment on an editorial in the Post-Dispatch, which pointed out that some provision for the parking of machines must be made, if daytime parking on Washington avenue, Locust and Olive streets, from Twelfth boulevard to Fourth street, is banned, as is desired by Brooks.

It was found that, aside from motorists going to and from the parking spaces being held up frequently by long "drags" of freight trains at the top of the levee, and several blocks of uphill walking to the business district, the levee as a daytime storage space for automobiles would fill all requirements.

Bus Service Suggested.

There is possibility, however, that the comparatively arduous walk may be obviated by the initiation of bus service from the levee to some central part of the business section. M. F. Morse, manager of the Automobile Club of Missouri, to whom Brooks suggested the bus service, said the club will consider acquiring a bus to give such service. Comptroller Nolte has announced the city has no fund with which to furnish such service, in response to an inquiry from Brooks.

Although there is room on the paved portion of the levee, extending 22 blocks from Chouteau avenue to Carr street, for more than 3500 cars, few machines now are stored there. By actual count, there were but 32 cars in the entire space yesterday, 28 of them south of Market street and the other four scattered in the vicinity of Washington avenue. The machines were those of employes of firms on river front streets.

J. R. Parker, wharfmaster, in charge of the levee, said he now has eight laborers available who would be able to guard machines parked on the levee and direct their parking in orderly fashion. The machines would be placed in rows facing north and south, the sides of the machines to the river, so there would be no danger of any of them running into the water should their brakes be loosened after they are parked.

Must Consider River Traffic.

Machines could be parked on all portions of the paved section of the levee from Oct. 1 to about April 15, when there is little river traffic. During the other months, some space would have to be left open between Olive and Pine streets and in the vicinity of Washington avenue, to permit laden drays and trucks enough room to unload their freight on the wharfboats. These vehicles require about a block of space in which to "angle" down the steep levee with their heavy loads.

During the spring months, when the river usually is high, the number of machines which could be parked on the levee would depend, of course, upon the stage of the Mississippi. During the abnormally high stage of the river last spring and summer, the entire levee was submerged. Ordinarily, during that season, the river comes about halfway up the levee. Normally, the sloping section, where machines would be parked, is about one and one-half blocks wide.

Clearing of Sediment Necessary.

Several blocks of the levee south of Carr street now are a mass of sediment left by the river after the spring and summer floods. Wharfmaster Parker said this could be removed within a short time, should the space be needed. For about two blocks north of the Free Bridge, the paving is rough and covered with mud and litter. This also would be cleaned up easily, Parker said.

The levee at Memphis has been used several years as a parking place for automobiles and, despite a longer walk to the downtown district than motorists here would have, the idea is a popular one there. In Chicago, machines are parked on the lake front, east of Michigan boulevard. From some sections of this parking district, the walk to the loop is from one-half mile to three-quarters.

PROPERTY RIGHTS INVIOLABLE UNDER MEXICAN RULING

This Interpretation Is Given To Decision in Oil Case By American and Mexican Lawyers.

HAILED AS ENDING 10-YEAR FIGHT

Supreme Court Expresses Conviction That Security Of Capital Is Basis for Investment.

By ARTHUR CONSTANTINE,
A Staff Correspondent of the Post-Dispatch and New York World.

MEXICO CITY, Nov. 29. — A special copy of the text of the lengthy decision handed down by the Mexican Supreme Court Nov. 17, in the case of Mexican Petroleum Co. of California, became available to the correspondent yesterday. Simultaneously, Ambassador Dwight W. Morrow received a copy and immediately transmitted it to the State Department.

The decision is held by eminent American and Mexican lawyers representing American oil companies to indicate the end of the ten-year controversy between these companies and the Mexican government. It also is held to establish once and for all in Mexican jurisprudence the inviolability of legal property rights.

The menace to those rights which the oil and land laws were deemed by foreigners in Mexico (and Mexicans as well) to hold, constituted at bottom the issue in the controversy between the American and the Mexican governments, which got under way in 1917 with the promulgation of the present constitution of Mexico.

Pre-Constitutional Proprietary Rights.

The court in its decision, the text of which follows, lays down the principle of the fullest respect for pre-constitutional proprietary rights. It also expresses the conviction that security to capital is the basis for the investment of capital in Mexico.

It affirms peremptorily that the Minister of Industry, Commerce and Labor cannot constitutionally set any limitation on the enjoyment of rights acquired in perpetuity prior to the 1917, the year of the promulgation of the present constitution of Mexico.

These principles are fully expected by American and Mexican lawyers in Mexico to orient the forthcoming decision of the Supreme Court in 16 other cases of amparo, as injunctions or grants of protection are called in Mexico, which now are listed on the docket of that tribunal. They are likewise certain, it is predicted on all sides, to guide the court in its consideration of suits to be brought by American land companies testing the constitutionality of these allegedly retroactive provision of the alien land law which require American companies owning land in Mexico to become 51 per cent Mexican-owned within 10 years from 1925.

The disposition in American oil and diplomatic circles in Mexico is to accept the decision of the Supreme Court in the petroleum case at its face value.

Text of Decision.

The official text of the decision follows:

"Objection is made that the resolutory part of the sentence is in contradiction with some of its considerations in that the amparo was granted despite the fact that the latter maintained that the legislative body is that which gave retroactive effects to the law and not the responsible authorities, and therefore, in applying it, there are no violation of guarantees in this regard. This grievance does not exist, for assuming this to be true, that alone would not be sufficient for the reversal of the decision unless the said consideration directly governed the resolutory part of the sentence.

"On the contrary, it appears from the decision that the retroactivity which the plaintiff company alleged that the law contained was not the basic motive upon which the 'amparo' was granted, but it was granted because the Judge deemed that there was a deprivation of rights without the corresponding suit, and contrary to Articles 14, 16 and 27 of the constitution, a viewpoint of the Judge which the Supreme Court will not analyze.

"It is also affirmed that the decision recognized that the existence of a potential right is violated, such as the right of the company to exploit the subsoil. It is not true that a simple expectancy is involved, for in addition to the fact that the District Judge has only made reference to the rights to explore and exploit, conceded to the plaintiff, those rights exist not potentially, but because of the operations which the company has carried to conclusion under the respective permits under the protection of previous general provisions, and for that circumstance alone it involves more than a simple expectancy.

Rights Under Petroleum Law.

"Furthermore, when the said petroleum law which is sought to be applied expressly recognizes the possible and real existence of these rights by enumerating them in its Article 14 without it disowning the said rights because of a pretended failure to exercise the same, or of any enjoyment which has been had, and the Secretariat of Industry, in sustaining the contrary in its relative complaint, places itself in contradiction to the said petroleum law, the application of which that Secretariat is obligated to carry out.

"The thesis that is sustained to the effect that the rights of the company, with regard to which confirmation has not been solicited, should be held as legally waived, in accordance with the provisions of Article 15 of the petroleum law, is inadmissable. In effect the law grants a term of one year for the presentation of a petition for confirmation of rights and that term cannot have run for the plaintiff company, because if such confirmation could not be issued for more than 50 years, in accordance with the final paragraph of section 2 of Article 14 of the law, and if this limitation implies restriction or partial loss of the rights which its titles, issued prior to May 1, 1917, gives to the company, it is evident that such petition could not be made by the plaintiff without damage to that which is within its patrimony; for such petition for confirmation would imply a submission to the limitation above mentioned. If it is indisputable that the confirmation of a right is the express recognition of the same, to limit it in the terms of the said Article 14 is to modify that right instead of confirming it.

"Consequently, if the plaintiff company could not solicit the confirmation of its pre-existing rights without limiting them as to term, it is beyond doubt that it is indispensable that this restriction must disappear; and consequently the term of one year set out by Article 15 could not have elapsed, due to the impossibility which has been mentioned.

Revocation of Permit Illegal.

"As the Secretariat of Industry and Commerce, contrary to the conclusions above expressed, revoked the permits which had been issued to the plaintiff company, basing such action on the lapse of the term referred to, without taking into consideration the unconstitutionality of the limit of 50 years, which was a condition fixed for the confirmation, there is no room for discussion that the revocation order complained of violates in this regard the guarantees in favor of the plaintiff which are set out in Articles 14, 16 and 27 of the Federal Constitution.

"Finally it is claimed that the Judge failed to consider the clause contained in the revoked permits relative to the provisional character of the same, and that they were subject to the provisions contained in the petroleum law. As to this, it must be observed that the decision treats of this question, and consequently the contention and grievance is without foundation. But even if that alone would be sufficient to dismiss the action, it is in order to establish the fact that the permits revoked, even though they had a provisional character, were conceded under the fundamental consideration that the petitioning company had rights to allege and of the kind set out in Article 14 of the petroleum law, and that there has still been no legal examination made of those rights which would permit the non-existence to be affirmed in accordance with Article 14.

"In addition, the observance of the petroleum law, as unrestrained, however free and spontaneous as it may be supposed, cannot be referred to except as to those provisions which are constitutional; for by any other manner of reasoning the absurdity would have to be accepted that individual guarantees can be renounced, a thing which has been proven at law cannot be done, and which constituted a basic provision of our constitutional law.

"The plaintiff company alleges that the sole provision which imposes the obligation to solicit the confirmation constitutes a violatory act, from the moment in which it cannot be agreed to, except by means of a new concession which the company deems it is not in order to solicit, as it is in enjoyment of relative rights by virtue of its titles and of perfectly valid authorization obtained prior to the petroleum law.

"Juridically, the grievance above set out cannot be sustained, for the Secretariat of Industry, Commerce and Labor violates no guarantee on requiring that confirmation of the rights be asked for, for Article 14 of the petroleum law only refers to the recognition of those acquired rights without any substantial alteration. Therefore, the requisite of confirmation is only a procedure in regard to tenure imposed by the legislative body for the use and exercise of those rights for reason of public order and precisely to safeguard them. If such rights were to be confirmed by operation of law and no manifestation would have to be made, it would result in great difficulty and impossibility in many cases to ascertain if the rights were still in the original state or if by some circumstance that state has been changed.

"The Secretariat of Industry, Commerce and Labor must have some means by which there will appear before it the various title owners covering petroliferous lands, that it may know the nature and extent of the rights, confirming them without any cost whatsoever, in accordance with the provisions of paragraph I of Article 14, by means of a recognition which is nothing more than the formal expression of the confirmation of rights already acquired, and those to which the petroleum law refers.

"Therefore, the rights of the plaintiff company are in no manner affected by a confirmation which does not modify them, but does recognize them always, provided the requisites set out in Article 14 of the said petroleum law in its sections I and II and the obligations contained in the prospective title, have been complied with.

"Moreover, it is not doubtful to anyone that petroleum and its derivatives constitute one of the riches most sought after by industry and commerce, and that its producing zones are a limited and reduced area. In a strip frequently narrow many and varied industries intermix and develop—such as modes of transportation over and under the soil, industries for the transformation and reducing to possession of petroleum, and exploration and exploitation works. All of these activities, far from being carried out in complete harmony, touch at various points and even clash, and enter into conflict.

Confirms Lower Court in Part.

"Hindrances and invasions result which the public authority has the inevitable duty to prevent and regulate. This activity cannot be regulated humanly or rationally without a scientific knowledge, without knowing it exactly, and identifying the conflicting interests and the manner in which they develop. For this knowledge, the first step is the confirmatory registration, which does not damage nor modify the rights substantially, but merely tends to authenticate them and make sure of them, thus permitting the public authority to coordinate them peacefully and wisely.

"For the reasons given, and based upon Articles 103, section 1, and 107, section IX of the Federal Constitution, and article 86 and other relative articles of the reglamentary law of 'amparo,' it is resolved:

"First: The decision of the District Court in the 'amparo' suit to which this proceeding refers is confirmed in the following terms:

"Second: The justice of the union protects the Mexican Petroleum Co. of California against the acts which it complains of, and which consist in the revocation of the permits executed by the Secretariat of Industry, Commerce and Labor for the drilling of wells 'Mendez No. 272,' 'Chijol No. 63,' and 'Dicha No. 104,' in the lands of the extinct hacienda of Chapacao, municipality of Panuco, State of Vera Cruz, said revocation being based upon Articles 14 and 15 of the organic petroleum law, covering Article 27 of the general Constitution, and in applying the sanction established by said Article 15."

FOUR CARDINALATES GO TO NON-ITALIANS

One of Recipients of Red Hat Is Archbishop of Quebec.

By the Associated Press.

ROME, Nov. 29.—The prospective creation of four non-Italian Cardinals, announced today, shows the intention of Pope Pius to give preponderance to foreign elements in the sacred college perhaps in view of further developments of the "Roman question" as the conflict between the church and the Italian State is called.

The four new Cardinals will be Monsignor Raymond K. M. Rouleau, Archbishop of Quebec; Monsignor Pedro Segura y Saenz, Archbishop of Toledo; Monsignor Charles Joseph Dinet, Archbishop of Bescancon, and Monsignor Alessio Lepicier, Titular Bishop of Tarsus, who will replace Cardinal Billot as French Cardinal of the Curia.

Owing to a mistake which occurred through the announcement of a new Archbishop of Toledo in Osservatore Romano, official Vatican organ, an error was made in the first announcement of the prelates due to receive the red hat. The original announcement was that Monsignor Zaccaria Martinez y Nunez would be the new Spanish Cardinal. He, however, is Archbishop of Burgos and will be transferred to Toledo at the same consistory which is to create the Cardinals.

The new appointments are noteworthy in that the two new French Cardinals are known to be opposed to "L'Action Francaise," the French royalist paper which recently was placed on the Index Expurgatorius. They are both strong upholders of the papal policy in regard to the periodical's political activities and their appointment is regarded as showing the determination of the Pontiff to emphasize the attitude he has adopted toward the paper.

OVATIONS FOR CHAMORRO

Nicaraguans Celebrate Return of Man Opposed by U. S.

By the Associated Press.

MANAGUA, Nicaragua, Nov. 29.—Celebrations continued yesterday for Gen. Emiliano Chamorro, whose return to Nicaragua last week, despite warnings from the United States Department of State that he would be persona non grata if elected President, has assumed something of the aspect of a triumphal march.

A te deum in honor of his return was sung at the cathedral yesterday. No disorders have attended the return of the Conservative leader, since the Liberals say they will hold celebrations of their own later.

CALLES TO COPY MUSSOLINI'S PLAN IN 'WHITE SHIRTS'

"League for Revolutionary Defense" Organized to Defend Government Against Reactionaries.

WILL BE FORMED IN MILITARY UNITS

Rural and Urban Populace To Be Molded Into Body to Carry Out Policies of Calles and Obregon.

By the Associated Press.

MEXICO CITY, Nov. 29.—A militant nation-wide body to uphold the policies of the Calles administration is to be organized throughout Mexico. It is described as similar in purpose to the "Black Shirts," the followers of Premier Mussolini in Italy, and it has been suggested that the Mexican militants be termed "The White Shirts."

By the formation of these "White Shirts," the newly-organized "League for the Revolutionary Defense" intends to strengthen its hand against what it terms the reactionaries.

The farmers throughout the Mexican countryside and also the other residents there would be organized along military lines. Similar organization would be effected in the towns and cities. All would be pledged to give their lives, if necessary, in fighting in defense of the principles of the Mexican revolutionary government (the Calles and Obregon policies).

Formed Several Days Ago.

Supporters of the policies of President Calles and Gen. Obregon formed the league a few days ago. One of these organizers is Congressman Soto Y Gama, leader of the Agrarian movement and the Agrarian political forces. The purpose of the league is to fight "reactionary elements." These were specifically announced by the organizers as "the Knights of Columbus, the League for the Defense of Religious Liberty and all the enemies of the revolutionary government."

Mexican labor, in the meantime, has begun the circulation of a testimonial of appreciation for the policies of the Calles administration. It is planned to present to him next year when his presidential term ends, with the signatures of 2,000,000 Mexican workers.

Will Point Out Benefits.

The testimonial will be bound in a great album and will point out that the Calles policies are of benefit to the working classes and the common people generally.

A federal offensive against what the Government terms "Catholic rebels and outlaw bands" in the states of Jalisco, Aguascalientes and Michoacan, has been announced by the War Department.

Infantry, artillery, cavalry and air forces will participate. Federal troops have already been concentrated in the affected states and the authorities declare these are the only sections of the republic where subversive elements are active.

GROUP GETS SOVIET CONTRACT

Americans Extend Six-Year Credit to Metallurgic Combine.

By the Associated Press.

MOSCOW, Nov. 29.—The concession signed by the Soviet Government with a group of Americans, headed by Percival Farquhar of New York, is regarded in responsible circles here as a long step toward economic and political rapprochement with the United States.

The agreement, made public last night, provides for the extension of a six-year credit of $40,000,000 for the reorganization of the Makkeyev Metallurgic Combine in the Donetz coal basin. The Soviet on its part will spend about $25,000,000 for the same purpose.

Lederer returned home after his audience with the minister, but he could not be pacified. When about to leave his home again in the evening he collapsed and died.

LETTERS FROM THE PEOPLE

Valuation of Condemned Property.

To the Editor of the Post-Dispatch.

YOUR story covering the report of the Kingshighway Northwest commission, will be greatly appreciated by many of the owners of property taken over by the city.

The writer, being one of those adversely affected, will give an illustration showing the wide difference in values set by the majority report on practically the same ground taken.

In the case of myself, and one or two others in the same city block, all of whom but myself might be classed as "poor people" holding mortgaged property, the values were placed as low as 12c per square foot, when any competent appraiser knows it was worth at least 20c per foot at the time the ordinance was passed. Then, after depriving the owners of the use of the ground for about six years, but compelling them to pay taxes thereon yearly, the commission has allowed the magnificent sum of 12c per foot square, entailing a loss, in my case (taking actual cost, at fair prevailing price at the time the ordinance was passed) of more than $10 per front foot. There are many instances of this kind, and this may account for the abnormally high valuation placed by the majority commission on other ground.

I think that if this matter was gone into a little farther, there might develop something as interesting as the "removal of restriction" case so recently exposed.

Some persons, not so fortunately situated as myself and others, were compelled to take the award, having no means wherewith to fight for their rights, and I believe you would be doing another praiseworthy act by going to the bottom of this matter, for which Mr. Felberbaum of the commission has so nicely paved the way.

Pull, Prosperity and Piffle.

To the Editor of the Post-Dispatch.

I SEE that Prof. Irving Fisher says that Americans are not prosperous. And other cynics, for hundreds of years, have been telling children there is no Santa Claus. The Republican platform will be devoted to pull, prosperity and piffle, and you can start counting the majority right now.

LOTTA BUNK.

The Injunction Evil.

To the Editor of the Post-Dispatch.

LABOR leaders who have advocated outright defiance of injunctions in labor disputes whenever the writs interfered with the strikers' constitutional rights as citizens often have been denounced as extremists and radicals. Their critics will do well to digest the sound logic of William D. Mahon, president of the Street Car Men's Union. Says Mr. Mahon:

> I have always said that I knew the law and that if I violated the law I would be arrested and punished for that offense, and that it required no Judge to tell me when I was violating a law. An injunction is not a law. It simply is what some Judge says or orders. I obey the law, and I regard that as all I am required to do. I am not required to obey an order that some Judge sees fit to issue if that order is in conflict with the law.

That is organized labor's position in a nutshell. Strikers accused of injunction violation repeatedly are denied jury trials, and judges get away with it, yet the most confirmed criminal, robber, murderer or safeblower cannot be denied a trial by jury when arrested.

We do not advocate injunctions to stop murder, robbery, etc., by which accused could be tried without juries. Everybody admits that that would be too dangerous. It would be likely to result in the conviction of innocent people. The public and the press should unite in protest against a court procedure against striking workmen which admittedly is too dangerous to use against murderers and other criminals.

MARTIN A. DILLMON.

A Magic Wand.

To the Editor of the Post-Dispatch.

EMIL OBERHOFFER has completed his engagement as guest conductor of our Symphony Orchestra. It is not too much to say that this has been a memorable experience for St. Louis. Is it permissible sadly to ponder the years that have been sinned away and to wonder what our Symphony Orchestra might be today if it had had such inspired direction during those years? The point I would make is this: Citizens who assume the management of our Symphony Orchestra should be prepared to meet that obligation competently. They should keep abreast of the tremendous art of symphonic music. They should see to it that the orchestra has the finest direction obtainable. They should not permit personal relations to color their judgment. When, or if they do, they default badly in a profound cultural debt to the city. This criticism is not offered in a carping spirit. It is submitted in the hope that henceforth the orchestra will have conductors capable of bringing forth the best efforts of those musicians, as Oberhoffer's magic wand has done.

ST. LOUISAN.

GOING TO THE PEOPLE.

It is gratifying to note that the antiprohibition leaders who met at a dinner in the Union League Club, New York, to plan a campaign against prohibition in next year's election are thinking along right lines. According to Capt. Stayton, head of the Association Against the Prohibition Amendment, and former Senator Wadsworth of New York, instead of seeking to put an antiprohibition plank in the platforms of the leading parties for the presidential campaign, they are asking for a popular referendum. If they find it impossible to have a national referendum, they wante referendums in each state.

In short, the antiprohibitionists do not want arbitrary action on the part of Congress or the state legislatures, such as the Anti-Saloon League obtained in putting over the eighteenth amendment, and drastic legislation to enforce it; they want to go to the people, the sovereign power which ratified the Constitution. It was the people in convention in the different states who ratified the Constitution restricting the powers of the Federal Government and safeguarding their own rights, and it is the people who ought to determine what powers shall be given the Federal Government.

The citizens of the United States, who under the Constitution placed limits on the power of the Federal Government, in defense of their own rights and the powers of the states, constitute the only body which has a right to say what powers shall be exercised by the Federal Government.

The plan of the antiprohibitionists to go to the people is a wholesome sign of returning sanity and of recognition of the fundamental American principle of popular sovereignty.

The $3,000,000 which the antiprohibition leaders propose to raise for the purpose of circularizing the people will be well spent if it arouses in them a true sense of their power to control the Federal Government and of the violation of their rights embodied in the eighteenth amendment and the Volstead act.

SIMPLICITY IN RUMANIA.

A dispatch from Rumania says that Bratiano, dead dictator of Rumania, wanted a simple funeral and that his wishes were respected. It goes on to narrate that six huge white oxen drew the bier behind 50 priests clad in medieval finery. To the little town where Bratiano was buried came 10,000 peasants in colorful national costumes bearing lighted candles, wooden crosses and holy water bottles. A brilliant group from the Rumanian court marched behind the coffin for three miles to the cadences of Chopin's funeral march. Masses of flowers there were. A queen wept as she paid her last tribute at the open grave. "In life," says the inspired Associated Press correspondent, "the dictator of Rumania moved among Kings and Princes, but in death he preferred the humble funeral of the peasant."

Bratiano's funeral may have been simplicity itself in Rumania, but in this country such grandeur is known only at the interment of rich bootleggers like the late Dion O'Banion.

OBERHOFFER—MIRACLE MAN.

Music has it over baseball, in this way: you can get all kinds of thrills out of music even if you don't know one blessed note from another; while, unless you know the rudiments of baseball, a Thermopylae, Waterloo and Marne of the diamond, rolled into one blue afternoon, would be a washout.

There is another difference between the two arts. It is a debatable baseball question whether the manager makes the team or the team the manager. The parallel question whether an orchestra makes a conductor or a conductor an orchestra has been answered gorgeously and conclusively for St. Louis by Emil Oberhoffer. In baseball terminology he would be called a "miracle man." Certainly he has accomplished wonders with our orchestra in his brief tenure as guest conductor. Under his direction the orchestra might be likened to an instrument responding marvelously to every touch of the master's hand, from softest whisper to boldest blare, from the most delicate tint to a riot of color.

He has had many ovations, has Oberhoffer, in his long, vibrant career. That is easily understood. He is craftsman and artist; a leader by the force of authority and, one imagines, by a rare sympathetic relationship with his fellow-artists; a pictorial figure, too; and, in the highest sense, a showman. But he never received a more spontaneous and genuine tribute than that accorded him Sunday afternoon at the conclusion of the Pop concert.

It was a deserved tribute. St. Louis never knew its orchestra before. Under Oberhoffer the orchestra has come into its plumed and splendid own. And a more-than-capacity house (it is estimated that 1000 persons were turned away) proves that good music pays.

OFF TO PERU!

The Peruvians, whose Incas forebears filled a room 22 feet long and 17 wide once with gold and twice with silver and gave this treasure to their Spanish masters, are now on their uppers and have just negotiated a loan of $80,000,000 in Wall street. The chief lenders are our old friends, the J. and W. Seligman Co. and the National City Bank.

We presume General Lejeune and the Marines will take due notice of the item and proceed to lay in uniforms and supplies suitable to the climate of Peru. We trust the chap who gets up the posters will proceed forthwith to design one entitled, "Join the Marines and See Peru." Dust off the old reliable transport "Henderson" and make her ready for a voyage. Tune up the bombing planes and sharpen the bayonets.

In making these suggestions, we are animated by a spirit of preparedness. As everyone knows, the Marines followed the Seligman Co. into Nicaragua and the National City Bank into Haiti. The thing works like an algebraic equation. The bankers lend the money, seize custom houses, railways and local banks as surety. They designate a collector of customs and various other officials and finally get into local politics and elect a president whom they can trust. The natives become alarmed and start a revolution. Then the Seligmans and the National City Bank cable the State Department for Marines.

By this time we know that whenever the bankers swing into action, it won't be long before the Marines get into marching order. In the case of Peru, why wait for the inevitable revolution? Hit the decks, boys! Pizarro is the watchword and we're Peru-bound!

THE POLITICIAN NOBODY KNOWS.

On Aug. 2 Mr. Coolidge announced "I do not choose to run for President in 1928."

Most of the papers accepted the President's word that he would not be a candidate next year. Some of the papers (many of them his loyal supporters) construed the statement as a conditional withdrawal. And that was—and is—the attitude of many party leaders known as Mr. Coolidge's closest friends.

Since then, one of those friends, Senator Fess of Ohio, who was campaigning actively for Mr. Coolidge's renomination has been soundly "spanked," as he put it, by the President. Another friend, a Boston banker, started a chain letter a week or so ago for the purpose of creating nation-wide sentiment for the drafting of Mr. Coolidge. This movement has been abandoned. It seems to have displeased the President who spoke rather irritably about it. But he did not speak for quotation, and from the vague, indirect way in which a President, by custom, is reported, the public does not know what he said or how he feels. It can only guess.

Those practical party leaders of the party, the Republican National Committeemen, will meet in Washington next Tuesday in what is described as "one of the most important party councils in years." A few of them are already on the scene. What are they saying? One of them says: "I am satisfied in my own mind that the President has taken himself completely out of the race." But that is not a statement of fact. It is a personal opinion. That is as far as anyone can go. Nobody can say flatly that the President is not a candidate. Anyone may think it, or believe it; the men prominently mentioned as candidates may hope it. They do not know it.

Mr. Coolidge is, of course, solely responsible for this confusion. He alone can remove the uncertainty. He can do it in a minute. He does not choose to do it. He does not have to spank Fess. He does not have to rebuke his Boston admirer. Just a few, simple, candid words and the thing is done. His refusal to speak those words, in the face of the country's persistent doubt, which his party's leaders share, warrants the suspicion that there was a string to the Rapid City renunciation, and that Mr. Coolidge, admittedly a pastmaster of politics, is playing a waiting game.

It is an unbecoming Bruce-Bartonic role for the President of the United States to play—that of The Politician Nobody Knows.

COL. FORBES' MISSION.

The latest reminder of the scarlet-and-gold days in Washington is Col. Charles R. Forbes who has returned from the bleak immurement of Leavenworth to the thrust and parry of living men. He comes back firmly resolved to devote the remnant of his life to reconstructing the fame of men beaten down by the slings and arrows of outrageous fortune.

First, his erstwhile cellmate, Doc Cook. Did Doc get to the North Pole? Was that classic hoax in truth a pinnacle of human achievement? "Everywhere I looked was south," deposed the Doc in what, as we recall it, was the apogee of his recital? That rhetorical flight gave the twentieth century, still in its knickers, many a good laugh. But the Doc was on the square, says Forbes, whose mission it will be to prove it.

Warren Gamaliel Harding sleeps in marbled splendor. Does he sleep badly? Books of fiction and purported fact—do they disturb his dreams? The blind goddess, Justice, speaking in the solemn tones of austere tribunals, proclaims again and again that the evil that men do lives after them. But does history point an accusing finger at the grave in Marion? Or is the verdict that of pity for one tragically unequal to the stern duties of magisterial command?

Forbes thinks history has condemned his friend and he is determined to correct the evidence and reverse the judgment.

This joint mission—the moral resurrection of a dead President and a living convict—is grotesquely incongruous and unpleasantly absurd. But that is Forbes—the farceur of the Ohio Gang's orgy.

THE POLAND-LITHUANIA SQUABBLE.

When the map of Europe was remade after the war, Poland and Lithuania emerged as new and independent states by the process of self-determination. As in many other similar cases, the division was an artificial one, made without due regard to nature and geography. Poland, by the creation of Lithuania, was cut off from its natural seacoast on the Baltic. The Paris Peace Conference, recognizing the merit of Poland's contention that it must have a port on the Baltic, made Danzig a free city and gave Poland access to it by a narrow corridor through Germany—obviously a makeshift arrangement. Memel, another Baltic port, was taken from Germany and given to Lithuania. This paragraph from a Warsaw dispatch illuminates the situation as it stands today:

> Lithuania's attitude toward Poland is considered here to have nearly reached the limit of toleration. It is pointed out that there now exists between the two countries no railway, postal or telegraphic communication and the hermetically closed frontier renders stabilization of conditions in Eastern Europe impossible. Added to this is the closing of the Lithuanian port of Memel to Poland which deprives the latter country of a national outlet to the sea through the River Niemen.

Beneath all the bickering of politicians in Poland and Lithuania, the dispute over Vilma, and so on, lies the fact that the Peace Conference sowed dragon's teeth when it shut off Poland from the sea, just as it stored up trouble by partitioning the old Austrian empire in such a way as to isolate Vienna, a city of 2,000,000, in an Austria of only 6,000,000 and by dismembering Hungary by dividing two-thirds of its territory and population between Czecho-Slovakia, Rumania and Jugoslavia. The new nations completed the isolation by erecting tariff barriers against Austria, Hungary and one another just as has been done between Lithuania and Poland.

We do not envy the League of Nations its job of unscrambling the difficulties between the latter countries. The small nations of Europe, each fiercely conscious of its newly-won sovereignty, are difficult to handle. If the League can settle the controversy, honor to it. If it fails, the blame will not lie in the League, but with the gentlemen at the Peace Conference, who made a crazy quilt of Europe in 1919.

The MIRROR *of* PUBLIC OPINION

This column is designed to reproduce without bias the latest comment by the leading publicists, newspapers and periodicals on the questions of the day.

THE HICK TOWN ANSWERS.

From the Hastings (Neb.) Daily Tribune.

THERE are many would-be highbrow writers who constantly attempt to high-hat persons who live in small towns.

These caustic writers are constantly referring to "small town stuff," or saying something about the "hick town."

Of course, they think it quite clever.

Let us see, just what is a hick town?

Any town, or small city, for that matter, is a hick town where the people get together and work together for the good of mankind and the benefit of their friends and business associates in general.

It is a town where everybody has the community spirit, and is free from greed, avarice and selfishness.

Yes, it is a town where nearly everybody owns an automobile that is paid for, and takes pride in earning an honest dollar.

It is a town that is one of the very first to respond to the call of the nation when Uncle Sam blows the bugle.

It is a place where neighbors know their neighbors, recognize them, speak to them, and are neighborly.

A hick town is a community that has a living soul, and quickly responds and offers a helping hand to those in distress.

It is a community that is not made up of get-rich-quick sharpers, gold-brick dealers, bunco men, stick-up bandits, safe blowers and crooks of all kinds.

A hick town is a community that comprises and encourages law-abiding citizenry.

In a hick town one soon comes to realize just what real friendship is, and what it means to mankind. Here the people become bound together by the bands of friendship that are more valuable than all the gold in the world. Here deeds of kindness knit and cement friendship that no power on earth can undo—once a true friend, always a bosom friend.

Here it is realized that cheap friendship that can be purchased by the gilded dollar, or the power of station in society, is rotten to the core.

Good friends beget good friends, and true friendship is the greatest thing on earth—next to motherly love.

When looking for a hick town, go where the Golden Rule is demonstrated by precept and example.

THE LADIES ARE RIGHT.

From the Baltimore Evening Sun.

THE Democratic women of Philadelphia (it is interesting to learn that there are some) have adopted resolutions disapproving use of the figure of the donkey to represent the Democratic party. This animal, they assert, does not represent the virtues of the democracy.

Now that we come to think of it, perhaps they do not. What are the virtues of the donkey? Well, in the first place, he is extremely sure-footed. He can travel along the edge of a precipice without falling over. He can pick his way through a tangle of quagmires without stepping in. You can't fool the donkey by spreading a fair, smooth surface over a pit. You never fail to fool the Democratic party that way.

Furthermore, the donkey has a mind of his own. Nobody can drive him where he doesn't want to go, and not everybody can lead him. His conversation is somewhat monotonous, but it is loud and clear. When he speaks nobody fails to hear. You can't make him drink water when he doesn't want to. You can't make him eat excelsior by telling him it is the finest hay. Finally, he doesn't pretend to be anything but a donkey; he is fundamentally honest.

Comparing these qualities with those exhibited by the Democratic party in the last few years, we are inclined to believe that the Philadelphia women are right. The donkey is not a proper symbol for the Democracy. It is a reflection on the donkey to say it is.

THE CROOK'S DEADLINE.

From the Washington Post.

NEW YORK has put into effect its annual Christmas crook deadline. Within an area of four blocks wide and over fifty blocks long, extra details of police and detectives have been assigned with instructions to arrest on sight any criminal or suspicious character who may be found. Formerly the Christmas season was a gala time for petty criminals. Large crowds assembled in the retail purchasing area fell easy prey to pickpockets. Large stocks of goods carelessly displayed enabled many a shoplifter to reap a rich reward with little effort. The police could not be everywhere, and they could make arrest only if they were sure that a theft had been committed. Five years ago, however, all this was changed. The same shopping crowds are to be found and goods are still displayed carelessly; but shady characters have learned to give the shopping area a wide berth. The Christmas deadline idea has spread, until now it is put into effect in many other communities. It makes the criminal's Christmas a little less pleasant than formerly, it is true; but every self-respecting crook ought to get out and earn his Christmas offerings, anyway.

CLASSIFYING "MANNERS."

From the London Graphic.

THE difference between good and bad manners is as deep as the difference between sympathy and curiosity; so deep, indeed, that it would be fairer to grade manners—like eggs—into three classes, viz.: Class A, good manners; Class B, fitful manners; Class C, bad manners. The first and third classes are equally unaffected by time and tide, the class midway being subject to certain fluctuations due to digestion and other dull but purely individual cases. The truth is that good manners are natural and individual, neither the product of any particular process or period, and just as common now as they ever were.

ALPHABETS.

From the Johnstown (Pa.) Democrat.

DR. VIZETELLY has invented a 45-letter alphabet. Nonsense. If we had our way we would discard half of the letters we have now and do our spelling with the rest. If people felt at liberty to spell as they pleased, more folk would write. Standardized spelling has been a curb upon individual ingenuity and initiative. Many a person who, although unable to spell, still has the nerve to write, has written mighty entertaining stuff. Down with Dr. Vizetelly's increased alphabet! Give us one with about 14 letters. And then permit a little local option in the way we handle them.

Lady Wild Cats.

CALAMITY JANE AND THE LADY WILD CATS. By Duncan Aikman. (Henry Holt & Co.)

IT has been several years since we definitely entered the twilight of gods and heroes, and we have become accustomed to thinking of various celebrated figures of the past as being only mansize after all, and pretty well furnished with our own familiar shortcomings. No doubt this makes the generality of us feel much more comfortable in a world so conspicuously dedicated to the uses of mediocrity and worse. We find that we can do well enough, for example, with a Washington who wasn't quite the beatified sheep that his conventional portraits and credulous biographers have made him appear. And, after all, a few qualities readily recognizable as masculine—even though deplorably so—are scarcely out of place in the picture. of a man with such a job on his hands as Washington had.

Calamity Jane Performing One of Her Heroic Deeds

We are partly reconciled to the desirability of whittling down our more utilitarian heroes to less embarassing proportions; but after reading Duncan Aikman's learned work here listed, a good many people are likely to feel that the debunking industry is going too far, and that there ought to be a constitutional amendment against the wanton destruction of rich, ripe, juicy legends such as that of Calamity Jane, since they are only luxuries anyhow. Furthermore, some of us, registering indignation, arise to ask in crisp tones if it is chivalrous, if it is manly to rob a lady of her reputation when she lies helpless in her grave.

Dr. Aikman himself is forced to grant the "macabre splendor," the "undertones of violence and defiance, of gunplay and delirium tremens, of prairie thunder, mountain whisky, hell, high water and sudden death" in the very name of Calamity Jane. But before he is through with this fine old Western legend, there is little left save a barroom odor and a pair of old trousers that would have made a better fit on almost any frontier male.

One by one the roses fall as the chill wind of the Rev. Mr. Aikman's cynical incredulity blows through his pitiless pages. Jane was a bad little girl even before she left her scandalized home town of Princeton, Mo. Her mamma was even worse, and her papa was a human zero lacking the essential rim. The little girl's finishing schools were the dance halls, saloons and gambling dens of the West when the Union Pacific was building, and she is said to have made the most of her cultural opportunities. All the naughty things with which she has been charged are, it appears, quite, quite true; all her alleged heroisms and kindly deeds are pure fabrications.

Jane did not enlist with Custer, we learn. She did not acquire her famous title, Calamity, as the result of rescuing a Captain of cavalry in a battle with the Nez Perce Indians. Her only military experience was a matter of hiding away in one of Crook's army wagons and getting kicked out promptly when discovered. Her celebrated career as an angel of mercy in frontier settlements stricken with epidemics is very thin moonshine. And so on. The moving picture ends with Calamity, a sorry old hag, drifting about a West no longer wild and woolly and more than a bit contemptuous of her.

The "other lady wildcats" of the old West here considered are, with a single exception, hardly impressive. The exception is Belle Starr—another Missouri lady, who spent her girlhood in Carthage and by dint of great efforts finally won undying fame as a horse thief down in Texas and the Territory.

THE STORY OF VASCO DA GAMA. By Sara Ware Bassett. (The Penn Publishing Co.)

A very desirable account of the great Portugese navigator's life, for boys between the ages of 10 and 15 years. The author seems to have taken great pains to be accurate, and intelligent children will be grateful to her for the straightforward way in which she tells her story.

THE STORY OF PEGGY HARRISON. By Russell Gordon Carter. (Penn Publishing Co.)

The story of a courageous young girl who made a good dream come true. A book for girls.

THE BLACK JOURNEY. By Georges-Marie Haardt and Louis Audouin-Dubreul.

Here is given the complete day-by-day record of the famous Citroen expedition which, setting out from Morocco with caterpillar tractors, penetrated the heart of Africa and covered a distance of 12,400 miles. It is a travel book of extraordinary interest. Wandering over desert and through jungle, the travelers meet in rapid succession cannibals, pigmies, sorcerers and devil-worshippers; they hunt all manner of big game, they trap ferocious animals, they are caught in tornadoes, mired down in swamps, infested with poisonous insects and reptiles and exposed to many hardships.

WOMAN WHO SANG IN 'ELIJAH' IN 1871 TO BE GUEST TONIGHT

Gounod Conducted Choral Society in London When Mrs. Matilda Kempster Took Part.

Mrs. Matilda Kempster of 808 Clarkson place, who sang in a presentation of the oratorio "Elijah" in London in 1871, will attend the opening performance of a dramatized, grand opera version of the production, under auspices of the St. Louis Pageant Drama and Choral Association, at the Coliseum tonight. She is 83 years old. When she participated in the London production, which was with the famols composer, Gounod, as conductor, it was as a member of the Royal Albert Hall Choral Society. Among other special guests tonight will be a group of residents of the Blind Girls' Home.

The second and concluding performance will be tomorrow night. Large choruses, recruited from St. Louis organizations, will provide antiphonal singing, with music by the Symphony Orchestra, led by Frederick Fischer. A group of professional singers have the leading roles, while those of secondary character have been assigned to talented St. Louisans. There will be ballet and other groups. Mayor Miller has issued a statement expressing the hope that "the music and opera-loving public of our city will be able to witness this spectacular production."

A dress rehearsal was held at the Coliseum last night, with about 1000 persons present, including cast and the large force of stage directors and workers.

Maclyn Arbuckle Slightly Better.

By the Associated Press.

WADDINGTON, N. Y., Nov. 29.—Maclyn Arbuckle, actor, formerly of St. Louis, who is ill at his home, last night rallied from a coma into which he fell several days ago and his physician believed him a "trifle improved." The veteran actor suffered a nervous breakdown two years ago while on the Pacific Coast. A heart lesion, developing after the breakdown, is responsible for his present serious illness, his physician said.

Women Democrats Adopt Slogan.

By the Associated Press.

WASHINGTON, Nov. 29.—"Eight Years of Wall Street—Give Main Street a Chance," was chosen by the Woman's National Democratic Club as its slogan for the 1928 presidential campaign. The slogan, suggested by Mrs. Wilbur W. Hubbard of Chestertown, Md., was favored over "Tariff Relief Means Farm Relief," and "By Their Loots Ye Shall Know Them," offered by F. Martin of Newberry, S. C., and Jessie M. O'Neill of Springfield, Mass., respectively.

TOKIO PALACE GIVEN MANY IMPROVEMENTS

Japanese Rulers to Occupy Structure for First Time Next Spring.

By the Associated Press.

TOKIO, Nov. 29.—Like many other people in the world, the Emperor and Empress of Japan will have a "moving day" next spring. They will move some time in April from the Akasaka detached palace to the imperial palace, where all rulers, according to iron-bound regulation, must reside.

The present Emperor and his young wife are the first Japanese sovereigns to live entirely in the modern Western style. They dress, eat and sleep according to the modes of the West, and the Akasaka palace, built exclusively for Hirohito when he was the Regent, resembles the great modern palaces of Europe.

Modern Improvements.

The old imperial palace, thoroughly Japanese in architecture and fittings, is, therefore, being remodeled and refurnished to conform to the tastes of the new Emperor.

The late Emperor Taisho, who died last December, observed the Japanese customs and styles except at official functions. The newly remodeled palace will have every modern comfort familiar to foreign nations.

One of the startling innovations will be a nine-hole golf course which is to be constructed in the imperial palace grounds.

His Majesty is an ardent follower of Colonel Bogey and already has four golf courses at his other detached palaces.

Private Golf Course.

While the imperial palace, like the Akasaka palace, is in the heart of Tokio, its grounds are so spacious that there is abundant room for a nine-hole course of more than the customary 3000-yard length.

Although a golfer, the Emperor does not neglect his biological studies, to which he is greatly attached. A laboratory for his exclusive use is to be built at the palace. His present laboratory at the Akasaka palace will be preserved by the Government as an imperial relic.

Special quarters in the palace are being fitted out for the Empress and her two infant daughters. This will be the first time that an Emperor of Japan has kept his children in the same palace which he occupied, instead of placing them in the care of others at some adjacent palace.

Dinner for Army Officers.

A dinner and conference of Regular Army, National Guard and Reserve Medical Officers, as well as former officers of the Army Medical Corps, will be held at Mission Inn, Grand boulevard and Magnolia avenue, tomorrow night, beginning at 7 o'clock. Col. George A. Skinner, surgeon of the Seventh Corps Area, with headquarters at Omaha, Neb., will be the principal speaker.

New York Day by Day

By O. O. McIntyre

NEW YORK, Nov. 29.

FOR several seasons now Broadway has been indulging a sly jest about a motion picture actress who deserted her studio to achieve stardom in musical comedy. She had married a very rich man who was equally anxious for her.

Broadway, in its gossipy way, had the notion her success on the screen—which was in no way spectacular—was due, largely, to the influence and backing of her husband. A thousand and one quips were fashioned behind their backs

It was admitted the lady had beauty and some charm—but few thought she had stage ability. At almost every first night they were in first-row seats, where she studied the stage and its people. Her leisure time was spent studying elocution and voice culture.

About a year ago she was scheduled for stardom in a play especially written for her and which was to open in a new theater. There were reams of publicity, a few subtle digs here and there and Broadway waited for the long-expected event.

At the last moment something happened. Another was substituted in the star role—and Broadway chuckled. As a recall, it was hinted the movie star was not considered adequate for the role and after long rehearsals another replaced her.

All this accentuated the jesting. A few months ago it was announced the lady would make another attempt at stardom. Wise and cynical Broadway went with tongue in its cheek. Actresses at liberty took their fans to titter behind.

The star swept forth in the most gorgeous stage settings the Rialto has seen in many a day. And the audience sat taut—waiting for her to crack on a high note. Instead, the lady achieved a complete personal triumph. And the critics went away to rave. While her musical comedy was not an outstanding hit, she won an individual triumph that permanently establishes her. The lady's name is Hope Hampton.

BEN BERNIE took his orchestra to a movie opening as personal tribute to the star. They stood in the foyer and played rousing tunes while the star arrived and motion-picture cameras clicked. In the morning Bernie awakened at his usualy hour to find it dark. Shortly afterward two of his bandmen telephoned in hysterical alarm they were blind. An investigation proved all had been scorched by the Kleig lights and for several days they appeared wearing dark glasses.

NEW YORK'S newest building wonder is to span Park avenue with traffic flowing through the arches. This innovation may extend to other streets, it is whispered, thereby blocking off more sunshine for millions who do not get enough of it as it is.

THERE is a magazine writer who invariably romps in with his stories at the past possible moment. He explained the other evening they were always finished ahead of time, but, in keeping the editor in a state of anxiety, it resulted in the editor being more interested in the arrival of the story than the story itself. Tricks to all trades.

THE smart night of the week in New York cafes, theaters and supper clubs is on Tuesday. Saturday night is turned over to the so-called hoi polloi. And having made their weekly splurge, they await the next Saturday splash.

WHEN Mayor Walker enters a public place, the orchestra, to his annoyance, usually strikes up his song, "Will You Love Me in December, etc." And the song, incidentally, due to its revival, is again paying slight royalties.

ONE of those brisk types of go-getters called this morning. You felt instinctively he was the sort who came out of bed with a bound to touch his hands to the floor 20 times. He was drumming up interest for a new school of exercising at your desk and was so enthusiastic I hadn't the heart to tell him my only exercise was the annual Halloween apple bobbing with the grandchildren.

GEORGE F. BERGFELD LEFT $25,000 TRUST FUND TO SON

Residue of Estate Goes to Widow; $1000 Bequests for Church and Masonic Lodges.

Bequests of $1000 to Kingshighway Presbyterian Church and of $500 each to the Masonic Home of Missouri and Tuscan Masonic Lodge, are made in the will of George F. Bergfeld, real estate dealer, which was filed today.

The will, which was made in June, 1923, leaves a trust fund of $25,000 in custody of Mrs. Ella Bergfeld, for the benefit of the son, Lucas Lee Bergfeld, with the provision that $10,000 be paid to him when he is 35 years old and the balance at 40. The son, who is president of the Bergfeld realty firm, has passed the age of 35 since the will was made.

After setting aside the $2000 of special bequests and the $25,000 trust fund, the residue of the estate is left to Mrs. Bergfeld, who is named as executrix. The value of the estate is not indicated.

Postmaster Michener to Speak.

A. J. Michener, postmaster, will speak on the operations of the postoffice at a meeting of the Tower Grove Heights Improvement Association, Friday night at Dickman Hall, 3125 South Grand boulevard. Circuit Judges Rutledge and Rosskopf also are scheduled to speak.

Will Durant to Lecture.

Will Durant, philosopher and lecturer, will discuss the question, "Is Democracy a Failure" Sunday night in the auditorium of the Y. M. H. A. Building, 724 North Union boulevard. Loud speakers in the lobby and lounge room will enable those who cannot be accommodated in the auditorium to hear the talk.

TELLS OF PLEAS FOR CHURCH UNITY AT WORLD CONFERENCE

Sectarian Differences Made One Communion at Lausanne Impossible, Pastor Says.

Appeals for church unity, made to the recent world conference on Faith and Order at Lausanne, Switzerland, were outlined by the Rev. Dr. Charles C. Selecman, president of Southern Methodist University of Dallas, Tex., in his talk before the Ministerial Alliance yesterday at Pilgrim Congregational Church.

He said the most impressive occurrence of the conference was the plea of foreign mission workers, led by a Bishop from India, for a unified message of the church to the Eastern nations. On the other hand, he said, there were many who regarded church divisions as inevitable, and resulting from "different gifts of the spirit and different understandings of the truth." He told how, because of the traditions of certain bodies represented, it was impossible to hold a communion service for all the delegates.

Blackmer Heads Algonquin Club.

P. R. Blackmer was elected president of the Algonquin Golf Club yesterday at a meeting of the board of directors. Other officers named were: Collins Thompson, vice president; Frank D. HUGE CROSS PLACED ON SPIRE OF ST. ALPHONSUS' CHURCH

Weighs One Ton and Cost $2000; Replaces Iron One Damaged In Storm.

A bronze cross, weighing a ton, was hoisted to the spire of St. Alphonsus Catholic Church, Grand boulevard and Finney avenue, today to replace an iron cross which was partially blown from its base during a wind storm May 25. It is 215 feet from the church floor to the tip of the spire.

The cross, which is covered with gold leaf, is 22 feet high and 8 feet across the arms. It was cast in a Cincinnati foundry and put in place by employes of the Rohan Boiler Works.

The cross cost $2000. The work of removing the old cross and putting the new one in place, brought the cost to $5000.

PLEA FOR GOVERNOR OF INDIANA SUBMITTED

Judge to Pass on Motion to Quash Bribery Indictment Friday.

By the Associated Press.

INDIANAPOLIS, Ind., Nov. 29.—Whether Gov. Ed Jackson, George V. Coffin, Marion County Republican chairman, and Robert I. Marsh, former attorney for the Ku Klux Klan, shall stand trial on a charge of attempted bribery will be determined here Friday afternoon, Dec. 2.

Special Judge Oscar H. Montgomery set that date for announcing his decision, following arguments in criminal court yesterday on a motion to quash the indictment against the men. They are charged with attempting to bribe Warren T. McCray, when he was Governor in 1923, to name James E. McDonald as Marion County prosecutor.

Mention of D. C. Stephenson, now a life convict in State prison, and of the Ku Klux Klan enlivened the session. Shephenson was alleged to have entered into the conspiracy with the three men.

Plea of Governor's Lawyer.

Louis B. Ewbank, attorney for Gov. Jackson, contended that the indictment should be quashed under the statute of limitations. Pointing out that an alleged offer of $10,000 was made McCray in 1923, he held that the men, to be legally tried, should have been brought into court within two years of that time.

Contending that Jackson, Coffin and Marsh concealed their alleged crime until July 15, 1927, Prosecutor Remy argued that the statute of limitations no longer applied.

Remy pictured McCray at the time of the alleged approcah as being in dire straits—under indictment in the County courts, penniless and fearful of the influence of the Ku Klux Klan and the three defendants in the event he told of the attempted bribery.

Says McCray Was Quieted.

"They told him they had the power, backed by 200,000 members of the Ku Klux Klan, to keep him from being convicted in the County courts and when he declined to name McDonald they kept him quiet through fear of other use of that same influence," Remy asserted. Even after being convicted in United States District Court, fear of their influence in keeping him from getting a parole kept McCray quiet, Remy added.

Attorney Ewbank derided Remy's statements that McCray feared Jackson, Coffin or Marsh. "Assuming that mention of the Ku Klux Klan carries a chill to the blood, it does not appear it carried anything outside the State courts," Ewbank said. "McCray was convicted in the Federal court. He could have told of the alleged approach at that time. But now it comes four years later."

McCray, who was released from Federal prison several months ago after serving one-third of a 10-year sentence for using the mails to defraud, is named on the indictment as a state witness. None of the defendants appeared in court.

WALTKE SOAP CO. TO BE DISSOLVED TOMORROW

Stockholders Will Meet to Close Up Affairs of Firm Sold to Procter & Gamble.

Stockholders of William Waltke & Co., St. Louis soap firm which has been purchased by Procter & Gamble Co. for $8,000,000, will meet at the Waltke factory at Second street and East Grand avenue tomorrow for the dissolution of the company.

The Waltke family, headed by Louis H. Waltke, son of the firm's founder, owned 70 per cent of the stock, and already has voted the dissolution of the concern. It is chartered under West Virginia law, which provides that a company may be dissolved by consent of 60 per cent of the stockholders. Missouri law requires the approval of 75 per cent.

Many of the Waltke minority stockholders, who bought their holdings at $40 a share two years ago when 30,000 shares were put on the market, are to get $70 for them under the purchase agreement. In addition, they have received about $13 a share in dividends since they bought the stock.

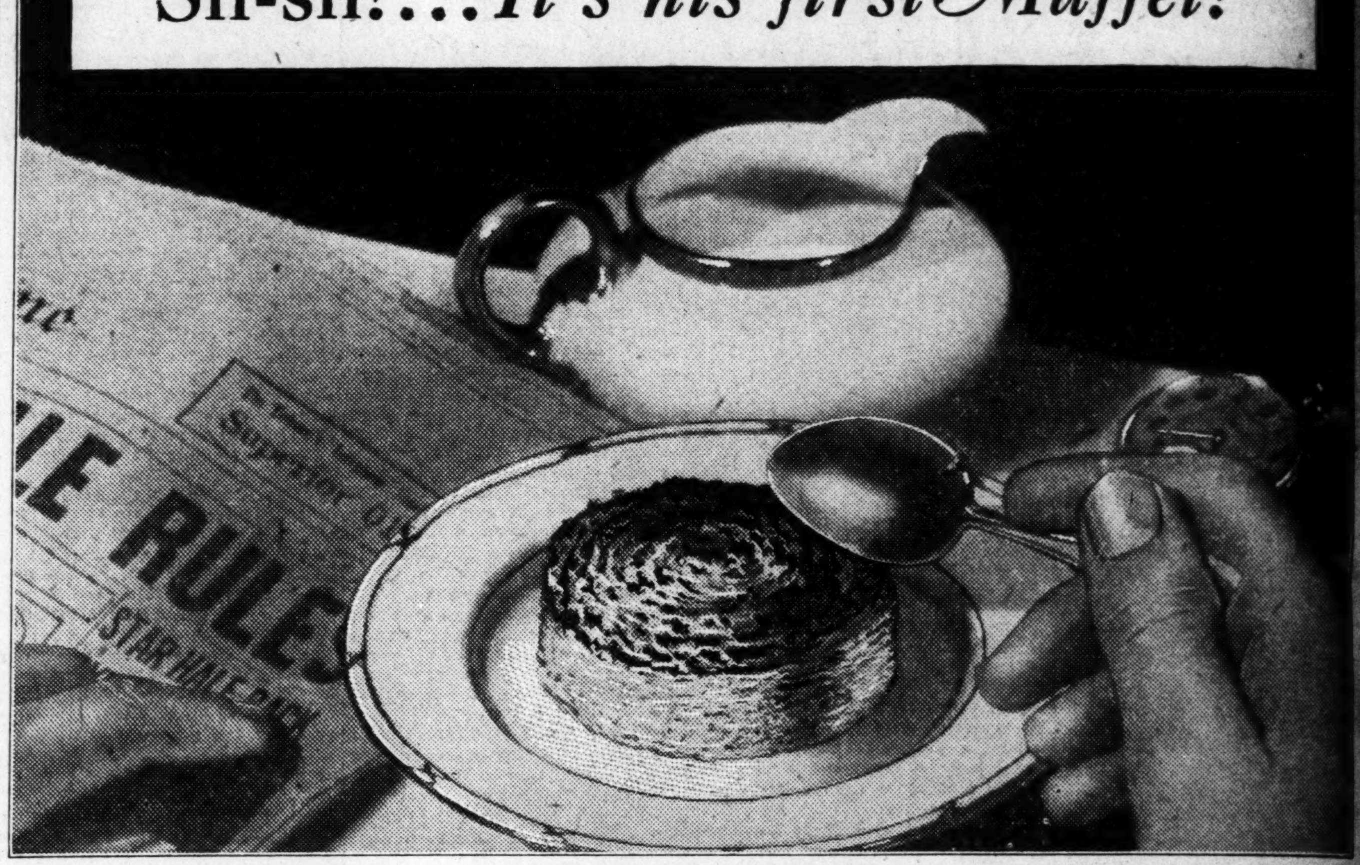
Some of the minority have protested against the sale, saying that the stock is being sold for less than its actual value, although they concede that the deal brings a handsome profit to most of the holders. Stockholders who choose not to sell their stock have the alternative of taking two shares of Procter & Gamble preferred in exchange for three shares of Waltke common. In such a trade they will be allowed $72 instead of $70 for their Waltke holdings.

LINDBERGH TROPHY EXHIBIT TO STAY OPEN TEMPORARILY

Watchman at Jefferson Memorial to Be Kept On Duty, Averting Threatened Closing.

Threatened closing of the exhibition of medals and other souvenirs of the Paris flight of Col. Charles A. Lindbergh, at the Missouri Historical Society, in the Jefferson Memorial, Forest Park, has been averted temporarily by the act of Park Commissioner Pape. The Commissioner, who had announced it would be impossible for his department to continue providing the necessary service of a private watchman at the display after tomorrow, has told the society he would keep the watchman on duty for a time longer.

Sh-sh!... *It's his first Muffet!*



Note how casually he takes it. He doesn't know yet that in another minute he'll forget his newspaper—to say nothing of the 7:49—while he enjoys his *second* Muffet!

But he will know with the first spoonful. He'll be pleasantly aware that he's being introduced to the first really new breakfast dish in years!

Whole wheat, cooked, drawn to a ribbon of fine-spun wheaten threads, wound, layer upon layer to muffin size and shape. Baked. Toasted butternut brown. Light as a crumpet, crisp as potato chips. Crunchy! All whole wheat's health qualities, too—vitamins, calories, bran. Easy digestibility.

Serve Muffets with cream and sugar. Or add fruit. Stage this little surprise in *your* home tomorrow.

DRINK WATER IF BACK OR KIDNEYS HURT

Begin Taking Salts if You Feel Backachy or Have Bladder Weakness

Too much rich food forms acids which excite and overwork the kidneys in their effort to filter it from the system. Flush the kidneys occasionally to relieve them like you relieve the bowels, removing acids, waste and poison, else you may feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, the stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, the channels often get irritated, obliging one to get up two or three times during the night.

To help neutralize these irritating acids and flush off the body's urinous waste, begin drinking water. Also get about four ounces of Jad Salts from any pharmacy, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine and bladder disorders disappear.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive and makes a delightful effervescent lithia-water drink which millions of men and women take now and then to help prevent serious kidney and bladder disorders.

Skinny Women Don't Stand a Chance!

Gain pounds of weight with New YEAST and IRON

Pleasant to take—Quick results—or pay nothing

You don't want to be underweight, nervous and always tired—an object of pity to your friends. Start IRONIZED YEAST now and put pounds of good flesh on those bony arms, hollow cheeks and scraggy limbs. See ugly lines give way to graceful curves. Feel a new vitality and healthy strength that you haven't known for years.

How Yeast Builds Weight

IRONIZED YEAST is two tonics in one—weight-building Yeast and strengthening Iron. The yeast is the same used in making malt, and which makes malt so beneficial.

This yeast is treated with iron taken from fresh vegetables—spinach, lettuce and celery. In this form Iron is easily assimilated by the body, making rich, red blood and toning up nerves and muscles.

Only when *Yeast* is *Ironized* in this way is it most effective—for Iron is needed to bring out the weight-building values of Yeast. *By this formula IRONIZED YEAST gives you results in half the time required by yeast and iron taken separately.*

IRONIZED YEAST brings pounds of weight in astonishingly quick time. Letters say: "10 pounds gained in 3 weeks," "one full treatment added 7 pounds," "11 pounds and better health." The blood is toned up, too, because the iron adds strength and richness to the blood, clearing up the complexion and increasing your vitality. IRONIZED YEAST comes only in pleasant-tasting tablets—60 to a bottle. Safe for everybody. Does not upset the stomach nor cause gas or bloating.

First treatment gives results—or no money

Ask the druggist now for a full course treatment. It will prove that you can gain many pounds, or your money will be refunded. If inconvenient to buy at the drug store, send $2.00 to the IRONIZED YEAST CO., Atlanta.

CHINESE FINDS ORIGIN OF DISEASE U. S. FEARED

Work of St. Louis U. Graduate Leads to Modification of Alien Law.

A romantic story of modern medicine, involving snails and a disease, was unfolded yesterday before professors at St. Louis University by Dr. Frederick Lam of Honolulu, young Chinese physician who was graduated from the St. Louis University Medical School in 1920.

The work of Dr. Lam, or of Lam Wing Kwai, as he is known to his Chinese patients in Hawaii, has brought about the new classification of a disease by the United States Public Health Service. Dr. Lam came to America in September, armed with his observations concerning clonorchiasis, or liver worms, a disease the Government has listed as "dangerous, contagious and deportable." When he left Washington a month later the Government had classed the disease as "noncontagious and nondeportable."

Clonorchiasis was listed as a dangerous disease in 1917 with the passage of the medical inspections act for aliens. Persons who had it were barred from the United States and territories. The disease is prevalent in China and Japan and persons who had it could not embark for Hawaii. If a case was found in the islands, the person was deported. This regulation, according to Dr. Lam, worked hardships on thousands of Japanese and Chinese.

From Snail to Man Through Fish.

Dr. Lam learned that the liver disease is inseparably bound up with the life of melania libertina, a fresh water snail found in China and Japan. He traced the life cycle of the fluke, a flat parasitic little worm, from its growth in the snail, to its temporary residence inside a fish, to its lodging place in man. The widespread consumption of raw fish of the carp family in China and Japan, he found, accounted for the prevalence there of the disease.

But search high and low on the Hawaiian Island failed to locate the melania libertina there. Cousins, near and remote, of this snail dwelt in Hawaii. But the cousins were not interested in the liver fluke, and could not help the fluke to propagate. As a result, Dr. Lam was prepared to defend the Hawaiian Islands as a locale where clonorchiasis could not happen, and where a person who had brought the disease from elsewhere was likely to recover. He read his findings to the Medical Society of the Islands and it indorsed them. Then the Honolulu Chamber of Commerce sent him to the United States to submit his observations to H. S. Cummings, Surgeon-General of the United States Public Health Service.

Not Found In U. S. Either.

Meanwhile Dr. N. E. Wayson, working in San Francisco, had found that America, like Hawaii, was a soil where the melania libertina did not dwell, and therefore free of clonorchiasis unless imported. Dr. Lam presented a full report at Washington, which concluded: "I would say that clonorchiassis is found in Hawaii but only among Orientals who have come from Japan and China and that the disease is not as severe as that found in Southern China and Japan, probably due to the fact that there is no chance of reinfection."

"No reports have ever been made of the infestation of people born in the territory, who have remained here. Likewise there is no record by the Board of Health of any death due to clonorchiasis in the territory. The result of these studies shows conclusively there is little danger of the spread of this disease, because of the absence of the particular snail necessary for its life cycle. Moreover, the presence of people so infected is not a public danger to Hawaii due to the absence of melania libertina."

The report, after being reviewed by several departments, was indorsed unanimously. Next day an official order changed the regulation.

Hawaii Immune From Disease.

"It will be appreciated in Hawaii," Dr. Lam said. "Many persons left Hawaii to visit in China or Japan and contracted the disease. They couldn't come back. In some cases mothers were separated from their children, husbands from their wives. And equally important is the true classification of the disease. We know now that it isn't dangerous in Hawaii and that native Hawaiians, in their own islands, are safe from infectation."

Dr. Lam was entertained by members of the faculty of the medical school of the university. With Mrs. Lam he will depart for San Francisco tonight, where he will sail for Hawaii. He is 33 years old. He received his preparatory schooling in Hawaii, went to Creighton University two years and later to St. Louis University.

Dr. Lam has two brothers, both college graduates—one an engineer from Missouri University, the other a physician graduated from Michigan University. Dr. Lam's father was one of the early Chinese settlers in Hawaii. He is a merchant there.

HELD FOR STUDENT'S DEATH

SPRINGFIELD, Mo., Nov. 29.—Millard Robinett, 20-year-old youth, is under arrest here on a charge of second degree murder in connection with the death of Noble Hughes, 18-year-old high school student at Ash Grove, who died as a result of drinking poisoned tomato wine. Robinett is said by officers to have admitted he sold the wine to Hughes. He was arrested late yesterday.

Why Use Greasy, Smelly Ointments?

"Painpatch Works Marvels"

Writes 79-year-old man

You don't have to smell like a drug counter to relieve pain. It is no longer necessary to use oils, greases and ointments that soil your linen and evaporate quickly. Big, sticky plasters are cumbersome and out-of-date. Bandages are clumsy and insecure. The new, neat way to relieve pain externally is

PAINPATCH

"Dear Sirs:
Tried a sample of your wonderful remedy that was given to me and want to send my regards for the people who put out this Painpatch. It works marvels. I am 79 years old and have aches every day but thru your medicine a great deal of my pain is alleviated.

Yours very truly,
[Signed] L. K. [name on request]

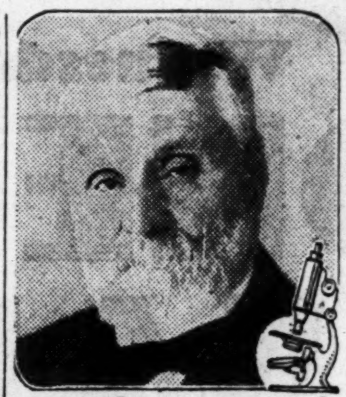
Millions of Families Depend on Dr. Caldwell's Prescription

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as they are today. People lived normal, quiet lives, ate plain, wholesome food, and got plenty of fresh air and sunshine. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings to put into their system. So he wrote a prescription for a laxative to be used by his patients.

The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe, gentle bowel stimulant as Syrup Pepsin.

Under successful management this prescription has proven its worth and is now the largest selling liquid laxative in the world. The fact that millions of bottles are used a year proves that it has won the confidence of people who needed it to get relief from headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds and fevers.

Millions of families are now never without Dr. Caldwell's Syrup Pepsin, and if you will once start using it you will also always have a bottle handy for emergencies.



W. B. Caldwell MD
AT AGE 83

It is particularly pleasing to know that the most of it is bought by mothers for themselves and the children, though Syrup Pepsin is just as valuable for elderly people. All drug stores have the generous bottles.

We would be glad to have you prove at our expense how much Dr. Caldwell's Syrup Pepsin can mean to you and yours. Just write "Syrup Pepsin," Monticello, Illinois, and we will send you prepaid a FREE SAMPLE BOTTLE.

MERCHANT ROBBED OF $1185 IN AUTO ON WAY TO BANK

Nathan Comensky Confronted by Armed Man Hidden in Car in Front of His Grocery.

Nathan Comensky, proprietor of a wholesale grocery at 1306 O'Fallon street, got in his automobile in front of the store at 5 p. m. yesterday and started to drive to the Cass Avenue Bank to deposit $1185. An armed man, hidden in the car, disclosed himself, pressed a revolver against Comensky's ribs and compelled him to drive to an alley near Fifteenth street and Cass avenue.

A second man was waiting in the alley. The two robbed Comensky of the money and walked away. The money represented receipts of Saturday and yesterday. Comensky lives at 31 Lewis place.

At 2:45 a. m. today three men in an automobile drove to the Standard Automobile Co., 4432 Olive street, purchased a headlight bulb and then robbed the manager, Lawrence Ruth, of $15.

Harold Garrett, manager of a Standard Oil station at Hamilton and Cates avenues was robbed of $20 by two men at 10 p. m., and John Cahill, manager of a Standard Oil station at 3436 Union boulevard was robbed of $35 by one man at 10:15 p. m.

Pickpockets yesterday robbed Mrs. Anna Baer, Murphysboro, Ill., of a purse containing a diamond ring which she valued at $1000, and other articles and Mrs. John Turner, Parsons, Kan., of a purse containing $25, a railroad ticket and other articles.

Two Students on Probation.

By the Associated Press.

ANN ARBOR, Mich., Nov. 29.—Howard C. Kresge of Detroit and James Lewis of Toledo, University of Michigan students, who were detained by customs officials at Detroit recently when 11 bottles of whisky and champagne were found in their car, were placed on probation yesterday by the University of Michigan Disciplinary Commission. Kresge is the son of Sebastian S. Kresge, Anti-Saloon League philanthropist and five and 10 cent store magnate. Young Kresge and Lewis are thus removed from all campus activities other than those pertaining to their studies.

SUNDAY SCHOOL INSTITUTE

"Spirituality and Worship" Topic of Tonight's Address.

The Rev. J. J. Runyan, associate pastor of the Second Baptist Church, will speak on "Spirituality and Worship" tonight at the third session of the Sunday School institute, which opened Sunday in Third Baptist Church, under auspices of the St. Louis Baptist Association.

The institute, which features a lecture hour each night, is designed to foster the growth of Sunday schools. It will continue each night through the week and conclude Sunday afternoon with an address by the Rev. F. D. Stone, pastor of the Compton Heights Baptist Church.

LINCOLN

INNATE BEAUTY IN LINCOLN DESIGN
-expressed by Coachwork on the Lincoln Chassis

Every Lincoln body is a distinctive creation of some outstanding master of coach craftsmanship—Brunn, Judkins, Dietrich, LeBaron, Locke, Holbrook, Willoughby, Derham.

From the fleet lines of the modern sport car to the stately formality of the Brougham or Cabriolet, these Lincoln body types express the genius of the master designer. The long Lincoln chassis with unusual body space made possible by the 60 degree V type engine gives full scope to the custom body builder to develop beautifully long and symmetrical lines and at the same time provides the utmost in room and comfort.

Unusual and varied color combinations are in perfect harmony with a luxury and detailed refinement of appointments. The rich upholstery work—in broadcloth, mohair, cord or finest leather—rivals that of the choicest period furniture.

The beauty of these designs is a tribute to the Lincoln body policy. There are no yearly or periodic Lincoln models. Instead, every Lincoln embodies an innate refinement of line and proportion which is beyond the influence of time. Lincoln value remains intrinsic, it is not subject to artificial depreciation resulting from drastic "style" changes.

Lincoln Cars will be Exhibited at the Salons of the 1927-1928 Season

10 YACHTS ENTERED IN ATLANTIC RACE

Queen Victoria of Spain to Give Cup for Winning Boat Under 55 Feet.

Special to the Post-Dispatch.

WASHINGTON, Nov. 29.—Plans for the transoceanic yacht race from Sandy Hook to Santander, Spain, on which Senor Mariano de Amoedo, counsellor of the Spanish Embassy in Washington, has been working for learly a year, went forward yesterday when a cable was dispatched by the race committee to Queen Victoria of Spain, accepting Her Majesty's offer of a cup for the yacht in the class under 55 feet in length which first sails into the Spanish port. The cup for vessels over 55 feet will be presented in person by King Alfonso.

According to tentative plans the entries so far, about 10 in number in the major class, including the famous schooner Atlantic of Gerald Lambert of St. Louis will sail from Sandy Hook about July 7 or 8 next year and proceed across the ocean entirely by sail, engines and propellers being sealed, to Santander, where they will be received with elaborate ceremony by King Alfonso and the Spanish court. After the cups have been presented there will be two short races down the Spanish coast, the first from Santander to Bilboa, and the second from Bilbao to San Sebastian, Spain's sumer capital.

Elaborate receptions also have been planned at both cities, that at San Sebastian to take the form of a Basque festival in honor of the visiting American yachtsmen. There is also a tentative plan for a return race across the Atlantic following closely the route of Columbus.

Among the entries for the race are many noted yachts. The Atlantic holds the transoceanic sailing record of 12 days and four hours from Sandy Hook to the Lizard. Other entries include the Cresida, now being built in Germany for Herman Oelrichs; Vagrant, belonging to Harold Vanderbilt; Arthur Curtis James' Bar Aloha; Speejacks, of Albert Y. Gowen; Zodiac, belonging to Robert W. and John S. Johnson, and the three-master Dauntless of H. Wilmer Hannan. There probably also will be a Spanish entry.

NEW ALLOY STRONGER THAN IRON, LIGHTER THAN ALUMINUM

Dr. Max Wurmbach, Munich Professor, Brings Invention to United States.

By the Associated Press.

NEW YORK, Nov. 29.—A new alloy, said to be three times as strong as iron and as light as aluminum, was brought to this country by its inventor, Dr. Max Wurmbach, professor of metallurgy at the University of Munich.

The alloy, "neonaleum," Dr. Wurmbach said, is the most important discovery of its kind since the invention of duralumin in 1907. A piano made of neonaleum, he said, would be so light that it could be picked up and carried by one man.

Its superiority over duralumin, now widely used in airplane construction, he said, is that it can be melted and molded without loss of tensile strength. Dr. Wurmbach is president of the Neonaleum Company of Zurich, Switzerland, organized to manufacture the product.

Raquel Meller's Husband Dies.

By the Associated Press.

PARIS, Nov. 29.—Gomez Carillo, husband of the noted singer Raquel Meller, died this morning after an operation. He was Argentine delegate to the League of Nations Institute for intellectual co-operation and recently was promoted to commander of the Legion of Honor for activities during the war. He was 53 years old and was a writer.

FOREIGN HEAVIES WIN AND LOSE IN BOUTS WITH AMERICAN BOXER

SCOTT "KAYOES" MUNN; HUMBECK LOSES TO DEKUH

British Battler, Recently Stopped by Hanson, Finishes Nebraskan in Final Round of Battle.

By the Associated Press.

NEW YORK, Nov. 29.—The invasions of two foreign heavyweights, both seeking to battle on to a match with champion Gene Tunney, rested at opposite turns in the fistic road today.

Coming back after a crushing one-round knockout at the hands of Knute Hanson, Minnesota Dane, Phil Scott, British heavyweight champion, knocked out Monte Munn, Giant Nebraskan, eight seconds before the close of their 10-round bout last night. Scott lashed the big Westerner with solid right hand smashes to the head from the start, but could not floor him until the match was nearly over.

Then one clean drive to the chin toppled Munn to the canvas. He struggled to his feet a fraction of a second after the count was completed. In only the seventh round did Munn's aggressiveness give him an edge in the fighting. Scott weighed 195, Munn 219.

Belgian Heavy Loses.

Fistic fortune was not so kind to Jack Humbeck in the Belgian champion's American debut against Arthur de Kuh, Italian heavyweight. The husky invader smashed De Kuh frequently with heavy left hooks to the head but lost the decision in ten rounds when De Kuh nailed him consistently with solid right smashes. Both were in trouble on several occasions, but each rallied without suffering a knockdown. Humbeck scaled 202½ pounds, De Kuh 206½.

Old-timers grouped around the ringside at the Scott-Munn battle, had an opportunity to compare the fighting prowess of Morgan Gardner, husky 175 pounder, with that of his father, George Gardner, who ruled as the first light heavyweight champion almost 20 years ago.

Although the younger Gardner was occupied but 2 minutes and 20 seconds in knocking out Johnny Casanova, local heavyweight, he impressed the fans with his ability. A left to the body and right to the chin finished Casanova.

ILLINOIS CAGE SQUAD BEGINS SCRIMMAGE FOR PLACES TODAY

By the Associated Press.

URBANA, Ill., Nov. 29.—Spurred by the chance of a 4200-mile trip to Seattle during the Christmas holidays, the University of Illinois basketball squad began scrimmage today for places on the team that will play the dedication games in the new $600,000 University of Washington field house, Dec. 27, 29 and 30.

The party will leave Dec. 23, stopping for practice at St. Louis, Kansas City, Denver and Salt Lake City, returning Jan. 4.

Two nonconference games, Dec. 10 and 17, will help to sort out the traveling squad, the first Big Ten game being at Urbana Jan. 7, against Purdue.

PITCHER LOST 9 GAMES BY ONE RUN IN 1927

CHICAGO, Nov. 29.—Bud Shaney, Asheville (S. C.) pitcher, lost nine games during the 1927 season by a margin of one run, it has been discovered in the official league records just released. Shaney is therefore believed entitled to hard-luck honors for the 1927 season.

Leader in Angle League and Closest Rival

Allen Hall, a St. Louis boy, has a record of five successive victories in the American three-cushion league, an Eastern organization, while Willie Hoppe (inset), former balkline king, has a 4—1 mark. Hoppe's lone defeat came at the hands of Hall, who soon will play Reiselt for the world title.

Hoppe Defeats Layton, 50-41, In Cue League

Former Balkline Star Goes Out in 52 Innings — De Oro Scores First Win.

Special to the Post-Dispatch.

NEW YORK, Nov. 29.—Willie Hoppe was entrenched in second place in the American three-cushion billiard tournament today by virtue of his 50 to 41 victory over Johnny Layton, who is in last place. Hoppe, playing his usual steady game, made the high run of six and won in 52 innings.

Augie Kieckhefer gained undisputed possession of third place by registering a sensational 50 to 34 victory over Clarence Jackson.

In the only other match of the day Alfred de Oro won his first victory of the tournament by defeating Harry Wakefield, 50 to 48.

Collins Will Be Mack's Assistant

Second Sacker Can Remain With Athletics as Long as He Wants, Says Leader.

By the Associated Press.

PHILADELPHIA, Nov. 29.—Eddie Collins is a "fixture" with the Philadelphia Americans and may remain with the Athletics as long as he wishes to continue in baseball, Manager Connie Mack stated last night in announcing that he and Collins had reached an agreement for a 1928 contract.

Mack said Collins would sign the contract within a few days. He declined to reveal any of its provisions.

"Eddie will be a sort of lieutenant for me, helping in the coaching of players and acting as general assistant," he said.

Collins, former manager of the Chicago White Sox, was one of the "big three" signed by the Athletics prior to last season. Ty Cobb and Zack Wheat have been released.

HUDKINS WILL MEET AUERBACH IN BOUT AT LOS ANGELES TONIGHT

By the Associated Press.

LOS ANGELES, Nov. 29. — Ace Hudkins' first fistic joust in several months tonight will pit the Nebraska welterweight against Herman Auerbach of Salt Lake City, in a 10-round bout.

Hudkins' last local appearance was against Sammy Baker of New York, in which bout he reversed the beating he took from the Army battler in the East a few weeks before. The Nebraskan was scheduled to meet Joe Dundee in a welterweight championship battle here several weeks ago, but it turned out to be a "fiasco," with Dundee failing to show up because of the failure of the promoter to pay him a claimed guarantee.

Uhlan Defeats Langford.

CHICAGO, Nov. 29.—Red Uhlan, San Francisco southpaw middleweight, won the judges' decision over Walcott Langford of Chicago at the end of eight rounds last night.

The Badger broke running, racing Booze Beyer into defeat, drew out in the stretch to win nicely in hand. Polygamia under weak handling, closed ground gamely and might have won, with better handling. Booze Beyer plenty of speed, but weakened in last sixteenth. Medley well up all the way. Thistle Gold met mishaps.

DUTCH MASTERS TAKE 6TH PLACE IN MIDDLE WEST

Kansas City Five Gets Total of 2847 — Des Moines Pair Goes to Fifth Position in Doubles.

By the Associated Press.

ST. JOSEPH, Mo., Nov. 29.—The Dutch Masters five of Kansas City rolled into sixth place in the Midwest Bowling Association tournament last night with a total score of 2847. Of the 14 Kansas City quintets to roll, only two other aggregations broke over the 2700 mark. They were Toggery Taylor with 2704 and Constable Hurd, 2770.

The Dutch Masters started out with a score of 991 and then dropped to 955. The team dropped still lower for its third game and rolled a score of 901. They were unable to pick up spares consistently in the last game.

P. Buchan of the Constable Hurd team shot the high 30-game of the evening with a score of 638. He started poorly, getting only 179, but boosted his score to 226 in the second strip and then shot 233 in the third game.

E. Markel of the Dutch Masters crew was good for another score over 600, shooting 622. W. Sullivan of the Crindel-Lembke Cubs, with 602, was the only other bowler of the evening to break 600.

The F. Daniels and J. Rader doubles combination from Des Moines rolled into fifth place in the two-man division with a total of 1197.

Des Moines bowlers were the only ones who scored high enough to place in the money.

Billy Evans, After 20 Years As Umpire, Is Selected as General Manager of Indian

Will Confer With Owner Bradley and Pair Will Name N Leader for Cleveland Club—Former Arbiter Also Will Act as Vice-President.

By the Associated Press.

CLEVELAND, O., Nov. 29.—Selection of Billy Evans, Ame can League umpire, as general manager of the Cleveland club, was announced last night by President Alva Bradley. In capacity Evans will be executive head of the club, handling of the duties that were looked after last year by former Presid E. S. Barnard.

When Barnard became head of the American League and the tribe was sold to a Cleveland syndicate headed by Bradley, the latter decided to revise the executive management.

A new manager will be employed, as Jack McCallister, who piloted the team last year, has been given his unconditional release. The manager will continue to direct the team, but Evans, through his experience of 20 years as an arbiter in the American League, will be equipped to advise the pilot on the field as well as to handle executive duties.

The new general manager will direct the activities of the scouts and with the co-operation of the manager will put through deals for players.

Chased Out of Niles.

Bradley said that he and Evans will confer without delay on the matter of selecting a manager. The president said he purposely withheld any negotiations in order to obtain Evans' advice.

William George Evans, whom the baseball world knows as "Billy" Evans, virtually was chased by a mob out of Niles, O., 20 years ago into a berth as an American League umpire. He had rendered an unpopular decision in a game between Youngstown and and was in danger of falling the hands of an angry crowd Charles Crowe, Niles manager sneaked him away.

Jim McAleer, manager of the St. Louis Browns, was at that game doing some scouting. He was impressed with Evans' ability as umpire and recommended him to B. B. Johnson for appointment an arbiter on the American League.

Before he became an um Evans was a sports writer for Youngstown Vindicator.

In addition to being gen manager, Evans will hold the of vice president of the club.

CUBS GET C

"SPARKY" ADAMS AND SCOTT GO TO PITTSBURG CLUB

Deal Expected to Strengthen Corsairs at Second Base and Bruins in the Outfield.

By the Associated Press.

PITTSBURG, Pa., Nov. 29.—A strengthening of the Pittsburg Pirate infield and added power to the Chicago Cubs' outfield seemed to have been evolved with the trading of Hazen Cuyler, outfielder and recent Pirate "storm center" for Earl "Sparky" Adams and Floyd Scott. The trade disposes of the 1927 Pirate controversy in which Cuyler and Manager Donie Bush were at odds.

Cuyler will go to Chicago recognized as one of the fastest players in the National League and a good batter, although during the past season he occupied the bench the greater part of the time following difficulties with the Pirate management.

Adams is expected to fill a Pirate need at second base, making George Grantham available at first. Scott, an outfielder, is a valuable man at bat. The trade did not involve money, Sam Watters, secretary of the Pittsburg club, said. The "Cuyler controversy" was the 1927 discord that has seemed almost an annual happening in the Pirate camp. It followed the 1926 difficulties involving Max Carey, Carson Bigbee and Babe Adams, all of whom later were disposed of.

On Bench in World Series.

Cuyler was benched while Pittsburg fought many of its crucial battles of the recent season and remained there throughout the world series. Early in the season he sought a change from the second position in the batting order, declaring he was unable to hit as he had in previous seasons.

A fine of $50 was imposed soon after his protest on the batting position because he failed to slide to a base, and Cuyler protested, declaring he made the logical play in that failure. Following the fine, Cuyler went to the bench.

Cuyler came to Pittsburg from Bay City, Mich., in 1921 but was sent back for further seasoning the following year. He returned to the Pirates in 1923 and became a regular the next year. He batted .354 in 1924, .357 in 1925 and .321 in 1926. The past season he compiled a batting average of a few points over .300 and led his club in stolen bases although he appeared in only a few games. He is one of the fastest men in the league and during his service with the Pirates consistently ranked with the leaders in stolen bases.

Will Strengthen Bruins.

the Associated Press.

CHICAGO, Nov. 29.—Pennant hopes of the Chicago Cubs, which aimed high and then sputtered last fall, were given fresh fuel today with the announcement that Hazen (Kiki) Cuyler of the Pittsburg Pirates had been acquired in exchange for Sparky Adams and Pete Scott.

Adams is one of the best second basemen in the majors but the Cubs still have Clyde Beck and Fred Maguire for the keystone job. Maguire is the youngster purchased last fall from Toledo.

The Cubs now have three hard hitting right handers and three more batting from the wrong side of the plate to use in the outfield. Cuyler, Hack Wilson and Riggs Stephenson probably will compose the regular trio. Webb, Heathcote and Kelly, all left-hand hitters, are the reserves, all six of them better than .300 hitters.

No money was involved in the Cuyler trade, which recalls the famous Cub-Pirate swap of a few years ago, when three star players on each side were swapped, Rabbit Maranville coming to the Cubs and Vic Aldridge going to the Pirates.

The Cubs, having landed Cuyler, now are in the market for a third baseman. Eddie Pick of Kansas City, coming to the Cubs in midseason, fielded well but hit weakly, and the Cub officials will try to dig up a competitor for him before training camp time comes.

INTERNATIONAL LEAGUE RATIFIES TRANSFER OF JERSEY CITY CLUB

NEW YORK, Nov. 29.—Ratification of the transfer of the Jersey City Baseball Club to Montreal and the naming of opening and closing dates for the 1928 schedule formed the principal business of the annual meeting of the International League here yesterday, President John Conway Toole announced. The 1928 campaign will open on April 18 and close Sept. 23.

President Toole will represent the league at a joint meeting of minor baseball organizations at Dallas, Tex., beginning Dec. 3. An increase of $1000 in salary was voted for William J. Manley, secretary of the league for the past 15 years.

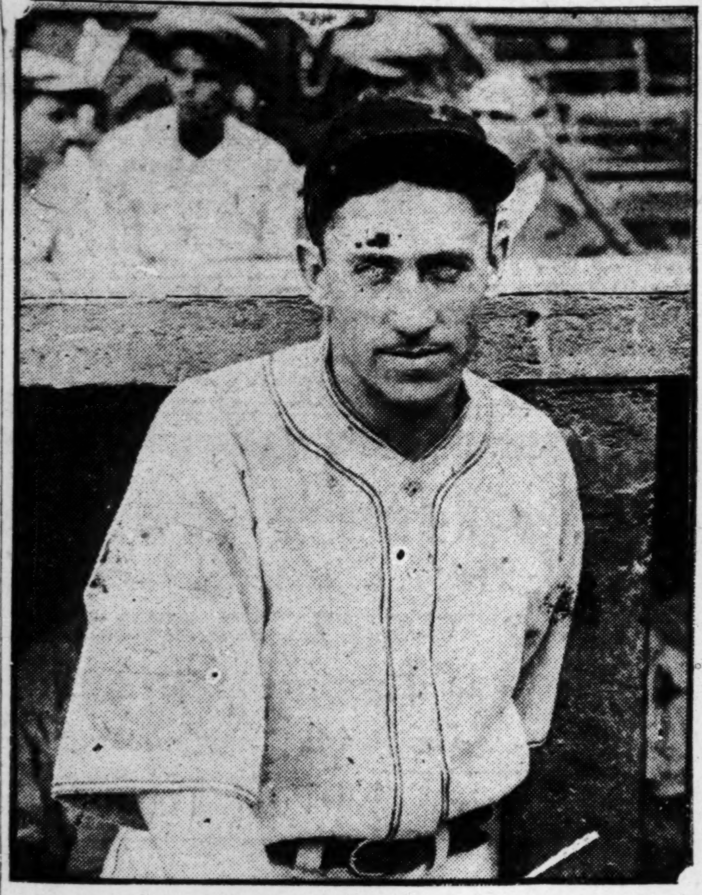
Will Be With Cubs Next Year



HAZEN CUYLER.

EXTRA INNINGS by J. Roy Stockton

Big-Hearted League.

HAND it to the American League as the big-hearted organization. The circuit has the greatest boxoffice attraction that baseball has ever known in Babe Ruth and now the attraction is even a better one because of the rivalry between the Bambino and Lou Gehrig. Throughout the season the Yankees are the best drawing card in baseball.

Several of the American League clubs finished deep in the red ink during the 1927 season and would welcome any stray dollars that might be coaxed into the strong box. **But in the spring training season the National League clubs will fatten off the boxoffice drawing powers of Ruth and Gehrig, but not the other American League clubs. The Browns for instance, thus far have booked games with the Dodgers and the Phillies.**

It would seem to be good league business to permit and even encourage spring exhibition games between American League clubs and several of the poorer clubs, including the Browns, hoped that the league would change the rule this year. But when the board of directors was asked to rescind the ban on intra-league exhibition games the request was ignored.

Last year the Cardinals profited in a series with the Yankees and this year the National League clubs again will see Ruth draw money into their treasury, thanks to the bigness of heart of the rival circuit.

Gerber to Remain.

BUSINESS MANAGER BILL FRIEL of the Browns announced last night that Walter Gerber, veteran shortstop, had earned the right to hang around with the St. Louis Americans for a few years, unless some big league club made an offer that could not be turned down.

"I wish there were more players like Gerber," Friel said. "Never a bit of trouble over contract or anything else. Never a holdout, never late, never out of condition. Of course, we don't expect him to play short regularly, but he will be valuable as a reserve and he certainly has earned the right to stay as long as he wants. Of course, if a big league club should need him and make an attractive offer we would let him go. But we won't cut him adrift."

It is pleasant to note that sentiment still shows itself occasionally in the cold-blooded business of baseball.

Howley Likes O'Rourke.

FRANK O'ROURKE is another Brownie who will tarry, but not because of long service. Daniel Philip Howley wants Frank for a regular job in the infield. Dan said yesterday that O'Rourke was one Brownie who would not be traded.

O'Rourke played third last year and was perhaps as good as any third baseman in the league and better than most of them. However, if Howley could find a good third sacker he would switch O'Rourke to second, where he would be more at home, because of a throwing arm that is not too strong. O'Rourke made such a hit with Miller Huggins that the Yankee manager approached Howley on the subject of a trade.

Billy Mullen, whose injured knee kept him out of action all last season, has undergone an operation similar to the one performed on Ray Blades, and hopes to be a strong candidate for the third base job. He phoned Howley yesterday and said he was hopeful. However, only time will tell whether Mullen will be fit. It took Blades a full season to gain the proper confidence in his repaired prop. If Mullen could return, the Browns would be fairly well fixed in the infield, with Sturdy at first, O'Rourke at second, Kress at short and Mullen at third. That wouldn't make the Yankees lose any sleep, perhaps, but it would be an interesting inner line of defense and one that would hustle. It would have no past to make it complacent.

New Thrill for Sam.

SAM BREADON, who fired Rogers Hornsby and Bob O'Farrell, but who never fired a gun in his life, is going to have a new thrill Thursday and Friday. The Cardinal president has agreed to go quail, duck and goose hunting with Branch Rickey, who recently returned from an expedition that netted a wagon full of birds.

Rickey offered to wager that after Breadon had enjoyed the thrill of shooting over a good dog and of seeing a mallard flop near a blind, the Cardinal owner would go out and buy himself a gun, a brace of dogs and all the accoutrements of the hunt.

Branch has been so persistent in his efforts to get Sam into the field that persons who know him are convinced that he must have a few dogs and a couple of guns for sale.

382,700 FANS WATCHED VALLEY FOOTBALL GAMES

Conference Experienced Record Year — Washington U., With 71,500, Doubled Last Years' Mark

By the Associated Press.

KANSAS CITY, Mo., Nov. 29.—Growing interest in football in the Missouri Valley is attested in the total attendance figures for the season just ended, which show a big gain over any previous year.

A total of 382,700 fans witnessed home games at the 10 Missouri Valley Conference schools, an approximate increase of 75,000 in attendance over last year. Athletic departments shared receipts of important non-conference games away from home, thus making the season one of the most profitable in history.

Nebraska Has Largest Total.

Nebraska, with the Valley's largest stadium, drew the largest single and total gate. The total home attendance there was 82,785, with upwards of 31,000 people in the stands for the New York University game on Thanksgiving day.

The Missouri-Kansas game at Lawrence was the second largest gate of the year, with nearly 23,000 people in attendance.

Washington U. Doubles Record.

Washington University doubled last year's crowds, principally because of the inter-city game with St. Louis U. on Thanksgiving day. Total attendance there was 71,500.

The figures of the other schools: Kansas, 55,856; Missouri, 48,500; Oklahoma, 41,321; Drake, 25,897; Kansas Aggies, 21,000; Iowa State, 18,852; Oklahoma Aggies, 12,000; Grinnell, 5000.

Nebraska officials estimated the Cornhuskers played before a total of 123,256 people, including the games away from home, and the total receipts were $180,000, compared with $150,000 in 1926. Expenses were placed at $100,000.

Receipts Approach $1,000,000.

Total receipts for home games at the valley schools will approach $1,000,000, it was estimated. Profit above the estimated $500,000 expenses of the seaosn will go to pay for stadiums, and pay the expenses of less profitable branches of sports.

Bad weather was not as much a factor in holding down crowds this year as in the past. But one or two bad Saturdays were experienced.

Radio reports, conflicts with other important games, and the small number of home games were held responsible by M. F. Ahearn, athletic director of the Kansas State Agricultural College, for the small attendance which fell below last year.

Will Double Old Marks.

This year's total attendance figures will double those of three or four years ago, in the opinion of several important valley directors. Increased interest, larger stadiums and better roads are the reasons.

When Fights Were Fights! The Famous Kid Lavigne's Memoirs of a Savage Ring

"What's wrong with the lightweights of today?" demands Kid Lavigne, great champion of an earlier time.

Pretty soft for them—short bouts, big purses, velvet living!

But in the Kid's day, when he was lightweight champion of the world, held by many to be the greatest fighter his division ever produced—

How different then!

Fights that went 70 and 80 rounds, fights that lasted all night, fights that ripped on till one man sank bloody, shredded, beaten.

Kid Lavigne tells of these savage fights, and tells vividly of his own historic battles—his two victories over Joe Walcott, his triumph over Dick Burge, the British champion, in London, and many more.

Fifteen thrilling stories for fight fans. They begin Dec. 4 in the Post-Dispatch and will be published each Sunday.

3 NEBRASKA PLAYERS INVITED TO COMPETE IN EAST-WEST GAME

By the Associated Press.

LINCOLN, Neb., Nov. 29.—Three University of Nebraska football players, Ray Randels, tackle; Glenn Presnell and Blue Howell, halfbacks, have been invited to compete as members of the Eastern eleven that contests with an all-star Western team in the annual East-West game to be played at San Francisco, Dec. 26.

JOIE RAY CHARGED WITH NON-SUPPORT

By the Associated Press.

CHICAGO, Nov. 29.—The once unbeatable track star, Joie Ray of the I. A. C., ran into more domestic difficulties when he was arraigned in court yesterday on charges of not supporting his family. Mrs. Ray, who caused his arrest for nonsupport, took advantage of his appearance in court to serve him with summons in a divorce suit she has started against him.

Joie was extradited from Gary, Ind., where he was working in a steel mill.

Kelly Kayoes Mays.

KANSAS CITY, Mo., Nov. 29.—Spider Kelly of Kansas City knocked out "Lefty Louis" Mays of Des Moines in the second round here last night. Kelly weighed 147½; Mays 154½.

Bechtel and Stezik to Meet Thursday Night

Light Heavyweights to Appear On South Broadway Amateur Card.

The third special bout on the South Broadway Athletic Club amateur boxing card Thursday night has been arranged between Orville Bechtel of Jefferson Barracks and George Stezik of the South Broadway club in a light heavyweight fight.

Other feature bouts will bring together Reggie Wood of the Motorbus A. C. and Al Meyer of the South Broadway in a lightweight event, while Dick Costello will represent the South Broadway club against Ray Lang, Western A. A. U. junior flyweight champion.

Twenty-three contestants have enrolled for pairings in the open events which will be run off as preliminaries.

FIVE MEMBERS OF STAGG'S SQUAD GET THIRD GRID LETTERS

By the Associated Press.

CHICAGO, Nov. 29.—Five of the 20 University of Chicago football players who were given major "C's" yesterday by A. A. Stagg, athletic director, were receiving their third emblem for making the varsity while 10 of them were earning their first letter. Of the 20, Coach Stagg will lose half by graduation next spring. The five three-letter men were Kyle Anderson, Capt. Ken Rouse, John McDonough, Robert Wolff and Paul Lewis, three linemen and two backs.

EAST ST. LOUIS TEAM TO BE GIVEN BANQUET

The undefeated East St. Louis High School football team, champions of the Southwestern Illinois Conference, will be guests tonight of the East St. Louis Lions Club at the Broadview Hotel. James M. Gould, well-known football official, will be the chief speaker.

WASHINGTON TO OPEN BASKET BALL SEASON WITH CONCORDIA FIVE

QUINTETS WILL PLAY PRACTICE GAME DEC. 10

Many New Men Are Trying for Positions With Coach White's Team—Football Players to Report.

By Charles Eichenbaum.

The Washington University basketball team will open its season against Concordia Seminary at the Bear field house, Dec. 10, Donald S. White, coach, announced yesterday afternoon. The Concordia contest is the only preliminary to the Missouri Valley Conference schedule which opens here Dec. 16 against Nebraska.

Eighteen Valley games, two with each of the other nine institutions, the Concordia contest, and two meetings with St. Louis U., one New Year's Eve at the Billiken gymnasium and one Feb. 22 at the Washington Field House, comprise the Washington schedule. No other game are likely to be scheduled.

In spite of green material, White hopes for a faster and better quintet than the one which performed last year. During the 1926-27 season, the Bear cage men had a habit of losing most of their important games by one or two-point margins.

Lohrding Forward Prospect.

Thies Lohrding is the first of the football men to return to White's corps. Lohrding, while not in condition for floor work, is the outstanding prospect at forward for the season. Wientge and Smith are the working combination at these positions at present with Stanford, Tompkins, Adams, and Dean competing with them.

Three centers, Meyer, Mann, and Webber are on the squad. Meyer appears likely to get the first call to action but his lack of height may cause White to look further for pivot men. McCarroll, football captain, is expected to report later in the season. McCarroll's style of play was not adaptable to that employed by the Bears last season. He is a tall, easy-moving player. White's objective of high speed is apparently his stumbling block.

Captain Lorraine Eckert stands out among the guard candidates. The Webster boy is looping the baskets in practice this season and gives indications of possible contention for scoring honors among Valley guards this season. Seiber, Christenson, Ruehman, and Duncan are other candidates for the guard positions.

Kurz to Return to Team.

Ralph Kurz, back guard last year, has not yet reported but is expected next week. Kurz, like Lohrding, has just completed strenuous gridiron activities. Harnett, the Washington backfield ace during the football season, may also turn out for competition with Kurz for guard position. Harnett was a basketball star at Cleveland high school.

White will depart with A. E. Eilers tomorrow night for Kansas City, where they will attend the annual fall rules interpretations meeting. William Chandler of Iowa State, member of the National Rules Committee, will be in charge. Eilers will hurry back to act as secretary of the Missouri Valley Conference of athletic directors when they meet Friday and Saturday at the Hotel Coronado.

Faculty representatives of the 10 institutions will meet Saturday. The meeting is significant in that it is the last conference of the old Missouri Valley Conference. Dr. Bill Edmunds, athletic director, and Dean W. E. McCourt, faculty representative, are the Washington representatives.

STAR NAVY HALF BACK IN HOSPITAL AS RESULT OF INJURIES IN GAME

By the Associated Press.

ANNAPOLIS, Md., Nov. 29.—Shag Ransford, crack Naval Academy back, was confined in the Naval Hospital here last night suffering from a chipped shoulder bone and leg injuries which he received in the game with Army last Saturday.

Outside of Ransford, the Navy squad finished the season in good shape. Clifton, a star of the service game, had his nose cut, but suffered no major injuries. Lloyd, Hannegan, Bauer, Miller, Clifton and Smith, are all expected to report for basket ball practice tomorrow.

Burke, the most likely candidate for captain of the 1928 grid team will report for boxing shortly, as will Giese and Sloane. Woerner, the big guard who played a star game against West Point, is a varsity wrestler and has reported for light practice. Other members of the Navy team will report for gymnasium, swimming, fencing or water polo within the week.

Millikin Elects Captain.

DECATUR, Ill., Nov. 29.—Seaton Van Dyne of Newman was elected captain of the 1928 Millikin football team last night at the annual banquet sponsored by the Chamber of Commerce. Van Dyne has played end for three years on the Millikin team, and was prominently mentioned for all-conference wingman this fall.

HORNSBY AND RUTH NAMED ON ALL-STAR TEAM

Selections Made From Picks of 168 Members of the Baseball Writers' Association.

With 168 members of the Baseball Writers' Association of America voting, the 1927 all-star major league team, an annual feature in The Sporting News, national baseball newspaper published in this city, which appears in this week's issue, is probably one of the most interesting mythical aggregations ever decided upon. Certain it is, that no team was ever selected with so many participating in the voting.

One of the most interesting contests for a position on the team was that for second base. Rogers Hornsby of the New York Giants nosed out Frankie Frisch of the Cardinals, for whom he was traded a year ago, by a close margin. Lou Gehrig of the Yankees, and Pie Traynor of the Pirates, along with Babe Ruth, were standouts. Ruth gained the majority of votes for both right and left fields, but was placed in the latter position, giving Paul Waner the right field honors.

Here is the team.

Left field—George Herman Ruth, Yankees.
Center field—Al Harry Simmons, Athletics.
Right field—Paul G. Waner, Pirates.
Third base—Harold Traynor, Pirates.
Shortstop — Travis Jackson, Giants.
Second base—Rogers Hornsby, Giants.
First base—Henry Louis Gehrig, Yankees.
Catcher—Charles Leo Hartnett, Cubs.
Pitcher—Herbert J. Pennock, Yankees.
Pitcher—Charles Root, Cubs.
Pitcher—Theodore A. Lyons, White Sox.

Havana Team Defeated.

HAVANA, Nov. 29.—Howard College beat Havana University 20-6 in a snappy football game here yesterday. Havana scored in the last five minutes of play when a forward pass was carried 25 yards through the Howard interference.

MICHIGAN AND HARVARD PLAN 2-GAME SERIES

Home and Home Football Contests Practically Agreed Upon, Says Report — Crimson Will Again Ignore Princeton.

By the Associated Press.

NEW YORK, Nov. 29.—Harvard and Michigan will play a two-game home and home football series in 1929 and 1930, the New York World says today. Correspondence between the athletic directors of the two universities has all but sealed a contract which is expected to be signed soon, the paper asserts.

Efforts to arrange a Harvard-Michigan series in answer to demands from Mid-Western graduates of Harvard were begun in the fall of 1926 by William J. Bingham, director of athletics at Harvard, but were abandoned when it became apparent that Princeton would have to be dropped from the Crimson schedule for a year in order to enable Harvard to abide by a faculty restriction limiting the team to but one game away from home a year.

Harvard's suggestion that Princeton step aside for a year, followed by the announcement that only the Yale game was regarded as a fixture on the Crimson schedule, was a big factor in the Harvard-Princeton athletic break, despite the emphasis placed on the Princeton game number of the Harvard Lampoon, Crimson funny paper.

MOORE DEFEATS MOODY FOR ENGLISH MIDDLE TITLE BEFORE PRINCE

By the Associated Press.

LONDON, Nov. 29.—Ted Moore of England defeated Frank Moody of Wales on points last night in a 20-round bout for the British middleweight championship. The bout was staged at the National Sporting Club and the Prince of Wales was a spectator.

The Prince showed no signs of his hunting mishap earlier in the day. He received a tremendous ovation from the crowd, composed largely of Welshmen, who were delighted when Moody rose and sang the Welsh anthem on the arrival of the Prince.

CHESS CHAMPION IS EXPECTED TO CONCEDE DEFEAT

Capablancas' Position Considered Hopeless by Experts in Title Game — Match Started Sept. 16.

By the Associated Press.

BUENOS AIRES, Nov. 29.—Alexander Alekhine, 35-year-old Russian, was virtually chess champion of the world today.

Jose R. Capablanca, the Cuban master, who has held the title since 1921, announced after the eighty-first move in the thirty-fourth game with Alekhine that he would likely resign when the game is resumed tonight.

In the present series the winning of six games is necessary to gain the championship. Alekhine has won five, Capablanca three, and 25 have been drawn.

In the case he is proclaimed champion, Alekhine announced that Capablanca would have the first chance to contend for the title again in any city in the world under conditions similar to those governing the present match. Alekhine said he considered his victory assured.

He added that he would not be ready to defend his title until at least 1929. The contest would be for $10,000 with expenses, the winner of six games in an unlimited series to take the title.

The present match began Sept. 16 under similar conditions. Capablanca had not defended the title since he won it from Dr. Emanuel Lasker in Havana, six years ago. After he won the title, he was challenged by Akiba K. Rubinstein, Polish champion, and Alekhine. These two met in 1923 and the Russian won the opportunity of contesting with Capablanca for the championship.

GIANTS WILL TRAIN AT AUGUSTA, GA., NEXT SPRING, M'GRAW SAYS

By the Associated Press.

NEW YORK, Nov. 29.—The New York National League Baseball Club will train at Augusta, Ga., next spring, Manager John McGraw announced yesterday. This decision was reached after the city council of Augusta voted to install a training field, club houses and showers. For the past four years, the Giants have pitched their camp at Sarasota, Fla.

The Giants players will report at Augusta March 1 but the batterymen will work out at Hot Springs, Ark., starting Feb. 15.

The Toronto Internationals also have selected Augusta for their 1928 training ground.

GEORGIA REFUSES TO PLAY CENTENARY IN POST-SEASON GAME

By the Associated Press.

SHREVEPORT, La., Nov. 29.—Announcement that Georgia University, undefeated member of the Southern Conference, had declined to accept a challenge to play a post-season game with Centenary College, one of the claimants to the Southern Intercollegiate Athletic Association football championship, was made today by Coach Norton of Centenary.

SCHEDULE COMMITTEE MEETS TOMORROW

By the Associated Press.

CHICAGO, Nov. 29.—Schedules for the 1928 major league baseball campaigns will be drafted at a meeting starting in Pittsburg tomorrow.

After the schedule committees have finished the drafts, the tentative charts will be submitted for adoption at the joint meeting of the National and American leagues in New York next month. With the schedules adopted the necessity of holding the usual spring meetings will be avoided.

The schedule committee is composed of E. S. Barnard, president of the American League; John A. Heydler, National League president; William Harridge, secretary of the American League, and Barney Dreyfuss, owner of the Pittsburg club.

HOCKEY PLAYER IS SUSPENDED AND FINED $100 FOR MISCONDUCT

By the Associated Press.

MONTREAL, Quebec, Nov. 29.—"Duke" Keats, member of the Detroit Cougars in the National Professional Hockey League, was suspended indefinitely and fined $100 last night by Frank Calder, president of the circuit, for "misconduct" in a game at Chicago Saturday.

Calder announced his ruling following upon receipt of the referee's report of the game. After being ruled off the ice for rough play, Keats became incensed at remarks made by a spectator, and in attempting to strike him with his hocked stick, narrowly missed hitting Mrs. Frederick McLaughlin, formerly Irene Castle, wife of the owner of the Chicago team.

Harmon Scores Kayo.

By the Associated Press.

PITTSBURG, Pa., Nov. 29.—Willie Harmon, veteran New York welterweight, stopped Young Sailor of Charleroi in the sixth round of a 10-round bout here last night. Harmon hammered Sailor into helplessness in the first five rounds and the Charleroi boy's handlers tossed in the towel in the sixth round.

Hawaiian Player Kicks 55 Yards In His Bare Feet

PORTLAND, Ore., Nov. 29.

LAST winter Knute Rockne came back from Hawaii with stories of native kickers getting off 50-yard boots with their bare feet and of crowds that called a player "yellow" when he donned a regulation padded football outfit.

Now Oregon State College has a freshman, Henry Hughes, to bear out Notre Dame's famous coach. Hughes, a Hawaiian boy, dropkicks 55 yards in his bare feet, curling up his toes that the impact is on the ball of his foot.

Welch Will End Career in Game With Stanford

Captain of Pittsburg Eleven Gained 1213 Yards During Regular Season.

By the Associated Press.

PITTSBURG, Nov. 29.—One of the outstanding gridiron performers of 1927 will find a fitting climax for his football career when he leads the undefeated University of Pittsburg eleven into the Tournament of Roses game at Pasadena, Cal., on Jan. 2. Gilbert Welch, captain and halfback, having played three years on the Pitt varsity, will make his last appearance in collegiate football in the New Year's clash with Stanford University.

"Gibby" Welch this season has drawn unto himself attention that places him among the leading candidates for all-America recognition.

Fast and a good broken field runner, Welch's play has been featured by long runs. In Pitt's eight games this year, with only Washington and Jefferson gaining so much as a tie with the Panthers, Welch gained a total of 1213 yards. In several of the games he played only a few minutes. In the game with West Virginia he took a kick-off back of the goal and ran 105 yards to a touchdown. Against Nebraska he ran 97 yards for a touchdown.

Welch's yardage record in 1926 was even better. In nine games he gained 1964 yards.

Prior to entering Pitt, Welch attended Bellefonte Academy, and starred in his high school football days at Parkersburg, W. Va.

AT ALL DEALERS

2 Ever-Ready Blades *and* Ever-Ready Razor *free!*

to introduce the greatest blade in the history of edge making

THE new Ever-Ready is a vastly superior blade. If it were not, the offer we are making would be financially impossible. *No matter what razor you are using we can prove to you that the new Ever-Ready Blades represent the last word in shaving ease and luxury.*

We *challenge* any other blade to shave as well as the new Ever-Ready. To the great army of men who for years have been enjoying the Ever-Ready Razor and Ever-Ready Blades, this announcement of our *new* blade with its wonderful shaving qualities is naturally interesting.

For users of razors other than Ever-Ready—we make it doubly easy to try the new Ever-Ready Blades. It would be *unfair* to ask you to buy a razor to make this test. Just buy a package of 10 Ever-Ready Blades, no matter what razor you now use. Without cost to you, we'll supply the razor—a handsome new triple-nickeled, self-adjusting Ever-Ready Razor with two extra blades. If we do not prove our case, the test costs you nothing.

Our challenge is the boldest and most fearless to which a razor manufacturer could subject his product. At the same time, it is the easiest and fairest to the shaver, because *you don't pay if we don't prove.*

CHALLENGE OFFER

For a period of two weeks, your dealer will sell you a package of 10 of the new Ever-Ready Blades for 69c.

With it, he will *give* you the finest standard Ever-Ready Razor, and 2 additional new Ever-Ready Blades FREE. Some people hesitate to return merchandise after they have opened a package; for this reason we have added these two gratis blades so that you will not hesitate to use them first, to prove the superiority of our product.

Then, if in your opinion, we have not proven our case, return the package of 10 blades intact and get the entire purchase price back.

In towns where we have run this remarkable offer, we have converted hundreds and hundreds of men who had been using another brand of razor for years past. These men were so in the habit of buying blades to fit their old razor that it was hard to get them to try a new razor through an out-and-out purchase. Year in and year out these men had been accepting poor blades and poor shaves as a matter of habit because they "never knew that self-shaving could be any better than that which they had experienced." They accepted the Challenge Outfit and *convinced themselves.*

You, too, may think you are satisfied with your present razor and blades. You, too, may be putting up with bad shaves from force of habit because you imagine you are shaving with the best.

It is just such men as you that we hope to interest in this offer, because we know that we can prove our case 100 per cent. After all, if you don't agree with us, *we pay for the trial.*

As this *challenge* offer is for a limited period—take advantage of it at once—*now*—while you think of it. You will gain a new conception of clean, quick self-shaving.

ST. LOUIS MERCHANTS' EXCHANGE, Nov. 29.—Wheat and corn futures closed lower on the local market today, the former being influenced in part by suggestions of possibly 160,000,000 bushels Argentine exportable surplus. Export demand was slow. The world's available supply of wheat increased 5,742,000 bushels for the week, being now 284,333,000 bushels, against 244,225,000 bushels a year ago.

In the local cash grain market wheat was dull. Soft was scarce. Hard was nominally 1c lower. Corn was steady to 1c higher. Demand was fair. Oats were steady to ½c higher. Demand was fair.

Fractional declines were shown by both wheat and corn at outset of trade, further recessions being shown in immediate subsequent trading. Liverpool came ⅝d to 1⅛d lower. Winnipeg was down ⅝c to 1¼c early.

Besides the unexpected decline at Liverpool the market had bearish estimate on Argentine crop and reports of increased offerings from that country to Europe.

December hard wheat opened at $1.30¼a, May hard $1.33¾, December corn 87c and May corn 95⅝c to ¾c.

The three Northwestern markets combined had 3273 cars of wheat, compared with 2490 a week ago and 1862 a year ago, Minneapolis receiving 255 cars, Duluth 204 and Winnipeg 2814.

Clearances were 84,000 bushels of wheat, 51,000 bushels of corn, 14,000 barrels of flour and 147,000 bushels of wheat and flour.

Local wheat receipts, which were 86,800 bushels, compared with 74,200 a week ago and 56,000 a year ago, included 53 cars local and 9 cars through. Corn receipts, which were 28,000 bushels, compared with 19,600 a week ago and 22,400 a year ago, included 13 cars local and 7 through. Oats receipts, which were 22,000 bushels, compared with 24,000 a week ago and 46,000 a year ago, included 11 cars local and none through. Hay receipts were 19 cars local and 2 through.

LOWER LIVERPOOL FACTOR IN WHEAT PRICE DECLINE

By the Associated Press.

CHICAGO, Nov. 29.—Suggestions that Argentina will have as much as 160,000,000 bushels exportable surplus this season acted as a weight on wheat values today. Besides, indications pointed to large deliveries on December contracts at Liverpool and export demand today for wheat from North America was slow. Moreover, the world's available supply of wheat increased 5,742,000 bushels for the week and is now 284,333,000 bushels against 244,225,000 bushels a year ago.

Wheat closed heavy, ⅝c to 1c net lower, corn ¼c to ⅝c off, oats unchanged to ⅛c up and provisions varying from 2c decline to a rise of 25c.

Unexpected lower quotations at Liverpool brought about an early setback today in wheat values here.

At noon wheat was ⅝c to 1c net lower and corn ⅛c to ⅝c down.

The Liverpool weakness was ascribed to liberal tenders on the December delivery and to pressure of offerings from Argentina. Opening at ⅝c to 1c decline, Chicago wheat subsequently showed some further setback. Corn, oats and provisions were also easier, corn starting at ⅜c to 1c off and failing to hold rallies.

According to some advices from Buenos Aires current here today, Argentine wheat prospects are good, and the crop figures out a total of about 245,000,000 bushels. This was more bearish even than latest previous estimates and together with unlooked for declines at Liverpool gave a distinct advantage at times to sellers in the Chicago market. It was also stated that Argentine offerings to Europe had increased and were 3 pence to 6 pence cheaper.

TWO FEDERAL BUILDING BILLS FOR ST. LOUIS

One Measure by Cochran to Provide Sale of Property, Other for Appropriation.

Post-Dispatch Bureau,
20-23 Wyatt Bldg.

WASHINGTON, Nov. 29.—Representative John J. Cochran (Dem.) of St. Louis announced today, after conferring with officials of the Treasury Department's supervising architect's office, that he would introduce two bills at the coming session of Congress to clear the way for the erection of a new Federal Building in St. Louis.

One bill, Cochran said, will authorize the sale of the Central Post Office at Eighth and Olive streets, the appraisers' store building at Third and Olive streets, and the vacant site at Fourth and Chestnut streets. The proceeds to go into the miscellaneous fund of the Treasury.

The second bill will authorize an appropriation of $7,500,000 or such part thereof as the Treasury Department deems adequate for the purchase of a site and the erection of a new building.

Cochran said that he had learned that it would be inadvisable to place in the bills the proposed location for the new building. The selection of a site should be left to the building commission, he said.

"The procedure I am following is necessitated by the Budget Bureau's refusal last spring to recommend the passage of a bill providing for the sale of the property and the use of the proceeds for erection of the building," Cochran said. "The budget director said that it would require two bills—one for the sale of the present buildings and site, the proceeds to go to the Treasury, and the second for erection of the building."

CONSTIPATED SO BADLY DIDN'T KNOW WHAT TO DO

All kinds of medicine failed—then ALL-BRAN saved him!

Read this tribute from a grateful user:

"I have been using Kellogg's ALL-BRAN now for about a year and a half. I was so badly constipated that I didn't know what to do. One day I read about Kellogg's ALL-BRAN, went to the store and bought me a package. It did me good, so I am using it regularly. I had tried all kinds of medicine but they failed. Kellogg's ALL-BRAN surely saved me."

Very thankful,
C. D. POLITIS, Argo, Ill.

Constipation ravages health. Check it before its poisons soak through your system. Blotchy skin, unpleasant breath, headaches—are just a few vile symptoms.

Kellogg's ALL-BRAN will relieve constipation permanently. Two tablespoonfuls daily—in chronic cases, with every meal. Guaranteed.

Serve ALL-BRAN with milk or cream—and add fruits or honey. Ready to eat. Use in cooking. Sold and served everywhere. Made by Kellogg in Battle Creek. Recipes on package.

GRAIN AND STOCK FARM—Central Missouri; about 520 acres, 5 miles from State highway and 6 miles from good small town, shipping point; 12 miles to county seat town of 6500, with two colleges for girls, one for young men and State school for the deaf; over 200 acres of cultivating land, rolling, with some creek bottom, good for corn, wheat, oats and hay; rest in pasture and big timber. Enough cedar trees on one part of farm to pay for the place if cut for posts. Substantial small dwelling and fair improvements. Plenty of water, drilled well, cisterns, spring and ponds; also small creek. Fine place for somebody who wants to raise stock or farm on big scale without making a big investment. Land easily worth $20 to $25 per acre, but for quick sale will sacrifice for $6000, or less than $12 per acre. Can be bought for small payment down and balance on easy terms, as owner wishes to retire. Address Principal, Box D-154, Post-Dispatch. (62)

AVERAGE OF INDUSTRIALS AT NEW PEAK

Speculative Interest Centers Largely in Shares of Automobile Accessory, Steel and Other Companies Anticipating Ford Buying of Products.

STOCK MARKET AVERAGES.

	20 Indus.	20 Rails.

Year ago	144.58	122.70
High, 1927	181.86	152.95
Low, 1927	141.23	125.58

Total stock sales 2,718,200 shares.

By the Associated Press.

NEW YORK, Nov. 29.—Renewal of speculative operations for the advance, synchronizing with a lowering of call money rate from 4½ to 4 per cent, today carried the general average of industrial stock prices to a new high record for all time. Gains of one to five points were distributed over a fairly broad list, but there were a few much larger, Midland Steel Products preferred soaing 23 points to a new high record at 235.

Although several commission houses urged caution in the making of new commitments on the theory that a further correction of the market's technical position was likely, pools resumed their operations with confidence, acting on the theory that much of the $300,000,000 to be distributed in the form of interest and dividends this month would find its way into the market. The decision to make the lower corporate tax schedule applicable to 1927 earnings and the announcement of several special dividends, also were construed as bull factors.

Speculation was quite pronounced in the shares of companies likely to benefit from Henry Ford's business. Briggs Body advanced on a turnover of 80,000 shares, on reports that the company was to construct 500,000 bodies for the new Ford models; Timken Roller Bearing and Transue Williams Steel each added two more points to yesterday's sharp gains and Stewart-Warner Speedometer climbed four points to a new peak at 84½. General Motors, which was heavy yesterday, closed a point higher, at 126½, although it had sold above 127 in the early trading. Most of the other motors showed mixed fractional changes.

Some of New Highs.

Radio Corporation was again heavily bought, climbing nearly 5 points to a new high record at 98⅜, as against a low of 41⅛ earlier in the year. New peak prices also were attained by Montgomery Ward, New York Dock, Green Cananea Copper, American Bank Note, Congoleum, Atlantic, Gulf & West Indies, American Republics and a few others.

Heavy buying of Transcontinental Oil was based on reports that discussions are in progress for a merger of that company with California Petroleum. This was reported as officially denied later. U. S. Steel common closed nearly 2 points higher at 147. Chicago Pneumatic Tool, Commercial Solvents, Electric Storage Battery, National Biscuit, Pacific Coast Issues and Warren Bros. all closed 4 to 15 points higher.

Heavy buying of the St. Paul issues, based on expectations of early approval of the recapitalization plan by the Interstate Commerce Commission, was one of the features of the rail group. Union Pacific, one of the few large systems to show good October earnings as compared with the same month last year, advanced more than a point. Western Maryland advanced nearly two points, on reports that a deal of some kind was in progress, involving that road, Wabash and Pittsburg & West Virginia.

A plentiful supply of call money came into the market when the renewal rate was fixed at 4½ per cent and a shading to the 4 per cent level took place around noon. There was no change in time money and commercial paper rates.

Foreign Exchange Mixed.

Foreign exchanges were mixed. Belgian francs touched a new high just under 14 cents, and demand sterling again advanced to $4.87½, but Japanese yen broke nearly 10 points to around 45.70 cents, and Spanish pesetas fell 18 points to 16.60 cents.

Leading commodity markets moved within rather narrow and irregular limits, near month cotton options again closing below the 19-cent level.

TRADE IN ACTIVE ISSUES LARGE ON THE CURB

By the Associated Press.

NEW YORK, Nov. 29.—Rather wide price movements were common in the Curb Market today. Although there were several points of weakness, the gains outnumbered the losses. Trading was in heavy volume, possibly stimulated by the sale of two curb seats at the record price of $60,000.

Ford Motor of Canada again held the most prominent position in the market, starting with an overnight gain of 65 points to 700 following an advance of over 40 points in Monday's trading. This movement was a direct result of the public announcement of the coming presentation of the new Ford model.

New high records were made in a long list of issues, including Dominion Stores, Aluminum, American Solvents participating preferred and Bohn Aluminum and Brass.

Firestone Tire, which had been in urgent demand for some time, rose 15 points to 190, and Washington (D. C.) Railway and Electric rose 25 points to 470.

Realty Associates of Brooklyn was another strong feature moving up. Libbey Owens Bottling gained and Maryland Casualty followed yesterday's advance with a further gain.

Continental Oil was an active feature in the petroleum group, reflecting renewed buying, and a number of other oil stocks, including Standard Oil of Indiana, Humble, Vacuum and Gulf Oil made gains.

Associated Oil and Gas moved up and Midwest Utilities rose. St. Paul new issues were strong, the preferred moving up.

WIDE VARIETY OF LIENS FIGURE IN BOND TRADE

By the Associated Press.

NEW YORK, Nov. 29.—The bond market continued steady today, with trading embracing a wide variety of issues, but in moderate volume.

St. Paul Railroad issues were briskly accumulated in further response to the Supreme Court decision favorable to the issuance of new securities under the road's reorganization plan. Most of these bonds were at their highest levels of the year.

There was some profit-taking in those which have been active recently.

Industrials were featured by firmness of Inland Steel 5½s.

The foreign group had an undertone of firmness. Chilean Republic 6s were in moderate demand and some of the German obligations improved.

New York bankers have made a short-term loan of $3,000,000 to the Westphalia United Electric Power Corporation of Germany.

Reo Motor Report.

NEW YORK, Nov. 29.—Net profit of Reo Motor Car Co. for 12 months ended Aug. 31 was $4,145,792, equal to $2.07 a share against $4,257,919 or $2.12 a share in the previous fiscal year. Directors have voted to change the fiscal year to conform with the calendar year. The next annual report will be for the year ended Dec. 31, 1927.

Steel Market.

NEW YORK, Nov. 29.—Steel prices unchanged.

COTTON PRICES IRREGULAR ON NEW YORK MARKET

By the Associated Press.

NEW YORK, Nov 29.—An early advance in the cotton market was checked by renewed liquidation today, and after showing net gains of 1 to 17 points, prices broke 10 to 13 points below yesterday's closing quotations. Offerings were much lighter after the heavy selling of the previous day, however, and the declines brought in enough covering to steady the midafternoon market.

Futures closed steady, 2 lower to 7 higher. December, 18.97c to 18.98c; January, 18.97c to 18.99c; March, 19.19c to 19.20c; May, 19.37c to 19.38c; July, 19.36c to 19.38c. Spot steady, middling, 19.40c.

The market opened steady at upturn of 5 to 8 points and quickly sold about 13 to 17 points net higher on covering or rebuying by some of yesterday's sellers, who were influenced by relatively firm Liverpool cables and a feeling that the market had been fairly well liquidated on yesterday's decline.

January advanced to 19.11c and May to 19.52c, but this rally met Southern and local selling and the market was several points off from the best.

Private cable advices attributed the relative firmness of Liverpool to month-end trade calling, combined with Bombay and Alexandria buying and a cessation of liquidation.

Buying here by Liverpool, supposed to represent the undoing of straddle accounts, helped to absorb early offerings, and after easing off to 18.93c for January and 19.31c for May, or about 2 to 4 points below yesterday's closing quotations, prices rallied on covering. Trading was quiet later, the market holding steady at 19c for January, or about 5 points net higher at midday.

New York Sugar.

NEW YORK, Nov. 29.—The raw sugar market was quiet early today and no sales were reported, although the undertone was unsettled, probably on account of the action of the futures market. Prices were unchanged at 4.65c for Cuban, duty paid, with offerings at this level.

Uncertainty over developments abroad relative to the world-wide stabilization plan and an unconfirmed private cable, said to have been received from Cuba, to the effect that President Machado has fixed the date for the start of grinding on the new crop as Jan. 1, were responsible for renewed general selling in raw sugar futures. Stop-loss orders were uncovered on the break, which carried active positions 4 to 6 points below the previous close, but after their execution a slight rally followed on covering, with the market at midday 3 to 5 points net lower.

The refined sugar market was easy and unchanged to 10 points lower, with list quotations now ranging from 5.60c to 5.80c for fine granulated. The demand, however, continued of small proportions.

Sugar futures closed steady. Approximate sales 76,500 tons. December, 2.72; March, 2.79; May, 2.87; July, 2.95; September, 3.03.

25,000 MILES in less than 23,000 MINUTES

Studebaker Sets Record.

A record for endurance and speed has been established by two Studebaker Commander roadsters and a Studebaker Commander sedan on the Atlantic City speedway. Announcement was made this week by the contest board of the American Automobile association.

All three cars participating, according to the contest board's statement, traveled 25,000 miles in less than 25,000 minutes.

The contest board in describing the test says:

"The cars started their grind on Oct. 18 and maintained better than a mile-a-minute average speed night and day, under the supervision of thirty-five officials of the American Automobile association for nearly sixteen days, until the 25,000 miles had been completed.

"The official speed of the two roadsters, which started and finished simultaneously was 65.4 miles an hour

From the Chicago Daily News, November 12th

Such speed may not interest you . . . but the endurance of The Studebaker Commander—proved by this amazing demonstration—should appeal to the "pocketbook nerve" of every automobile buyer!

BIG FOUR ROUTE

The Motor that was Buried in "Slurry"

IN a California cement mill, a 6-inch pump handles the slurry (a mixture of ground limestone, clay and water). The pump blew a gasket, forcing slurry into the pump pit and completely submerging the drive motor—a Westinghouse. When the slurry was removed, the motor was washed off with a stream of water and started immediately. The bearings needed no attention, no change of oil. Sealed-Sleeve Bearings are dirt-proof.

When you buy motors, insist upon Sealed-Sleeve Bearings. They give all the advantages of sleeve bearings—in addition they are proof against the entrance of grit and the leakage of oil. Undue bearing wear and oil-soaked windings are prevented; longer motor life results.

FOILS FOURTH ATTEMPT TO GET DIAMOND STUD

Magistrate Schuler Still Has $800 Gem Robbers Have Tried for 14 Years to Steal.

A two-carat diamond stud still illuminates the shirt front of Justic of the Peace Joseph Schuler, although four attempts have been made to steal it.

The first attempt to steal the diamond, which Schuler values at $800, was made 14 years ago on Derby day at Churchill Downs. A thief snatched the stone, and when caught by Schuler threw it away. The stone was recovered; the thief gave bond and disappeared. Another time when Schuler was leaving Excelsior Springs, Mo., on a train for Kansas City, two men made a try for the stud, one throwing a shawl over Schuler's head, but he managed to fight them off.

The third attempt was in Schuler's saloon at Fourteenth street and Clark avenue. A holdup man demanded everything Schuler had, including the diamond. Schuler started to remove the diamond from his shirt, but managed to get away when the robber went to the cash register.

Last Sunday afternoon Schuler was summoned to a city hospital ward to officiate at a wedding. Two men jostled him in a corridor and again in an elevator, one attempting to take the diamond under cover of an overcoat carried on his arm. Schuler cried out and struck at the men, who ran. Rather than be late for the wedding, he did not pursue them.

What Some of the Notables Of New York Are Wearing

By BELLE BRUMMEL

NO first night this season has demanded our attention more emphatically than the opening of the forty-second annual Horse Show held at Madison Square Garden last week. Satin, metal cloth and velvet were accented for evening, and tweeds, fancy woolens and broadcloth were stressed for daytime materials.

Leopard, a fur that has never appealed greatly to our taste, was the most popular pelt of coats, especially those worn over the riding habits of the women. Street and evening clothes were equally favored, though to our mind the sports clothes were far more in keeping with the setting than the gorgeous furs and fabrics worn by many of the women.

• • •

Mrs. Frederick Cameron Church Jr., garbed in a gray-green tweed ensemble collared by natural lynx, viewed the entries from her box. Seated beside her was a smartly attired young woman in black broadcloth trimmed with black fox and accompanied by a small draped skull cap of black velvet ornamented with a rhinestone pin.

• • •

The Governor's Lady, Mrs. Al Smith, selected peach velvet for her evening ensemble. To the familiar strains of "The Sidewalks of New York," she followed her husband into Col. Bowman's box. Metal cloth woven in Persian patterns was chosen by the other smartly frocked women in the Governor's party.

• • •

The penetrating atmosphere of the bleak November day made furs a necessity at the races. The men wore coonskin coats over their tweed suits, and the women fur wraps of various styles and pelts. Mrs. J. Averill Clark wrapped herself in a straightline coat of sable. Mrs. Bayard Tuckerman also wore sable, and we saw several three-quarter length coats of goatskin, a fur which does not appeal to us.

• • •

WE have seen many ruby velvet evening wraps these past few weeks, a warm and colorful shade for cold, wintry nights. Tuesday evening, at the opening of "Coquette," we met Edna Ferber in a wrap of ruby velvet collared by sable and elaborately embroidered in gold. Repeating the brilliant hue of her cloak were black satin slippers tipped off with crimson heels.

Beatrice Lillie favored black velvet in a wrap of slender lines, trimmed with a shoulder capelet of the same material and banded in ermine. Mrs. Irving Berlin chose cocoa brown velvet, quite plain, save for wide sleeves of sable.

• • •

A BELL rings and the first race of the annual autumn meet of the United Racing Association is on. In front of us, in the Turf and Field Club inclosure, stand Mr. and Mrs. E. D. Morgan Jr. A heavy ulster of light brown camel's hair protects Mr. Morgan from the rain. Beneath a green rain-shade we glimpse young Mrs. Morgan wearing a chipmunk fur coat made straight and slim and cut the popular seven-eighth length. It is belted at the waistline by a stitched band of beige angora and lined with the same material.

The short length wrap reveals a frock also made of angora. Accenting the ensemble is a small, close-fitting hat of beige felt caught up at the front by a band of chipmunk. Mrs. Morgan wears beige wool hose and one-strap reptile-skin sandals.

• • •

In the gathering twilight of Monday afternoon we strolled into the Dorset for tea and a glimpse of the ancient and modern etchings on exhibition there. Tones of blue and beige prevailed in the attire of the women. Miss Aurelie Murchison, holding an amusing skye terrier, stood near the entrance talking with Ottilie Schreiber as we entered. Beige was the color Miss Murchison chose for her ensemble, and dull blue was favored by Miss Schreiber. We caught a glimpse of Mrs. Edward C. Smith sipping tea and attired in beige kasha collared by fox of the same shade.

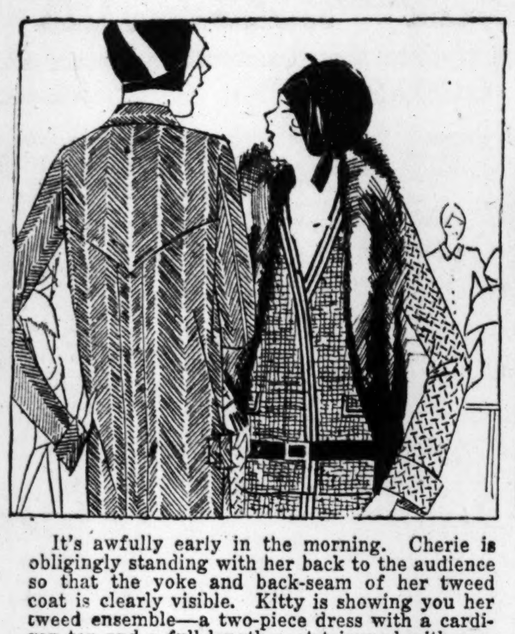
• • •

"They're off!" the vast, shifting throng in the grand stand murmurs in unison as the tiny figures move far down the track. Fixing their glasses on the distant mass of men and horses are the Jordan L. Motts Jr.

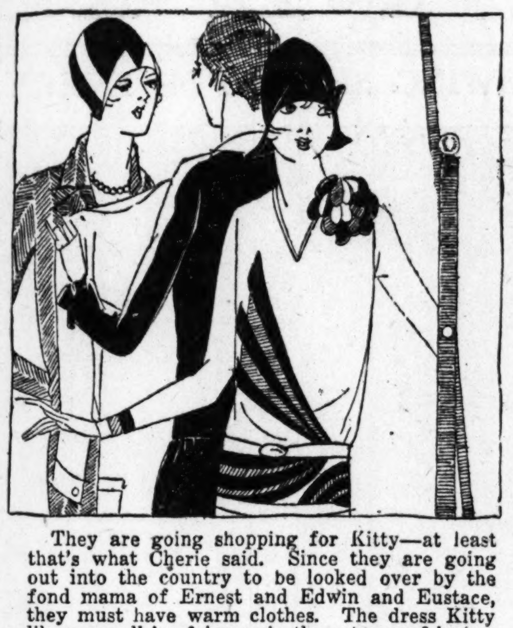
Under a straightline coat of gray covert cloth banded by krimmer, Mrs. Mott wears a short pleated skirt of bottle green crepe and over it a jumper of grayish beige wool cashmere trimmed in green. Her skull cap is of green felt ornamented by ear-muffs of dyed green guinea feathers. She carries one of the new half-moon bags of green reptile skin. Her pull-on gloves are gray chamois, her stockings beige gray silk, and fastening her black patent leather pumps are the smart separate straps of metal and kid so fashionable at the moment.

CHIC CHERIE

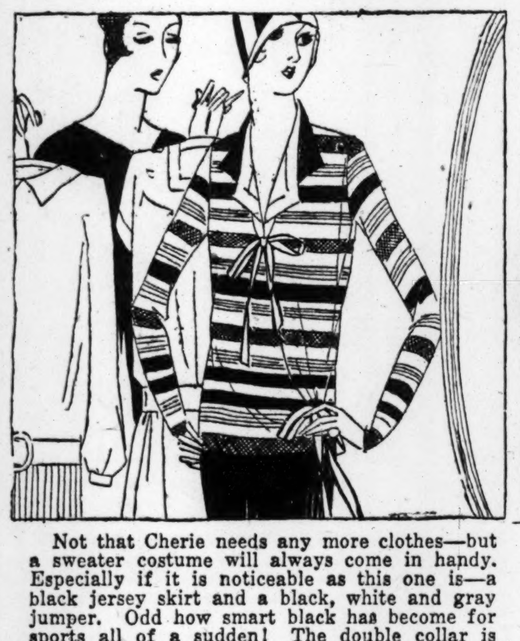
So Nice for Kitty!



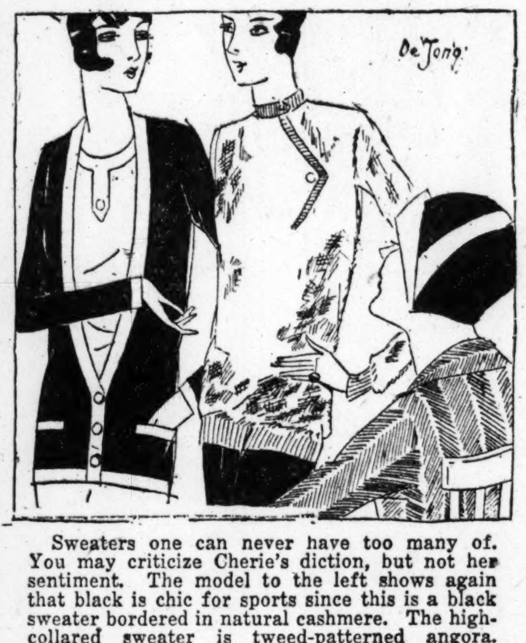
It's awfully early in the morning. Cherie is obligingly standing with her back to the audience so that the yoke and back-seam of her tweed coat is clearly visible. Kitty is showing you her tweed ensemble—a two-piece dress with a cardigan top and a full length coat trimmed with raccoon. These two innocents are going shopping, of course.



They are going shopping for Kitty—at least that's what Cherie said. Since they are going out into the country to be looked over by the fond mama of Ernest and Edwin and Eustace, they must have warm clothes. The dress Kitty likes so well is of jersey in three tones of brown and beige with a satisfyingly intricate sort of trimming design.



Not that Cherie needs any more clothes—but a sweater costume will always come in handy. Especially if it is noticeable as this one is—a black jersey skirt and a black, white and gray jumper. Odd how smart black has become for sports all of a sudden! The double collar is clever—and well, perhaps Cherie does need just one more dress.



Sweaters one can never have too many of. You may criticize Cherie's diction, but not her sentiment. The model to the left shows again that black is chic for sports since this is a black sweater bordered in natural cashmere. The high-collared sweater is tweed-patterned angora. Where is Kitty? Kitty is asleep in a chair in the corner!

The Simplicity Of "Thank You"

By Lucy Lowell.

"DON'T overload gratitude," wrote the wise Benjamin Franklin. He added, "If you do, she'll kick."

It strikes me that here is a bit of advice to think about. There is, perhaps no experience in the world so completely banal to one who has done a favor, great or small, as that in which the recipient of the favor undertakes to express his thanks in the overwhelming manner which some seem to consider necessary for such action.

However, there is no real emphasis in repetition, hyperbole, bizarre methods and manners of speech. Those instead carry an inference of a lack of conviction which must be made up for by exaggeration.

They are resorted to by some because of self-consciousness. Others suffering, perhaps, from a slight inferiority complex, unconsciously use such as a means of balancing up their shortcomings. And still others are handicapped by a true conception of the value of giving.

In any case the effect upon the giver—the one who conferred the favor—is to make him think "What have I done to deserve all this?"

As a matter of fact the one who benefits most from a kindly deed is the perpetrator of it. A favor is a sort of benevolent boomerang which gathers blessings as it flies back to the one who sent it out.

And while this does not relieve the recipient of the necessity for being grateful, it does take from him any reason for abject gratitude.

"Thank you," sincerely spoken is the most acceptible expression of gratitude.

What Is Now Known About CANCER

Prepared by the American Society for Control of Cancer
25 West 43d Street, New York City

WHAT IS CANCER?

ACCORDING to Prof. James Ewing, one of the best known authorities on the subject, cancer is a large group of diseases and not one particular disease. All resemble one another in a single important respect. They are characterized by an unrestrained and unrestrainable local lump or sore and most of them extend by becoming larger and sending off to other parts of the body minute particles which start new growths.

Very few well informed students of cancer now hold the opinion that cancer is a general, or constitutional, disease. It is held that the trouble is local at first. Something goes wrong with the regulating mechanism of the body, with the result that the unwholesome persistent growth begins and, once begun, it cannot stop itself, but must be destroyed or removed.

Cancer may occur anywhere on the outside or inside of the body. It is always little to begin with. When it occurs on the outside it is much easier to discover in its early stages. It is at this time that effective action against the growth is most likely to result in a cure. As has frequently been said, the trouble is then no more serious than a splinter. After particles of the cancer have found their way to other parts of the body and given rise to new cancers the situation is much more serious. For to cure the patient it is necessary to find out where these new centers are and then they must all be removed.

THE TIME TO CURE A CANCER IS WHEN IT IS BEGINNING

If you think you have any of the symptoms described in these articles you should be examined by your doctor or at a hospital at once.

(To be Continued.)

She Was Captain Of the Natchez

PILOTING a household is much more difficult than directing the progress of a Mississippi River steamer, declares Mrs. Blanche Leathers, who has done both successfully.

Mrs. Leathers is the only regularly licensed woman captain of a Mississippi River steamboat.

"The worst I ever heard on the river in my years of association with men was a little clean cursing," she says. "Women are much worse than men."

Capt. Leathers directed the activities of the steamer Natchez, fourth of that name. It was a direct "descendant" of the Natchez which made the memorable race up the river with the Robert E. Lee.

Jefferson Davis was a passenger on her boat on his last trip to his Mississippi plantation. He gave her a bottle of rare Madeira wine with the parting injunction the wine should be opened in honor of her first child.

River steamboating was in its heyday during the period in which the Natchez moved majestically up and down the stream. Gamblers made regular trips with the cotton planters, who were their greatest prey. Capt. Leathers saw fortunes won and lost aboard the boat. Plantations were mortgaged, she says, to pay debts to the "gentlemen of the green cloth."

The Natchez also had its bar. Here Southern gentlemen sipped mint juleps or drank their whisky straight. Many dinner parties with dancing to the accompaniment of banjos and guitars took place on the Natchez.

But there was a serious side to the life, too. Passengers, sometimes numbering 500, had to be looked after as well as crew and boat. Once she brought the Natchez into New Orleans with 5500 bales of cotton aboard. Wrecks and near wrecks came into her experience.

With the demand for more speedy transportation and the growing popularity of railroads, business slumped and the Natchez finally went under the auctioneer's hammer. After the death of her husband, son of the captain of the first Natchez, Mrs. Leathers quit the river. She now regards the world quietly from the comfort of her home. But times are not like they once were on the great, rolling Mississippi, she regrets.

From being a cathedral, a church at Bradwell-on-Sea, England, was converted into a lighthouse, and eventually became a barn.

Gardenias and Black Velvet

A dinner gown of much charm is made of black velvet, with a full long skirt that is stiffened to stand out from the hips. The very low decolletege is filled with apricot silk and the same shows under the low armholes. A cluster of large gardenias finishes the shoulder and single blossoms are sprinkled at intervals down the left side of the skirt.

It was Alexandre Dumas' ambition to put the history of France into novels.

Buster Bear Has a Sudden Change of Mind

The wise their plans will so arrange
That they are subject to a change.
—Buster Bear

THERE is nothing obstinate about Buster Bear. He is not foolish enough to think that because he has made up his mind to a certain thing he cannot change his mind. Buster changes his mind whenever it becomes necessary or seems wise to him to do so.

That squalling little bear up in the treetop made him both angry and hungry. He didn't know that Cubby was his own son. All he knew was that Cubby was a nice little bear, tender and just the thing for a nice meal before going to sleep for the winter. To be sure, it was quite an effort to climb that tree. But good things usually require an effort. They wouldn't be good if they were not worth an effort. So Buster made up his mind that there was nothing for it but to climb that tree.

Now I suppose it seems a very dreadful thing to you that Buster Bear should even think of eating a little bear, but such things are not so dreadful among the little people of the Green Forest. You see, he didn't think of that little bear as a bear at all. He just thought of him as fresh meat. It was all because Cubby was so small. Had he been a little bigger Buster wouldn't have given him another thought.

Now all this time Cubby was bawling as only a little bear can bawl. He couldn't read Buster Bear's thoughts, but he could read Buster's actions. He wanted his mother. No little bear ever wanted his mother more than Cubby wanted his mother right then. He had a feeling that if only Mother Bear would come all would be well. So up in the top of the tree he clung with might and main and bawled with might and main. He didn't look down to see what Buster Bear was doing. If he had he would have seen a surprising change come over Buster. Really, it was a change of minde. One instant Buster was all set to climb that tree. Just one look at him would have told you that his mind was made up to have tender cub for dinner. The next instant he had turned and was silently moving away from that tree, looking back over his shoulder rather anxiously and taking the greatest care to make no noise, despite his hurry. Could you have seen him you would have known instantly that he didn't want a cub for dinner, that all he wanted was to get away from there as quickly as he could.

What was it all about? Well, crashing through the woods came another big bear. It was Mother Bear! Her little eyes glowed red. Her lips were drawn back, showing her teeth. She didn't care anything about moving quietly. All she thought about was getting to that tree and getting there in a hurry. Buster Bear had heard her coming and he was safely out of sight before she could get there. He had no desire to meet Mother Bear when she looked like that.

Now all this time Cubby was bawling as only a little bear can bawl.

At the foot of the tree she glared this way and glared that way, and such an ugly growl as same out of her throat. Then she looked up in the tree. Already a small bear was scrambling down as only a small bear can scramble. Cubby knew he probably would be spanked, but the way he felt just then no spanking could make him feel anything but joyful.

BUTTER

PHYSICIANS are now pointing out surprising facts concerning the vast importance of good, pure butter to child health and growth.

Nature has captured and concentrated in good butter a great store of the precious health rays of sunshine. Scientists tell us, good butter is rich in vitamins A and D. As a result, good butter protects children from rickets, anaemia, colds and many childhood diseases.

Blue Valley Butter is good for children, because every scientific precaution has been taken to retain in it all these valuable life-giving elements.

In the Blue Valley Research Laboratories Professor Otto F. Hunziker has achieved many scientific advancements of great value. This work, together with careful selection and thorough *pasteurization* of all cream, gives Blue Valley its nourishing power to make children thrive and grow.

Blue Valley not only offers pronounced health qualities, but its delightful flavor has won more women than any other butter flavor in America. Sold only in triple-wrapped packages.

HUSBAND. Well, who did the packing?

WIFE (all the classic courses of the Orient combi[illegible] half so withering as the look she gives him in reply. She turns back to her excavations, with tragic weariness and unfathomable disgust.)

HUSBAND (prowls about the ruins, whistling, sighing, grunting. This goes on for a full three minutes).

WIFE (coming to the surface again, with a face now vermilion as well as moist and soiled—What are you looking for now?

HUSBAND: My poker chips.

WIFE (in tones dangerously sweet)—Oh! Counting on having a few friends over this evening? (She surveys the chaos all around them leisurely and with marked scorn. Where do you intend asking them to sit? And on what?

HUSBAND (in tones too polite to conceal aught but an intent upon immediate homicide) — I wished merely to have some general idea as to the location of my own personal belongings. [illegible] answered you that I was looking for my poker chips I had no thought of asking any friends over this evening or, for the matter of that, any evening. In fact, there was but little hope in my mind of ever seeing those poker chips again. And by now I feel thoroughly convinced that they have gone where my golf balls and all the rest of my cherished belongings have gone. But I am not complaining. I realize that it is all just part of that strangely amusing sport, which in our fair town ranks second only to baseball in popularity.

WIFE (throughout this heart-rending oration she has been scanning every box, bag, barrel, basket bottle and bundle in the room)—Why, there's your old fishing line! I used it to tie up those four packages when I ran out of string. All you have to do is knot it and wind it on the reel again.

Husband: And then go out into the deeps of the Atlantic and pull in a 300-pound shark with it, I suppose. No, thanks, you'd better keep it to hang stockings on.

WIFE (still sleuthing around)—And there are your old golf balls—right under your very nose!

HUSBAND (becoming wall-eyed in his anxiety)—Where?

WIFE—Can't you see? Over there in the coffee percolator.

HUSBAND—Hmph! (He lifts each "pill" out lovingly and then begins to smell them.) Suppose you might be able to use these for portiere weights or something?

WIFE (rushing toward him in a veritable excess of joy)—Oh, darling, darling, are you going to give it up at last? Are you? Are you?

HUSBAND—Give up what? I haven't, so far as I know, suggested giving up anything, except the distinction of having my golf bag smell like a lunch wagon.

WIFE—Well, if you had stood by me, during the packing, instead of having those sudden deals on in Philadelphia, Boston, San Francisco and other points north, south, east and west——

HUSBAND—Who started all this moving, I'd like to know! You didn't hear me insisting on it. I've always said the old place was perfectly satisfactory to me.

WIFE—That's the army for you! You don't deserve a real home.

HUSBAND — (Sweeps doubting eyes about the present shelter.)

WIFE—I wonder you didn't marry some vaudeville actress and travel around with her as her manager, if a home means so little to you.

HUSBAND—Darn right! All they have to carry is a trunk. But when we move we lug along a department store. And the joke is each place we move to looks just like the one we left, only a little worse.

WIFE—That's not true. The entrance here is more impressive!

HUSBAND—Don't expect me to live in it!

WIFE—This place has French windows.

HUSBAND—The other one had Florentine stair posts—for all the good it did us.

WIFE—Oh, for heaven's sake, stop arguing and help me put up the book shelves! I'm quite familiar with your tactics—either a debate or a trip to the coast. Fall to, fellow, and give us a hand with this lumber (I learned that one from the moving men).

(They labor, sigh, grumble, scrap and lose weight. But out of it all, slowly, beautifully, there rises a home—waiting to be torn down next year.)

CURTAIN.

HUSBAND: My poker chips.

WIFE (in tones dangerously sweet)—Oh! Counting on having a few friends over this evening? (She surveys the chaos all around them leisurely and with marked scorn. Where do you intend asking them to sit? And on what?

HUSBAND (in tones too polite to conceal aught but an intent upon immediate homicide) — I wished merely to have some general idea as to the location of my own personal belongings. When I answered you that I was looking for my poker chips I had no thought of asking any friends over this evening or, for the matter of that, any evening. In fact, there was but little hope in my mind of ever seeing those poker chips again. And by now I feel thoroughly convinced that they have gone where my golf balls and all the rest of my cherished belongings have gone. But I am not complaining. I realize that it is all just part of that strangely amusing sport, which in our fair town ranks second only to baseball in popularity.

WIFE (throughout this heartrending oration she has been scanning every box, bag, barrel, basket bottle and bundle in the room)—Why, there's your old fishing line! I used it to tie up those four packages when I ran out of string. All you have to do is knot it and wind it on the reel again.

Husband: And then go out into the deeps of the Atlantic and pull in a 300-pound shark with it, I suppose. No, thanks, you'd better keep it to hang stockings on.

WIFE (still sleuthing around)—And there are your old golf balls—right under your very nose!

HUSBAND (becoming wall-eyed in his anxiety)—Where?

WIFE—Can't you see? Over there in the coffee percolator.

HUSBAND—Hmph! (He lifts each "pill" out lovingly and then begins to smell them.) Suppose you might be able to use these for portiere weights or something?

WIFE (rushing toward him in a veritable excess of joy)—Oh, darling, darling, are you going to give it up at last? Are you? Are you?

HUSBAND—Give up what? I haven't, so far as I know, suggested giving up anything, except the distinction of having my golf bag smell like a lunch wagon.

WIFE—Well, if you had stood by me, during the packing, instead of having those sudden deals on in Philadelphia, Boston, San Francisco and other points north, south, east and west——

HUSBAND—Who started all this moving. I'd like to know! You didn't hear me insisting on it. I've always said the old place was perfectly satisfactory to me.

WIFE—That's the army for you! You don't deserve a real home.

HUSBAND — (Sweeps doubting eyes about the present shelter.)

WIFE—I wonder you didn't carry some vaudeville actress and travel around with her as her manager, if a home means so little to you.

HUSBAND—Darn right! All they have to carry is a trunk. But when we move we lug along a department store. And the joke is, each place we move to looks just like the one we left, only a little worse.

WIFE—That's not true. The entrance here is more impressive!

HUSBAND—Don't expect me to live in it!

WIFE—This place has French windows.

HUSBAND—The other one had Florentine stair posts—for all the good it did us.

WIFE—Oh, for heaven's sake, stop arguing and help me put up the book shelves! I'm quite familiar with your tactics—either a debate or a trip to the coast. Fall in, fellow, and give us a hand with this lumber (I learned that one from the moving men).

(They labor, sigh, grumble, scrap and lose weight. But out of it all, slowly, beautifully, there rises a home—waiting to be torn down next year.)

Tips for the Modern Girl Who Wants to Be a Real Success

Career in Business, Art, Music, Says Mrs. John Dickerson Sherman, Women's Club Leader, Is "The Husks the Swine Did Eat," Compared to Wifehood and Motherhood.

By MEIGS O. FROST.

MRS. JOHN DICKERSON SHERMAN, president of the General Federation of Women's Clubs, leader of more than 14,000 women's organizations with a membership of more than 2,000,000 American women, lays down the law for America's girls, wives and mothers.

And these are the things American girls and women must remember, says Mrs. Sherman, if they are to make a real success of their lives:

Man was made for woman. Woman was made for man.

The world's greatest career for womanhood is wifehood and motherhood. Compared to that destiny, woman's greatest success in the careers of business, art, music, is "the husks the swine did eat."

Every woman should realize that her greatest career is to find her man, marry him, love him, keep him interested, make him a comfortable home, rear his children, and always "treat him like a perfect stranger" in the sense that she preserve her privacy and show her husband the courtesy and consideration she would show a stranger on whom she was trying to make a good impression.

Every woman should realize that to be a wife is the hardest job in the world; the only job worth a woman's while.

"It takes more tact, thought, brains, diplomacy, to be a wife in a three-room flat than it does to be America's Ambassador at the Court of St. James."

Delicatessen wives, "bridge drunkards" who grab a delicatessen package on the way home and call it dinner, are skating on thin ice that is bound to let them through into deep water.

Children should be taught the truths about sex between the ages of six and eight by their mothers. If you wait unti 10 to 15, the children will have learned anyway, and probably from sniggering, unclean whisperings.

Lack of clothes in the modern flapper's costume doesn't mean lack of virtue.

"Have faith in the flapper. At least have as much faith in her as God has. And God has enough faith in her to have made her as the mother of the next generation."

And lastly, every girl, every woman, should belong to some sort of a woman's club, if only "to let a little fresh air in among her ideas so she can talk like an interesting companion to her husband."

THESE are the doctrines Mrs. Sherman laid down in New Orleans last week while she sat before a crackling wood fire in the home of Mrs. Joseph E. Friend, prominent New Orleans club woman and philanthropist, at 1807 Palmer avenue. There Mrs. Sherman was a guest on her way home from the annual session of the Louisiana Federation of Women's Clubs, held at Natchitoches. From her headquarters in Washington Mrs. Sherman has traveled more than a quarter of a million miles on her duties as head of America's women's clubs during her term in office, which ends this coming summer. She is a woman of wide experience and extraordinary charm. She comes of a newspaper family. Her late husband, John Dickerson Sherman, was associate editor of the Chicago Inter-Ocean. When her term of office ends this coming June, says Mrs. Sherman, she has only one ambition: "To plunge into privacy and stay submerged there a long, long time."

"I've taught this doctrine that woman's greatest destiny and career is marriage and motherhood ever since I have been interested in women's clubs and their work," said Mrs. Sherman. "I ought to know something about it. I have been a wife and mother myself. My son, 33 years old, is happily married.

"I grow rather impatient when I hear young girls talk about the call of a career above the call of a husband and a home and babies. I don't care if a woman has it in her to be the greatest success as a business woman, an artist, a singer, a musician, an actress, in the history of the world. All the success she may win that way is but, as the Bible says, 'the husks the swine did eat' in the story of the Prodigal Son, as compared with the fulfillment of a woman's destiny and career as a wife, home maker, a mother.

"I DON'T know where the idea started that to be a successful wife in all that word implies, all a girl had to do was to sink back in a swoon of ecstacy amid rose-colored clouds, and the good God would see to it that all went well after the marriage ceremony. But wherever that idea started, it is one of the most foolish ideas in history. Misery has traveled in its train.

"I tell you that it takes more tact, more thought, more brains, more diplomacy, to be a successful bride in a three-room flat than it does to be the American Ambassador at the Court of St. James.

"When women talk of 'their careers' as against marriage I usually mark it down as due to ignorance or the camouflage for an unwillingness to tackle the harder job of the two. Many women who prate of their business careers have gone into business purely for the titillating excitements of the many contacts. Many women have sacrificed the 45-caliber job of wifehood and motherhood on the altar of some 22-caliber career among the arts.

"What would I say to a young girl on the threshold of womanhood who came to me for advice? I'd tell her to find her man and marry him. I'd tell her that she was taking on the hardest job in the world, but the only job that makes a woman's life worth while.

"I'd tell her that any woman worth her salt can make even a hotel room look homelike inside of two days. I know I can. I'd tell her that she was more kinds of a fool than I have words to describe if she ever let her husband see her slopping around the house with her face unwashed, her hair in wisps, her garment a spotty old kimona.

"IT is the careless abandoning of personal privacy that so often brings to husbands and wives a feeling that marriage and home life have essentially a sort of grimy side. I always remember that old mountaineer farmer who was lamenting after he had buried his wife.

"'That woman was one of God's own,' he said. 'In all the 20 years we were married she always treated me like a perfect stranger.'

"There's a lesson in that for every wife. Treat your husband like a perfect stranger in the sense that you give him the unflagging courtesy, show him the same interest in what interests him, put your best foot forward with him as you would with a stranger on whom you were trying to make a good impression.

"That's why I say these delicatessen wives are skating on thin ice that is going to let them through into deep water. I have believed in woman's clubs ever since I knew anything about a woman's club. But if any clubwoman uses her club meetings or her club work as the excuse for dashing home on the supper deadline and stopping in a delicatessen shop to buy some cold meat and a scoop of potato salad, and offering that to her husband for supper—that woman has a wrong sense of values.

"And the same judgment applies to the woman bridge drunkard. I like bridge. I believe in women's clubs. But every wife should remember that her home and her husband come first.

"I KNOW that there are times, when babies are young and young wives have no staff of servants, when it is impossible for those young wives to take active part in women's clubs programs. And in cases like that, the wives should not try to play an active part in women's club work. Husbands, babies and home must come first. But let those wives attend club meetings whenever they can and bring their babies along. Those meetings will let some fresh air in among ideas that have grown stuffy in the heads of wives held tightly to their homes, and will make them better companions, better wives, better mothers.

"All this talk about the flapper? Much of it amuses me. I have all the faith in the world in the modern girl. She dresses differently and talks differently from her grandmother. But she is coming out all right in the end. And she's all right as she is. I wish critics could get over the idea that lack of clothes means lack of virtue.

"Clothes or the lack of them have nothing to do with virtue. You can be virtuous in the costume in which you take your bath. And you can be as wicked and sinful as any wicked woman in history, wearing a trunkful of clothes.

"I hear folk talk about the suggestive clothes of today and the modesty of the clothes of yesteryear. Recently I happened to see a lot of photographs of women in the garments they wore in the '90s and far earlier. It seemed to me that they were far more suggestive than anything the flapper wears today. Those tightly laced corsets! Those wasplike waists! Those exaggerated hips and busts! Those low-cut evening frocks! Don't you remember how long ago it was that a certain famous society woman was known as 'New York's famous fullback,' when she appeared at a ball with her evening gown cut off at the waistline in back? Girls today wear their skirts short, but they would have almost to dispense with their skirts entirely if they were to equal below the waist the exposures of their grandmother's day above the waist.

"AND people talk about the frankness of sex conversation of the younger generation, saying how shocked they are at it. I know it can be overdone. But sex was talked long before the present generation was born. How soon do I believe children should be taught the facts about sex? Between the ages of 6 and 8. If you wait until they are 10 or 15, they'll know those facts anyway, and the chances are they will have learned them from the source of sniggering, unclean whisperings. I taught my son all the truths about sex before he was 8 years old.

"And while we can maintain the Santa Claus story as long as we are able to, we ought to shelve the stork and the cabbage-leaf under which we used to be told babies were found before we are convicted of talking foolishness, by the minds of our own children.

"The day of all that hoary 'bunk' has passed. Fathers and mothers should realize it. I don't like to use slang. But it seems to me 'bunk' is the one word that fits in that case.

"Let's stop worrying about what we call the flapper. Let's have as much faith in her, at least, as God has faith in her. And God has enough faith in her to have sent her to earth to be the mother of the next generation.

"DIVORCE in America? It's too great a topic to dismiss with a paragraph. But this much I can say. I believe there should be a law that prohibits any marriage until some two weeks after the issuance of a marriage license. Such a law, enforced, would automatically remove the cause for thousands of divorces in America.

"There are no figures to show how many thousands of hasty marriages before justices of the peace are the result of wild, foolish jazz parties. Girls and boys, their heads turned by a moonlight romance and the thrill of gin and jazz and gasoline, rush out in the dawn on some wild and hastily planned marriage. They haven't the faintest idea of what marriage means beyond the thought that it is going to 'give them a kick.' And the Lord alone knows how many divorces come from the reactions of such marriages. The old practice of reading out the banns in church had a foundation of solid common sense. Make these hasty marriages impossible, and you will lessen by uncounted thousands these divorces that are their aftermath."

It's a Pity To Stay Fat

In these days

Don't do it, when so many have found the right way to reduce. You see them in every circle—happy, healthy people who have lost that burden in an easy, pleasant way.

Since the year 1907, people have been fighting excess fat by scientific methods. They combat the cause. Were fat as common as it once was the dress styles of today could never have come into vogue.

That modern method is embodied in Marmola prescription tablets. Over-fat people have used them for twenty years—millions of boxes of them. Now you see the results wherever you look. Why not enjoy them yourself?

Users of Marmola are not forced to abnormal exercise or diet. Moderation helps, but starvation is taboo. One simply takes four tablets daily until weight comes down to normal.

Every box of Marmola contains the formula, also the reasons for the many good results. You know just what you are taking and how you get the effects. You will have no fear of Marmola when you know the scientific facts.

Go get a box today. Learn how it acts, and why. Then watch the results in new vitality and loss of weight. Then tell your friends. You can do no greater kindness to people who overweigh.

Marmola prescription tablets are sold by all druggists at $1 per box. If your druggist is out, he will get them at once from his jobber.

The Mystery of the Missing Word

CHAPTER III.

NOBODY quite knows how Angel Esquire came to occupy the position he does at Scotland Yard. On his appointment, "An Officer of 20 Years' Standing" wrote to the Police Review and characterized the whole thing as "a job." Probably it was. For Angel Esquire had been many things in his short but useful career, but never a policeman. He had been a big game shot, a special correspondent, a "scratch" magistrate, and his nearest approach to occupying a responsible position in any police force in the world was when he was appointed a J. P. of Rhodesia, and, serving on the Tuli Commission, he hanged M'Linchwe and six of that black desperado's companions.

His circle of acquaintances extended to the suburbs of London, and the suburbanites, who love you to make their flesh creep would sit in shivering but pleasurable horror whilst Angel Esquire elaborated the story of the execution.

In Mayfair Angel Esquire was best known as a successful mediator.

"Who is that old-looking young man with the wicked eye?" asked the Dowager Duchess of Hoeburn; and her vis-a-vis at the Honorable Mrs. Carter-Walker's "sit-down tea"—it was in the days when Mayfair was aping suburbia—put up his altogether unnecessary eyeglass.

"Oh, that's Angel Esquire!" he said carelessly.

"What is he?" asked the Duchess.

"A policeman."

"India?"

"Oh, no, Scotland Yard."

"Good heavens!" said Her Grace in a shocked voice. 'How very dreadful! What is he doing? Watching the guests, or keeping a friendly eye on the Carter woman's spoons?".

The young man guffawed.

"Don't despise old Angel, Duchess," he said. "He's a man to know. Great fellow for putting things right. If you have a row with your governor, or get into the hands of—er—undesirables, or generally, if you're in a mess of any kind, Angel's the chap to pull you out."

Her Grace surveyed the admirable man with a new interest.

Angel Esquire, with a cup of tea in one hand and a thin grass sandwich in the other, was the center of a group of men, including the husband of the hostess. He was talking with some animation.

"I held three aces pat, and opened the pot light to let 'em in. Young Saville raised the opening to a tenner, and the dealer went ten better. George Manfred, who had passed, came in for a pony, and took one card. I took two, and drew another ace. Saville took one, and the dealer stood pat. I thought it was my money, and bet a pony. Saville raised it to fifty, the dealer made it a hundred, and George Manfred doubled the bet. It was up to me. I had four aces; I put Saville with a 'full,' and the dealer with a 'flush.' I had the beating of that lot; but what about Manfred? Manfred is a feller with all the sense going. He knew what the others had. If he bet, he had the goods, so I chucked my four aces into the discard. George had a straight flush."

A chorus of approval came from the group.

If "An Officer of Twenty Years' Standing" had been a listener, he might well have been further strengthened in his opinion that of all persons Mr. Angel was least fitted to fill the responsible position he did.

If the truth be told, nobody quite knew exactly what position Angel did hold. If you turn into New Scotland Yard and ask the janitor at the door for Mr. Christopher Angel—Angel Esquire by the way was a nickname affixed by a pert little girl—the constable, having satisfied himself as to your bona-fides, would take you up a flight of stairs and hand you over to yet another officer, who would conduct you through innumerable swing doors, and along uncounted corridors till he stopped before a portal inscribed "647." Within, you find Angel Esquire sitting at his desk, doing nothing, with the aid of a Sporting Life and a small weekly guide to the Turf.

Once Mr. Commissioner himself walked into the room unannounced, and found Angel so immersed in an elaborate calculation, with big sheets of paper closely filled with figures, and open books on either hand, that he did not hear his visitor.

"What is the problem?" asked Mr. Commissioner, and Angel looked up with his sweetest smile, and recognizing his visitor, rose.

"What's the problem?" asked Mr. Commissioner again.

"A serious flaw, sir," said Angel, with all gravity. "Here's Mimosa handicapped at seven stone nine in the Friary Nursery, when according to my calculations, she can give the field a stone, and beat any one of 'em."

The Commissioner gasped.

"My dear fellow," he expostulated, "I thought you were working on the Lagos Bank business."

Angel had a far-away look in his eyes when he answered—

"Oh, that is all finished. Old Carby was poisoned by a man named—forget his name now, but he was a Monrovian. I wired the Lagos police, and we caught the chap this morning at Liverpool—took him off an Elder-Dempster boat."

The Police Commissioner beamed.

"My congratulations, Angel. By Jove, I thought we shouldn't have a chance of helping the people in Africa. Is there a white man in it?"

"We don't know," said Angel absently; his eye was wandering up and down a column of figures on the paper before him.

"I am inclined to fancy there is—man named Connor, who used to be a croupier or something to old Reale."

He frowned at the paper, and picking up a pencil from the desk, made a rapid little calculation. "Seven stone thirteen," he muttered.

The Commissioner tapped the table impatiently. He had sunk into a seat opposite Angel!

"My dear man, who is old Reale? You forget that you are our tame foreign specialist. Lord, Angel, if you heard half the horrid things that people say about your appointment you would die of shame!"

Angel pushed aside the papers with a little laugh.

"I'm beyond shame," he said lightheartedly; "and, besides, I've heard. You were asking about Reale. Reale is a character. For 20 years proprietor of one of the most delightful gambling plants in Egypt, Rome—goodness knows where. Education—none. Hobbies—invention. That's the 'bee in his bonnet'—invention. If he's got another, it is the common or garden puzzle. Pigs in clover, cross-words, all the fake competitions that cheap little papers run—he goes in for them all. Lives at 43 Terrington Square."

"Where?" The Commissioner's eyebrows rose. "Reale? 43 Terrington Square? Why, of course." He looked at Angel queerly. "You know all about Reale?"

Angel shrugged his shoulders.

"As much as anybody knows," he said.

The Commissioner nodded.

"Well, take a taxi and get down at once to 43 Terrington Square. Your old Reale was murdered last night."

It was peculiar of Angel Esquire that nothing surprised him. He received the most tremendous tidings with polite interest, and now he merely said, "Dear me!" Later, as a swift motor car carried him along Whitehall he permitted himself to be "blessed."

Outside No. 43 Terrington Square a small crowd of morbid sightseers stood in gloomy anticipation of some gruesome experience or other. A policeman admitted him, and the local inspector stopped in his interrogation of a white-faced butler to bid him a curt "Good morning."

Angel's preliminary inspection did not take any time. He saw the bodies, which had not yet been removed. He examined the pockets of both men, and ran his eye through the scattered papers on the floor of the room in which the tragedy had occurred. Then he came back to the big drawing room and saw the inspector, who was sitting at a table writing his report.

"The chap on the top floor committed the murder, of course," said Angel.

"I know that," said Inspector Boyden brusquely.

"And was electrocuted by a current passing through the handle of the safe."

"I gathered that," the inspector replied as before, and went on with his work.

"The murderer's name is Massey," continued Angel patiently—"George Charles Massey."

The inspector turned in his seat with a sarcastic smile.

"I also," he said pointedly, "have seen the envelopes addressed in that name, which were found in his pocket."

Angel's face was preternaturally solemn as he continued—

"The third man I am not so sure about."

The inspector looked up suspiciously.

"Third man—which third man?"

Well-stimulated astonishment sent Angel's eyebrows to the shape of inverted V's.

"There was another man in it. Didn't you know that, Mr. Inspector?"

"I have found no evidence of the presence of a third party," he said stiffly; "but I have not yet concluded my investigations."

"Good," said Angel cheerfully. "When you have, you will find the ends of three cigarettes—two in the room where the old man was killed, and one in the safe room. They are marked 'Al Kam,' and are a fairly expensive variety of Egyptian cigarettes. Massey smoked cigars; old Reale did not smoke at all. The question is"—he went on speaking aloud to himself, and ignoring the perplexed police official—"was it Connor or was it Jimmy?"

The inspector struggled with a desire to satisfy his curiosity at the expense of his dignity, and resolved to maintain an attitude of superior incredulity. He turned back to his work.

"It would be jolly difficult to implicate either of them," Angel went on reflectively, addressing the back of the inspector. "They would produce so unimpeachable alibis, and bring an action for wrongful arrest in addition," he added artfully.

"They can't do that," said the inspector gruffly.

"Can't they?" asked the innocent Angel. "Well, at any rate, it's not advisable to arrest them. Jimmy would——"

Inspector Boyde swung around in his chair.

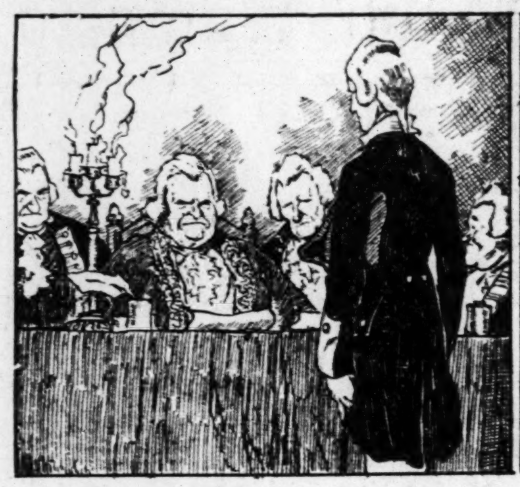
Famous Love Romances

Lord Nelson and Lady Hamilton (II)

By Nicholas Afonsky



When Nelson was nineteen he passed his test for lieutenant before a board headed by his uncle. When the examination was over, Suckling introduced Nelson as his nephew. "Why didn't you tell us before?" asked the other members. "I didn't want the youngster to be favored," answered Suckling.

Young Nelson progressed rapidly after this. He was sent on a cruise to the West Indies and became desperately ill from the almost tropical climate. He was finally carried ashore on his cot at Jamaica, there to be nursed back to comparative health by a black nurse called Cuba Cornwallis in her lodging house.

After a partial recovery in England, Nelson returned to the West Indies, to stay there for four years. There, at Nevis, St. Kitt's, he met a young widow, Fanny Nisbet, whom he fell in love with and married. Until his infatuation with Lady Hamilton, Nelson was a devoted and adoring husband, and they were happy.

About the time of Nelson's marriage, Emma Lyon, then twenty-three, met and became friendly with Sir William Hamilton, British ambassador at Naples, whom she married a few years later. She was beautiful and cultivated, and entered into the social life of Sir William's position with spirit and charm.

Women Crowd Men Out of Fox Hunting

THE English fox-hunting season opened this year with some of the most notable gatherings that Kirby Gate has ever seen.

More women than ever before are taking part in the chase.

Princess Indiraraja, Maharanee of Cooch Behar, who is in the throes of her first season at the sport, started out with a string of 30 hunters. She is the daughter of the Gaekwar of Baroda, one of India's most powerful princes. She often rides side-saddle in her native Indian costume and has had a number of severe falls.

There are 362 packs of hounds now in England and the women riders are almost forcing out the men from this once exclusively masculine sport. British society folk still are singing the praises of Miss Laycock, who last season led a tail-on-end chase of 30 miles with a number of men riders in a big field, and who was the only person up at the end of the chase.

Another extraordinary performance by a woman was that of a Miss Greig, who chased a stag for 70 miles and then returned to the kennels on the same horse and was able to take part in another hunt the following day. Experts regard this as a great performance, even for a healthy, robust man.

Woman Judge Is Cupid's Ally

CUPID'S greatest ally in a State which has no divorce laws is Mrs. Fannie Davis Scott, Judge of Probate in Greenville County, North Carolina.

She is still a young woman, but during the seven years she has been in office she has issued more than 10,000 marriage licenses and performed many of the ceremonies.

She advises with virtually every couple that comes for a license and occasionally when some of them come back later reporting their marriage is about to "go on the rocks, she tries to relieve the trouble. Usually she succeeds.

"If you are not happy apart," she sometimes tells them, "there must be a reason and that reason is love."

Interference of parents or other persons and the difficult task of adjusting personalities are given by Mrs. Scott as two of the principal causes of trouble in the lives of the newly married.

Issuance of marriage licenses is only one of the duties of her court. She handles juvenile delinquency cases and also presides at lunacy hearings. All wills in the county are filed in her office.

Regarded as one of the leading women in South Carolina, Mrs. Scott has held office since [illegible] The following year three men decided they wanted her job. She defeated them. While Mrs. Scott performs some of the marriage ceremonies, she turns most of them to Assistant Judge of Probate J. P. Ballenger.

Jellied Cocktail.

Pour a pint of boiling water over a package of lemon gelatine and when it is cold strain it. Fill cocktail glasses with finely cut mixed fruits, oranges, pears, peaches, bananas, one tart apple chopped; dust with a little pepper, salt and sugar; add a tablespoonful of ginger syrup and fill the glasses with the cold gelatine. Set in a cold place to jell. Serve garnished with sprays of fresh mint leaves.

RADIO IS BETTER WITH BATTERY POWER

Enjoy your radio set

WHEN you turn the switch on your radio set you expect to receive a program from your favorite station that you can enjoy. You expect to hear the music just as it is played—without hum or buzz or other funny noises. If your set is battery powered you'll hear the programs at their best, particularly if the batteries are Eveready.

Eveready "B" Batteries are noted for their long life, but no Eveready Battery lasts nearly so long as the patented Eveready Layerbilt No. 486. This big "B" battery is made up of layer on layer of active materials—more of them than in any other battery of equal size. That's why it lasts longer and why it gives you more for your money. For economical "B" power, for clear reception and freedom from battery worries use the Eveready Layerbilt, built and backed by the

ANSWERS TO QUERIES

The Post-Dispatch reserves the right to reject any query. Personal and telephone calls or answers by mail cannot be given attention, except letters on medical questions of undoubted sincerity when accompanied by stamped addressed envelope.

M. R.—John McCormack, Irish tenor, was married to Miss Lily Foley of Dublin in 1906.

D. D.—Rose Marie appeared at the Schubert-Rialto the last time the week of Jan. 2, 1927. Marion Talley appeared at the same theater May 21, 1927.

OLD READER.—Names of dealers are not given in this column. Names of coin authorities could be mailed you in the necessary stamped, addressed envelope.

L. C. H.—The cause of your geraniums turning yellow when transplanted from out-of-doors to in-doors is probably that they thrive best in a cool place, also, they are not actively growing in winter. This is the natural resting time of plants. You may remove them from the soil, shake the dirt from the roots, and hang in a cool basement during winter. If planted again in early spring they will grow in-doors or out. If you keep them potted through the winter house them in a cool, not cold, place.

G. V. M. C.—The suitable thing for a man to give a girl acquaintance at Christmas is candy, books or flowers. Gifts of a more permanent kind are not, as a rule, exchanged except by engaged persons. It is not customary for a girl to send a man a gift, unless engaged to him, and then it is not expected.

MISSOURIAN AND DISABLED VET.—The island open for homesteading by veterans is Maple Island, west of Wood River, Ill., two miles south of Alton and 200 yards off the Illinois shore. File applications with County Clerk Joseph Hotz of Madison County before Dec. 5. He forwards them to the Department of the Interior, Washington, D. C. Telephone or call on Travel Bureau, Post-Dispatch, for automobile route to the island. Alton is on State Highway No. 3.

F. S. AND M. C. M.—Value of an old violin can best be judged by a violin maker. Examination by a local maker would be better than a written description sent to an expert. Such examination may include removal of the top and examination of the shape and size of blocks and systems of graduation, as these are peculiar to different makes. This requires some research and a fee is usually charged for such appraisal. If your Stradivarius is genuine it is valuable. Name of a local expert could be mailed you, but dealers' names are not published. After you know the value, advertise in musical journals.

LEGAL INFORMATION

(By a Member of the St. Louis Bar Association)

A. W. W.—Even if the landlord refuses to fix roof and doors, you have to pay rent or move.

SHERLOCK.—Inquire at police headquarters for full information on obtaining a detective's license.

READER.—Report the facts to the Prohibition Enforcement Office, in the Federal Bldg., Eighth and Olive streets.

A. G. E.—You can sue the parties who sold you the stock if they made any false representations regarding it. Consult a lawyer.

JAMES.—Inquire at the office of the Clerk of the Probate Court, in the courthouse, Fourth and Pine streets, to find out on what day a case will be called.

SMP.—No person has a right to open your mail without your permission. If the property is real estate, it cannot be sold and a clear title given, by either husband or wife, unless the other signs the deed.

WAITING.—On the facts stated in your letter you could probably obtain a divorce and alimony. The husband will have to support the children in any event. How much he would have to pay would depend on his financial circumstances, and upon the children's and your needs. You should consult a lawyer before doing anything about it.

UNSIGNED.—Whether you have a claim against those who sold you the carpet depends upon whether the carpet was defective, or not what they represented it to be, and on whether you notified them within a reasonable time. Consult the Legal Aid Bureau in the Municipal Courts Building, Fourteenth and Market streets. It would be wise to pay the $9.50 and then sue them, rather than run the risk of losing all your furniture. This question was sent with stamp enclosed, but no name or address for mailing.

MEDICAL QUESTIONS

Health and sanitation questions of public interest only will be considered. Diagnosis or treatment of individual cases will not be given.

ELLA.—Only one means of killing hair roots is recommended as reliable and that is by use of the electric needle. When used by an expert it is not painful or harmful. If you wish the name of a specialist send stamped, addressed envelope. Advice as to bleaching or dyeing the hair is not in the province of this department.

LOUISE.—If not due to trouble with organs, such as the kidneys, liver, heart, etc., the swelling may result from digestive disturbances, lack of proper outdoor exercise, biliousness, etc. The cause should be removed. It is suggested that you write again, giving more detail, and enclosing stamped envelope if diet list is desired.

EX-SERVICE MAN AND VIVIAN.—The formula asked for is: Salol, two grams; spermaceti, 30 grains; glycerine, 40 grains; lanolin 120 grains; essence of white rose, 5 drops; mix, rub the neck, or arms, or the part in question, with a bit of flannel to excite the circulation and produce a glow. After which spread on a thick layer of the cream, washing off in the morning with tepid water. Advice concerning beauty parlors cannot be given, not knowing their methods and practice. Benefit should attach to gymnastic exercise.

C. T. F.—The following should tone up the stomach and improve the digestion, so providing strength: Tincture of nux vomica, one-half ounce; powdered caroid, two drachms; bismuth subnitrate, one drachm; compound tincture of gentian, three ounces; elixir of lactopeptine, three ounces; mix, shake. Dose is two teaspoonfuls in wine glass water three times daily before or between meals. Take systematic outdoor exercise, correcting constipation. Also, one or two of the five-grain tablets of Tak-diastose just after meals.

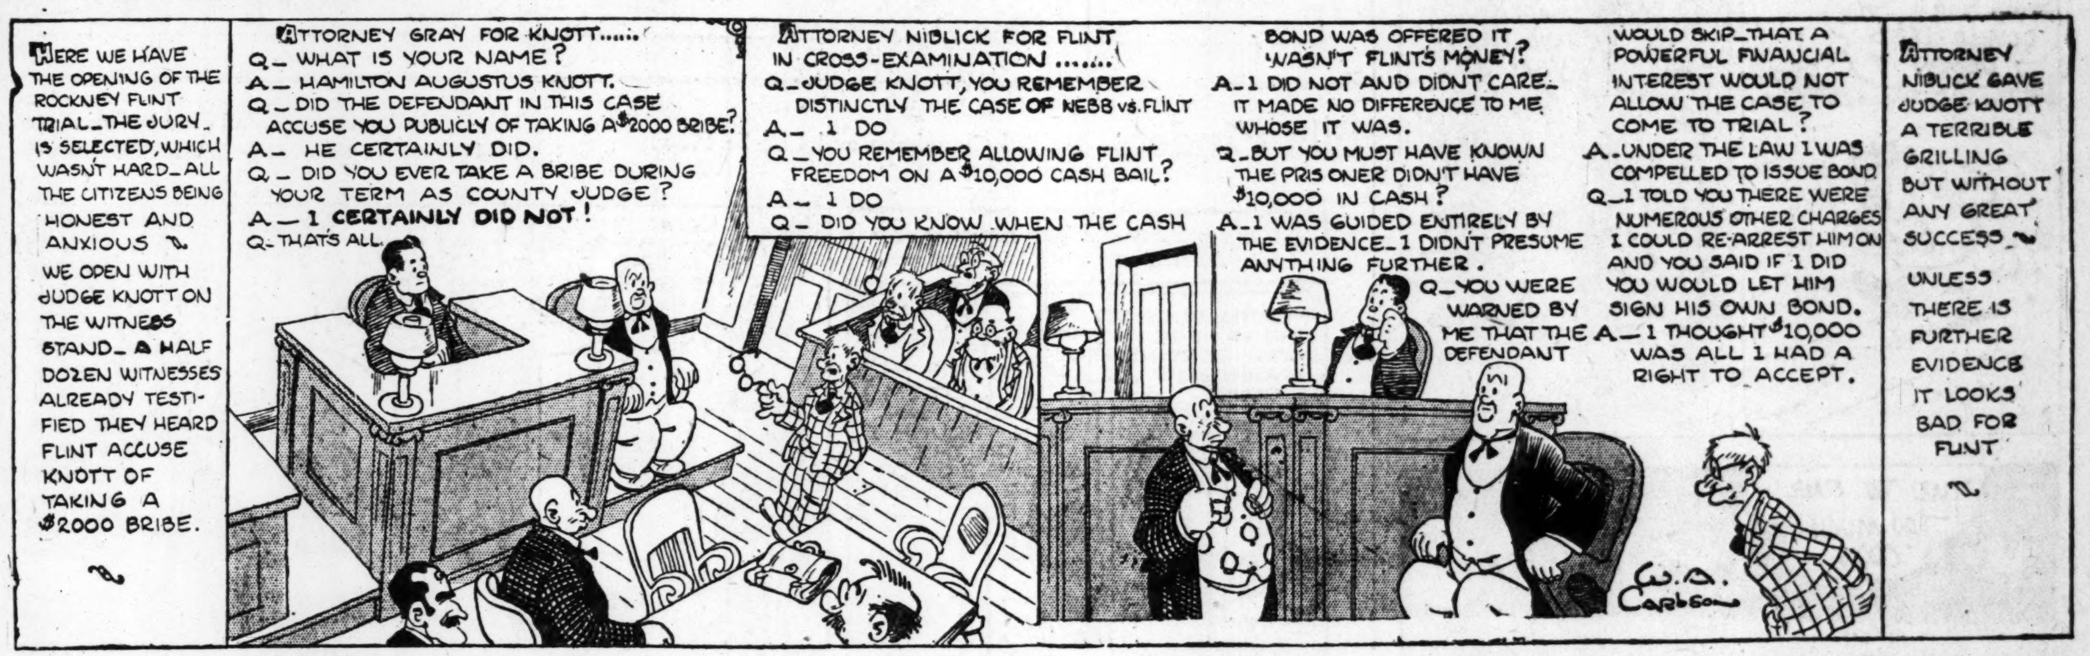
—Now What?



HERE WE HAVE THE OPENING OF THE ROCKNEY FLINT TRIAL—THE JURY IS SELECTED, WHICH WASN'T HARD—ALL THE CITIZENS BEING HONEST AND ANXIOUS — WE OPEN WITH JUDGE KNOTT ON THE WITNESS STAND— A HALF DOZEN WITNESSES ALREADY TESTIFIED THEY HEARD FLINT ACCUSE KNOTT OF TAKING A $2000 BRIBE.
ATTORNEY GRAY FOR KNOTT......
Q— WHAT IS YOUR NAME?
A— HAMILTON AUGUSTUS KNOTT.
Q— DID THE DEFENDANT IN THIS CASE ACCUSE YOU PUBLICLY OF TAKING A $2000 BRIBE?
A— HE CERTAINLY DID.
Q— DID YOU EVER TAKE A BRIBE DURING YOUR TERM AS COUNTY JUDGE?
A— I CERTAINLY DID NOT!
Q— THAT'S ALL.
ATTORNEY NIBLICK FOR FLINT IN CROSS-EXAMINATION ....
Q—JUDGE KNOTT, YOU REMEMBER DISTINCTLY THE CASE OF NEBB vs. FLINT
A— I DO
Q—YOU REMEMBER ALLOWING FLINT FREEDOM ON A $10,000 CASH BAIL?
A— I DO
Q— DID YOU KNOW WHEN THE CASH BOND WAS OFFERED IT WASN'T FLINT'S MONEY?
A—I DID NOT AND DIDN'T CARE— IT MADE NO DIFFERENCE TO ME WHOSE IT WAS.
Q—BUT YOU MUST HAVE KNOWN THE PRISONER DIDN'T HAVE $10,000 IN CASH?
A—I WAS GUIDED ENTIRELY BY THE EVIDENCE—I DIDN'T PRESUME ANYTHING FURTHER.
Q—YOU WERE WARNED BY ME THAT THE DEFENDANT WOULD SKIP—THAT A POWERFUL FINANCIAL INTEREST WOULD NOT ALLOW THE CASE TO COME TO TRIAL?
A—UNDER THE LAW I WAS COMPELLED TO ISSUE BOND
Q—I TOLD YOU THERE WERE NUMEROUS OTHER CHARGES I COULD RE-ARREST HIM ON AND YOU SAID IF I DID YOU WOULD LET HIM SIGN HIS OWN BOND.
A—I THOUGHT $10,000 WAS ALL I HAD A RIGHT TO ACCEPT.
ATTORNEY NIBLICK GAVE JUDGE KNOTT A TERRIBLE GRILLING BUT WITHOUT ANY GREAT SUCCESS — UNLESS THERE IS FURTHER EVIDENCE IT LOOKS BAD FOR FLINT

THERE ARE TWO THEORIES REGARDING THE STRANGE DISAPPEARANCE OF HERMAN LAMB, BUT A REVIEW OF THE EVIDENCE INDICATES WHY SO FEW PERSONS SHARE THE COLONEL'S BELIEF IN HIS OWN INNOCENCE
BEFORE GOING AWAY, HERMAN INSISTED THAT HE FEARED VIOLENCE.
I AM GOING TO THE RIVER WITH BUNGLE. I'M BEING FORCED INTO THIS, KIND PEOPLE. GOODBYE!
AND THEN THE COLONEL RETURNED ALONE.
THAT PHONY! I'LL FIX HIM FOR LEAVING ME AT THAT RIVER.
HERMAN LAMB'S HAT, COAT, WATCH, AND PURSE, BROUGHT BACK IN THE COLONEL'S CAR, MUTELY AGREE WITH THOSE WHO SUSPECT THE WORST.
EVEN MRS. BUNGLE WAS NOT TOO FAVORABLY IMPRESSED WITH THE EXTREME SIMPLICITY OF HER HUSBAND'S STORY.
WHEN WE GOT TO THE RIVER HARD HERMAN SIMPLY STEPPED OUT OF THE PICTURE.
WELL!
DURING THE INVESTIGATION, THE COLONEL'S MEMORY WAS MUCH BELOW ITS SUBNORMAL AVERAGE.
WHY DIDN'T YOU MENTION ABOUT THE COAT ETC. THE FIRST TIME WE QUESTIONED YOU?
OH, I JUST FORGOT THAT.
AND NOW THE COLONEL IS OPENLY DISAGREEING WITH THE POETIC IDEA THAT STONE WALLS AND IRON BARS DO NOT A PRISON MAKE.
TELL ME! THIS IS JUST ACT ONE IN A BIG POLICE SHAKE-UP.

NEW FORD AUTO PRIVATELY SHOWN AT ST. LOUIS PLANT

Six Models, Including a Truck, Do Not Resemble Even Remotely, Model T, Which They Succeed.

ON PUBLIC DISPLAY AT COLISEUM FRIDAY

Trial Ride Over Bumps Inside Building Shows Effectiveness of Shock Absorbers.

The new Ford models, scheduled for their first public showing Friday at the Coliseum, were exhibited to newspapermen today at the local Ford assembling plant in conjunction with the company's first announcement of detailed specifications of the car.

In the line of shiny new cars to which the visitors were led this morning were a touring car, now to be called a phaeton; a standard coupe, sport coupe, tudor sedan and roadster. A one-and-a-half ton truck, which can be converted to three-ton capacity by the addition of dual tires, will also be added to the exhibition at the Coliseum.

Not even remotely do the new Ford models resemble their spindle-shanked prototype, the Model T. The body lines are long and low, the four colors, from which purchasers may select are tastefully applied, and balloon tires, wire wheels and sturdy construction give a general appearance of ruggedness.

Points in Common With Lincoln.

Stock colors, as announced in the Ford advertisement today, are Niagara blue, Arabian sand, dawn gray and gunmetal blue.

The phaeton on display is finished in the Arabian sand shade, a tan-brown with contrasting body stripe of darker brown. It has entirely new lines. The sides are high and the seats roomy and deep, upholstered with one-piece leather in contrast to the old touring car, which had a quilted effect and the facility of gathering most of the dust that came its way. The phaeton, like the other models, has a radiator which is a miniature of the Lincoln radiator. Headlights are of the new, wide reflector type, and the combination tail and stoplight is a miniature of the same equipment on the Lincoln.

The sedan is finished in dawn gray, upholstered with cloth and comfortably roomy. The roadster and standard coupe are also low-hung and of general sturdy design, and the sport roadster, with a khaki top and deeply upholstered rumble seat, is a distinctly attractive car.

A Trial Ride.

With reporters as passengers the sedan was driven at breakneck speed inside the building with absolute control. Its hydraulic shock absorbers eased it over formidable bumps, such as the garage wash rack, with only the faintest suggestion of shock. Its motor was unusually quiet, and its braking system eased it down to smooth, but certain stops.

Four-wheel brakes, a 40-horsepower engine, three-speed selective transmission of unusual smoothness and multiple disc clutch are among the features that make possible the performance of the car. The chassis has a 104-inch wheel base, as compared with 100 for the old Model T.

The engine, developing its maximum power at 2200 revolutions a minute, is of low speed type for which long life is claimed. Its stroke is 4¼ inches and its bore 3⅞, the latter dimension bringing its rated horsepower for license purposes to 24.03, and making the cost of a State license $16.50 instead of $10.50, the Model T price, and the city license $5 instead of $3.

Has Done 65 Miles an Hour.

The new machine has done 65 miles an hour in road tests and can tour at 55 miles an hour. Gasoline economy of 20 to 30 miles to the gallon is claimed. The crankshafts are balanced individually before they leave the factory, to insure smooth engine operation. Oiling is by pump, which carries oil to the valve chambers by gravity which drops it upon the main bearings, and by splash to connecting rod bearings and cylinder walls.

The ignition system is housed in steel and rubber and is theft proof. The brakes are of internal expanding type, easily adjustable, and the steering gear is irreversible.

Included in the standard equipment are starter, five wheels, windshield wiper, speedometer, dash gasoline gauge, door lock, dash light, rear view mirror, stop light, oil gauge, ignition lock and complete tool set.

Prices are to be announced tomorrow or Friday.
